is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. This it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of the virtues from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its work. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of those disorders. Purge out the foul corruptions that rot and fever the blood, purge out the causes of disease, and vigorous health will follow. With its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lark within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more efficacious than any other which has ever been available to them.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to succumb as humanity and the happiest siblings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the victim for either the duties of life or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects of the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self distrust, Melancholy, &c., are some of the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female constitution, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all cured upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most sufferers experience relief in a day, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room, and the sad iron heater has a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the ashes, instead of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds in families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

SOME OF ITS ADVANTAGES.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection raised by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive buildings have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and, consequently, by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinker, do away with the cinders, so much complained with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any re-kindling.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cutter, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Hendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. Without it, almost all persons can be building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

5th. Which is all worth, it is lighter, easy in a few peculiar cases, it is much cheaper than Gold.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, 'do just and fair with all;
Exalt the right, though every inn fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. It serves to promote or the popular leaders, It is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twen ty-years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered from elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his business practice, has prosecuted to successful issue SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

☞ ATTENTION, THE WHOLE! ☜

EXE, N. H., Feb. 26, 1845. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of Humors." I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.
PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with diseases at my stomach, loss of appetite, and often vomited upon the food I swallowed. I have eaten it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S Panacea, which gave me ease, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.

From ELDER I. CHESLEY, *Lee, May 31, 1861.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that symptom of her sitting our house in the spring of 1860, she had been confined for a number of months, without the natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. mav.60

THURSDAY, AUGUST 6, 1863.

NATIONAL THANKSGIVING.

Abundant reasons we have for giving thanks this day, not only in public, but in our inmost hearts, that in the midst of great suffering and sore calamity, we are receiving great blessings: especially that Vicksburg, Port Hudson, and the great River Mississippi, are ours, in the possession of the United States; that the rebel invasion of Pennsylvania was turned back at Gettysburg; and that the mobs and insurrections of traitors have been quelled.

We have occasion for thankfulness in the present condition of the fruits of the earth, and general health; mixed with sadness at the loss of many noble men and true patriots, who fell in defending our Country and our Constitution from the attacks of an Aristocracy in armed Rebellion against liberty and law, seeking to make slavery the rule and freedom the exception.

Our feelings of thankfulness and joy are not unmixed, and cannot be in human souls and christian hearts; for we have occasion for penitence, sympathy and self-abasement. Pride, reckless disregard of God's law, drunkenness, hatred of the oppressed, still abound. The work of conversion is but half accomplished; thousands still love party, office, money, power, more than country, justice or humanity.

And what calls we have to weep with those who weep! Our land is full of mourning. Hospitals are crowded with wounded soldiers. Sorrow and grief are all around us. Our hearts and hands may well be open to action.

And while we try to do our duty, let us have the most perfect trust in God, the Judge of all the earth.

In the words of the Morning Star, "God's hand is plainly seen in the progress of events; he allowed the rebels to have just so much success, and brought the Union to just so much peril, as was necessary to crush slavery, and then the armies of the enemy seemed to melt before us, victory crowns our arms on every hand, the vital points of the rebellion suddenly break down.

We should be thankful, then, that our sufferings have educated the nation to regard slavery as our real enemy, and to strike a deadly blow at its existence; that such wonderful success has attended our arms, and that the great rebellion is now so broken that all sensible men see that it must be crushed; that some of the rebel States are likely to be re-organized as free States, and begin a course of unparalleled prosperity, which shall vindicate before the world the superior excellence of free over slave labor; that we are likely to conquer a peace which shall never again be broken by the barbarous institution of slavery; that the elements of Christian civilization which are embodied in our political polity are to be vindicated and commended to the world, as the true system for human culture and government; that this nation is likely to be purified and made better by our sufferings, so as to become a blessing to all the nations of the earth; that we are learning more and more to recognize God in our national affairs; and that the infidel spirit which was fast blighting the whole nation, is being discarded. Yes, we have reason for gratitude that the wrath of man is overruled to forward righteousness, and that we have increased assurance that God has chosen this nation to serve him in the great work of the world's redemption."

FROM KENTUCKY we learn that the election returns from all parts of the State indicate a decided Union victory. In that part of the State which was considered doubtful, is a large majority for the Union candidates. We also learn that Clay and Smith are certainly elected to Congress.

The Concord (N. H.) Patriot, says of this election, that "the Democrats were driven from the polls, under Burnside's order, and but few votes were cast for their patriotic and Union loving candidate for Governor, Mr. Wickliffe."

Per contra, the Boston Courier says, "the result of the election in Kentucky is such as will satisfy every conservative Unionist in the country. Mr. Wickliffe, who ran in opposition to the Governor elect, Mr. Bramlette, was and is, we firmly believe, as honestly and truly devoted to the Union as his competitor; but he took his stand upon the *extreme* "no more men and no more money" platform, and in consequence, was *supported* by many sympathizers with the *rebellion*."

The Louisville, Ky., Journal said, before election, "the platform of the Union Democracy of Kentucky is the platform of the Northern Democracy, as represented by Governor Seymour."

Putting these things together, the reader can judge what *sort* of democrats they were, "driven from the polls." Truly they were no democrats at all, but rebels and copperheads—yet they called themselves democrats, and their defeat is mourned by kindred spirits elsewhere.

Gen. Grant states that his captures of prisoners since April 1st amount to thirty-nine thousand men. He has also taken five thousand head of cattle and five hundred thousand rounds of cartridges.

THE REBELLION.

From the Southwest we learn, via Memphis, that Col. Hatch has driven Richardson's band of guerrillas, 1000 strong, out of Mississippi, and has turned his attention to Gen. Pillow's rebel forces, which are in the neighborhood of Paris, Tenn. Pillow is reported to have crossed the river at Paris on Sunday last with 6 regiments.

One of Gen. Dodge's scouts, who left Tuscumbia July 25, reports that Rhoddy has sent his baggage and stores towards Rome, Ga., but remains in Tuscumbia valley with almost all his forces. He also reports that nearly half the Alabamians in Bragg's army have deserted, taking their arms, and are in the mountains, refusing to go back.

Lieut. Davenport, of the 26th Miss. regiment, left Johnston's army, August 1, and reports that Johnston with the bulk of his army, was at Meridian. The rest of his force was under orders to go to Mobile.—They were entirely ignorant of Grant's movements.

An U. S. cavalry expedition under Col. Spear, and artillery, crossed the Chowan river, at Winton, N. C., and proceeded to Jackson, 12 miles from Weldon, near the Roanoke River, where the enemy were discovered in force. Our advance made a charge on the rebel advance and drove them back, capturing seventy prisoners.—Our loss was two killed and three wounded. We captured 60 bales cotton and 100 horses. Heavy rains caused suffering among the men. The rebels report a repulse of this expedition.

The Richmond papers state that Jeff. Davis has received a dispatch from Lieut. Hardee, stating that Gen. Dick Taylor has had an engagement with the Union forces, under Banks, and that he had completely routed them, capturing six hundred prisoners.

The Richmond Enquirer of the 1st says: It is reported that a force of Yankee cavalry has appeared at Stafford's store in Stafford county, 15 miles of Fredericksburg.

Gen. Neal Dow will proceed on a trip to Mobile this morning, escorted by two officers of the Confederate police.

A dispatch from Rappahannock Station (Va.,) 4th, says a force of the enemy's cavalry with artillery attacked Gen. Buford's pickets this afternoon and drove them about a mile, when the General went forward with the first brigade of his division, and the 2nd division, and drove the rebels back beyond Brandy Station, establishing our picket lines half a mile further out than before.

The Washington star says the news from Charleston is upon the whole, favorable. The feeling is that the city must fall, but as was the case at Vicksburg, the siege may be of a protracted character.

A letter from our force there, says:—

Last week there were hanging from the parapet of Sumter, as a protection to the walls, lines of cotton bales. It told us plainly that 15-inch shot were equal to its destruction; but the cotton bales are now gone. They were set on fire, as they hung, by their own guns. They were obliged to take them down, and they are now piled into scorched heaps behind the fort. Everything betokens a fearfulness on the part of the rebels here which is quite encouraging to us.

Richmond papers say Gen. Grant's army have left Vicksburg, and the Yankees report that they are bound to Mobile and Tennessee.

The Charleston Courier 23th, says there were about 27 vessels inside the bar Yesterday, including the Ironsides and six monitors.

The news from Port Hudson has got to England; rebel loan stock went down 20 per cent in a panic.

The draft in New York State is progressing in Buffalo and Rochester.

CHARLESTON.—We had been hoping to hear of the reduction of Charleston, before Thursday, but the correspondent of the Traveller at Morris Island writes;

"Sumter and Charleston will certainly be ours. But the man who thinks we are going to take them in a day or a week, don't know anything about war or the work we have in hand. If we take Charleston in two months the country will certainly have cause for thankfulness, and Gen. Gilmore will be entitled to great credit. The enemy have had the most skillful engineers in the country at their command, and two years' time to fortify the place. If we take the place in two or three months, it will be no mean achievement."

☞ In the South-West, at Vicksburg, no trading-permits of any kind are granted, and none but sutlers allowed to land goods. Gen. Grant is understood to oppose any and all opening of trade for the present. He first wants to "end the war" in this section. His experience has been that trading retarded military operations wonderfully; hence none can be done with his permission at present.

DEATH FROM HEAT.— On Monday evening Mr, Peter Coffee, an Irishman, 65 years old, a laborer in the comb factory at Newburyport, died from the effects of the heat. He was in usual health when he took dinner, but suffering from the heat, and drank freely of cold water. In the evening he was a corpse.

NEW HAMPSHIRE ITEMS.

—— The 5th Regt. N. H. V., which arrived at Concord on Monday morning, were a little earlier than was expected, so that their reception was comparatively private. But between 10 and 11 o'clock they were provided with a substantial breakfast at the Phenix Hotel. Subsequently, Gov. Gilmore, having returned home, welcomed them in the State House Yard. They were then escorted to their quarters at the camp over the river, by the company now stationed there, which came from Fort Independence a week or two since. The Concord Brigade Band, in uniform, furnished excellent music.

Lt. Col. C. E. Hapgood (who went out as captain) is in command of the regiment, and Richard E. Cross, a brother of the lamented Colonel Cross, is major. The battle roll of the regiment bears the following names: Yorktown, Fair Oaks, Peach Orchard, Savage Station, Malvern Hill, Antietam, Fredericksburg, Chancellorsville and Gettysburg.

—— Two brothers, First Lt. George H. French, who lost his left arm at Gettysburg, and Caleb J. French, employed in the Government Post Office at Old Point Comfort, Va., arrived home in Nashua, Saturday, Aug 1st. Lt. French intends to rejoin his regiment (12th Mass.) as soon as the injured arm is fairly healed.

—— Major D. K. Wardwell, in command of a battalion of the Invalid Corps, one company of which has been stationed in Boston and two companies at Wenham, went up with the battalion to Concord, N. H., —probably to aid in the protection of the draft. Another battalion of the Invalid Corps left Washington, Monday, for Massachusetts.

—— First Lt. Ezra Davis, Co. B. 7th Regiment N. H. V., received a fatal wound in the late attack upon Fort Wagner, and expired in New York, July 30th, while on his way home. He was a member of the Methodist church in Nashua, and of the Odd Fellows. Both attended his funeral in the City Hall, last Saturday.—A notice of him closes with these lines:—

Serene, our heroes rest,
Where dwell the ever blest;
To heaven their spirits soar,
They hear no battle roar;
Unknown is grief and pain,
Where dear ones live again.

THE TRUE STATE OF THE CASE.—The Concord Patriot of August 5, speaking of the 5th Regiment, N. H. V., says:

"This regiment has been brought home to aid in enforcing the draft, and from conversation with the men it seems that they have been made to believe that the draft will be forcibly resisted, and that they have got as hard fighting to do here as they have done on the bloody fields further south!—The men who have thus misled these soldiers—who have thus filled their hearts with bitterness towards the people at home, have got a fearful account to settle some day. And if they succeed in getting up a conflict between the troops and the citizens, that account will be settled at an early day. But we trust the soldiers will be undeceived, and correctly informed as to the true state of the case."

The true state of the case is this. *Threats* of forcible resistance to the draft have been *common* among the copperheads in this District, great and small, for a very considerable length of time, put out generally in the form of fears or apprehensions, but none the less threats after all. Not only so, preparations were made; rowdies were brought in large numbers,—and finally a mob, that failed of great mischief, *only* because it was put down by the police with a small *armed force in reserve*. Without this reserve, a second or third mob would have done what the first failed to do.

The 5th regiment have probably heard of the New York Copperhead rebellion, which Gov. Seymour calls an insurrection: and if they can now be furnished with files of the Copperhead papers in this State, for three months back, they may see that those sheets were calculated and designed to defeat the draft, weaken the army, and strengthen the rebellion.

With the military now in Concord, we presume their will be no trouble: *without* them, there doubtless would have been.

So in this place;—with a good force, well arranged, all will go smoothly:—but without it, unless those who made the threats are liars or cowards, there would be confusion, trouble and damage.

But if worst *does* come to worst, and Northern rebels and traitors *are* found to be as much demented and as really in in earnest, as their long-time "friends" and masters at the South—why, we might as well know now, as at any time, whether we have a Government or not. For our part, we can't see much difference between traitors at the two ends of the country—but if there be any, it is in favor of those at the South, who have never had the advantages of New England institutions. We agree with the Patriot's intimation or threat—that "if they" (no matter who) *do* "succeed in getting up a conflict between the troops and 'the citizens,' that account *will* be settled at an early day,"—and to the discomforture and disgrace of the demagogues who have been trying to foment such an unhappy and useless disturbance.

STRUCK.—The lightning on Saturday evening struck a large oak tree, as big round as a barrel, in a pasture about two miles out on the turnpike. The trunk was twisted off, some eight feet above the ground, and the stump set on fire. It was burning, at noon on Monday.—*Newburyport Herald.*

☞ The town of Exeter has voted to pay each drafted soldier, or his substitute, the sum of three hundred dollars, at the expiration of ten days after he has been mustered into the United States service.

The town further voted the same monthly payment of families of drafted men, as has formerly been given to those who have Volunteered into the service.

☞ Late advices from Japan disprove the report of the commencement of hostilities by the British On the contrary, the dispute between the two countries had been amicably adjusted, at least as far as relates to the claim for pecuniary indemnity, demanded of the Tycoon for the murder of Mr. Richardson. The demand for the surrender of the murderers and of indemnity for the losses of merchants was still a subject of negotiation.

☞ The victories of the Union arms at Gettysburg and Vicksburg had the effect of sending down the rebel bonds in the London market to 4 1-8 discount, and of sending up U. S. fives seven per cent., while all other American securities advanced from three to five per cent.

The London Star regards the news from America indicates the exhaustion of Southern resources.

The London Times considers the riots in New York as an insurrection against the government.

DEATHS.

At Judiciary Square Hospital, Washington, D.C. July 29th, ALFRED S. LAIGHTON, of the Celebrated California Hundred, 2d Massachusetts Cavalry, aged 19 years 8 months, youngest son of Mr. Charles E. Laighton of this city. Funeral services at No. 8 Auburn Street, this Thursday afternoon at 5 o'clk.

In Rye, July 31, Mr. SIMON LOCKE, aged 93 years.

In Newington, Aug. 5th, Mrs. ELIZABETH M. NUTTER, aged 83 years, widow of Rev. James Nutter—a woman of decision and strength of character, calm and firm; respected and beloved wherever known. Funeral from her late residence, this Thursday afternoon at half past 2.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 3 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water Wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Iloed Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of EXCELSIOR HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, previous to the late fire, when the mills were destroyed, for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Center. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES R. ODIORNE at Rye, or of WILLIAM H. HACKETT.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of truss Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 8 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

THANKSGIVING SERVICES.
THIS DAY.

Regular services are to be held this morning at the usual hours, at St. John's, St. Mary's, the North and the Stone Churches, and at the Christian Chapel in Court St.

In the afternoon, Prayer Meeting at the Chapel of the Middle Street Baptist Church.

In the evening, services in the Universalist Church, sermon by Rev. E. G. Brooks, at seven o'clock.

Temperance lecture in the Temple by Mr. Brown, of Boston.

☞ Two Companies of the Invalid Corps, about two hundred men, who were by mistake sent to Concord on Tuesday, came to this city in an extra train, on Wednesday afternoon, and marched to the Ropewalk barracks. They went by way of Water street, and drew up in line on old *Liberty* Bridge, and gave "three good rousing cheers for the Union," in that very appropriate locality. So we are told.

☞ Lyman T. Pray, a little boy between two and three years old, son of Peter Pray, was knocked down on Tuesday, in High street, by a store wagon, and badly hurt, the hub of the wheel striking him on the head.

☞ The Portsmouth Cornet Band announce one of their cheap, popular and successful excursions to the Shoals, for Thanksgiving Day.

☞ To-day being National Thanksgiving Day, we shall print no Daily Chronicle on Friday.

"BURLEIGH" ON THE FASHIONS.—the Saratoga correspondent of the Boston Journal writes:—

The dress is toned down greatly the present year. But few gorgeous ladies appear; and in cases where display could be well afforded, the dress is modest and subdued. So many vulgar people, owing to sudden wealth, demand the most costly dresses and expensive jewelry, that the *ton* seems to have come to the determination, so mysteriously formed, to be remarked and distinguished by the plainness of the attire. But few jewels are worn, and when a party appear with a profusion of diamonds, they are at once voted snobs.

Crinoline is doomed — not positively driven out as yet. But any one who will observe the signs of the times can see what is coming—very much smaller than ever before worn. The hoop skirt is contracting, while now and then a dashing girl flirts along and flaunts along with a dress clinging to her, suggesting that she has either dressed in haste and forgotten her hoops, or has taken by accident a dress that belonged to her grandmother; but evidently in glee at the sensation she produces, and tickled that she was among the earliest to lead the coming fashion at Saratoga.

☞ Our news from Vicksburg reached Paris on Sunday, July 19, and got into the American Chapel. Just before the commencement of the service, a young man entered; proceeding to the pew of the American Minister, handed a paper to Mr Dayton. The latter eagerly and hastily read it, and whispered to Rev. Henry Ward Beecher. That gentleman copied the dispatch and sent it up to the pulpit, and in a moment the good news was whispered round the house. Vicksburg was ours. Of the effect of the news on the rebel residents and on the French Government, the correspondent of the New York commercial Advertiser says:

The secession journal of Paris, only the day before the arrival of the news, had laboured to show that Gettysburg was a defeat for the national arms, that Johnston was going to force the abandonment of the siege of Vicksburg, and that these events would close the war by showing the utter uselessness of longer attempting the suppression of the rebellion.

The good news fell upon these people like a thunderbolt. There was a great rush on Sunday to the Grand Hotel, which is the rendezvous of the Southern men, and Mr. Slidell declared the first brief dispatch 'a lie.' But soon it was known that an official dispatch had been received through Mr. Adams from Mr. Seward, and then there was no longer any doubt. Later on in the evening the details arrived, and then the secessionists disappeared. It was curious to see in one corner of the large court of this hotel a considerable group in which Mr. Slidell was the principal personage, and another group of loyal men, in which Henry W. Beecher was one of the principal personages.

There is a reason to believe that these dispatches have made a deep impression at the French court, and that they will exert a direct influence upon his Majesty's programme in Mexico.

We understand that Mr. John Scammon of Stratham, while turning his carriage near the Post Office in Exeter, was thrown out, and had his leg broken, both bones, near the ancle. He was assisted to his home in Stratham, where he had the bones set.—*N. Letter.*

In Newmarket on Saturday, while assisting in taking down the brick work on the inside of one of the stone mills in that place, Mr. Oliver Demeritt was instantly killed. He was standing upon a high staging, upon which was a pile of bricks—the staging gave way, Mr. Demeritt fell, and the bricks fell upon him, striking him in the head.—*N. Letter.*

☞ The twelve sheep exhibited by Mr. Campbell of Vermont at the World's Fair at Hamburg, were sold on the fair ground to Count Scherr Thoss, for five thousand dollars.

☞ In Washington city the draft in four out of seven wards has been completed.—It embraces 2600 whites and 818 colored men. Amongst the drafted are three clergymen and many members of the city councils, and several telegraph operators, also reporters, printers, lawyers and representatives of all classes of business.

☞ George J. Lang, a substitute agent, was arrested at Taunton last week on the charge of bringing drafted men and others liable to draft from New York and inducing them to enlist as substitutes in Mass. He was taken to New York.

☞ The Japanese Government paid $400,000 as indemnity for the murder of Mr. Richardson, but refused to surrender his murderers, alleging that they were subjects of Prince Sotzama.

☞ The price of substitutes in Philadelphia ranges from $50 to $100. In one case the Philadelphia *Press* says as high as $250 has been paid, but men are offering themselves freely at the lower rates.

PREDICTION FULFILLED.—Some were disposed to sneer at Maj Gen. Banks nine months ago, because he said to the nine months' men, that they should return home by another route than that of the ocean. Those same men are now coming home by the way of the Mississippi river.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with every farinaceous food. It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household articles ever presented the public They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly fast. samples on silk and wool can be seen and the colors procured of THACHER. ju20

THE ONLY COUNTERCHECK.—The times in which we live teem with wonders.—Nothing seems impossible; for the impossibilities of one year become the commonplace events of the next. Lightning presses, instantaneous communication between the most distant points, and innumerable inventions for compressing vast amounts of business into small spaces of time, and for curtailing the processes of production and manufacture, are among the marvels of this marvelous era. Under such circumstances, we may truly be said to live "a fast life." But whether the whirl and rush by which we are borne along is really conducive to our happiness is another question.

Certain it is, that the average duration of human life is decreasing in the midst of this excitement. The modern phases of disease seem to puzzle and baffle the faculty, and with two remarkable exceptions, viz. HOLLOWAY'S PILLS and HOLLOWAY'S OINTMENT, no medicines appear to make the desired impression upon internal or external disorders. These two celebrated remedies are said, however, to be accomplishing the most wonderful cures throughout the length and breadth of our land. Liver complaint and diseases of the stomach and bowels, which in a majority of cases are produced by over-exertion and over-excitement in business, yield to the Pills when all the resources of druggists and apothecaries have failed, and eruptive and scrofulous complaints seem to be equally under the control of the Ointment. We congratulate Dr. HOLLOWAY on the signal success of his great medicines in this country. From what we know of the man, we have no doubt that the profits derived from that success will afford him far less satisfaction than the knowledge of the good his remedies have effected.—*N. Y. American.*

WINE.—A new wine is just coming into popular favor, but by no means intoxicating in its nature. We refer to Speer's Sambord Wine which has been introduced into the hospitals and among the first families of New York, and in London and Paris, by Alfred Speer of Passaic, N J., who has devoted himself for several years to the study of fermentations and producing an article, the medicinal properties of which are said to be unsurpassed by gentlemen of reputation.—Mr. Speer ferments his wine by a new process, peculiar to himself, without the addition of sugar or spirits. We doubt whether there is a vinery yet in the old or new world that can yield a wine at all comparable to this in richness or delicacy of flavor. All first-class druggists keep it.

The above extract from the N. Y. Herald shows the appreciation in which Speer's Wine is held abroad. We have drunk the wine, and can truthfully indorse what the above extract says concerning its good qualities. The way in which it is prepared by Mr. Speer gives a finer flavor than any wine we ever drank before. We recommend our readers to try it.—*Boston Trav.*

One of our government officials just returned from Peru, tells us that among the first and most frequent inquiries made of him there about our public men was, whether he had knew or had ever seen the celebrated American Chemist, Dr. J. C. Ayer of Lowell. His remedies are found in every village from the elevated slopes of the Andes down to the coast, and their remarkable cures seem to attract even more attention there than in this country. The sentiment of wonder at their effects takes a far deeper hold on a half civilized and superstitious people than it does with us where the rationale of medical problems is so much more generally understood. No other American has made himself so familiar by name to the masses of the people in foreign countries, or excited in them so lively an interest in himself, as the Doctor has by his skilful application of chemical science to the treatment of disease.

That must be a dull man who does not feel some pride of country when he finds among distant nations that he is already known and honoured there, through the labors of our Statesmen, Merchants and Scholars, whose renown has become national property, and consequently in some measure his own. Whether the Ayers family do actually cure more than others or not, they have earned the reputation of being a God-send to those afflicted with diseases, and where great numbers in any community believe that they owe their health and lives to one's skill, they are sure to feel an interest in him which will find expression when they meet his countrymen.—*National Era, Washington, D. C.*

Is it possible that any Soldier can be so foolish as to leave the city without a supply of HOLLOWAY'S OINTMENT AND PILLS? If he does so will deeply regret it. These medicines are the only certain cure for bowel complaints, Fevers, Sores and Scurvy. Only 25 cents per box. 22d

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR.

(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that only those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in extensive practice in this department of medicine, Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other diseases of the skin, he is perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with Unknown Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in the fact that he made them sound, and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from observation. Address

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces a feeble or diseased body, or an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and stidy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous diseases will leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. The ills it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy invigorates the vital functions, and thus expels the distempers which lurk within the system, or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Gleet, Scrofula, Gonorrhœa, Chordee, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Strictures, Seminal Weakness, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Nervous debility, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, love of solitude, &c., are among the evils produced. Such persons should not think of contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for their use, on receiving a description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, as Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of Cases of women and children, than any other physician in Boston.

Boarding accomodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S. Dr. Dow's specifics and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the ovens larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity for boiling, and the new style of the warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, the possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air at the bridge, and are forced, by checking them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat, without taking the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 *per* cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—fill the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the material does not, the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept cleaned and sweet by any person, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory to all, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. SEWARD, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Fresh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unnecessarily superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sured having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, has obtained patents on rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, on several occasions, for her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.
JOSIAH LANGDON.

PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomiting all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which totally cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.
M. LOWD.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without the natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named."
ISAAC CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26tf

SATURDAY, AUGUST 8, 1863.

THE REBELLION.

Gen. Herron's division, while at Natchez, destroyed an immense amount of rebel stores, and captured a large quantity of salt from Louisiana for Lee's army, and a supply of cattle from Texas.

The Atlanta Appeal of the 24th ult. thinks that Rosecrans is moving on Selma. The same paper says that the mountains in North Western Georgia are full of rebel deserters.

It is reported, via Cairo, that Gen. Banks had reached Biloxi, Miss., and that Gen. Grant is sending him mes very fast, to ensure the capture of Mobile. The place is but poorly defended. Biloxi is 227 miles southeast of Jackson.

It is probable that the story of a defeat of Gen. Banks, with a loss of six hundred men, lately published in the Richmond papers, is the old story of the fight at Donaldsonville, La., revamped.

A dispatch from Cairo says the rebellion is dead, west of the Mississippi, except in Arkansas, and Gen. Steele may overcome that in a short time.

Steamer Hope has arrived at Memphis, Tenn., with prisoners from Port Hudson, Vicksburg and Jackson. Everything is quiet on the river below. Col. Hatch reports that Forrest, Biffles and Wilson are retreating, and their men are deserting in every direction. Col. Hatch has divided his force, and is scouring the country, picking up all the small squads he can find.

A scout that left Okolona on Sunday reports that Gen. Joe Johnston's army is at Enterprise and Brandon, under the direct command of Gen. Hardee. Gen. Johnston went to Mobile on the 27th. The scouts think the rebels will remain where they are unless Mobile is attacked, and say Johnston has lost 10,000 men by desertion since the fall of Vicksburg.

The rebels in all official circles acknowledge that Morris Island will be taken. Secret societies have been organized with the intention of bringing Mississippi back into the Union. Officers are arresting citizens and soldiers connected with them. The late conscript act will not avail much in the Southwest.

The bombardment near Charleston was more spirited on the 29th. The Federals were erecting their new batteries within 600 yards of Fort wagner. The new rebel batteries on James Island caused them much annoyance. Two thousand more Federals had been landed on Folly Island. The Yankees had captured three blockade runners.

The Mobile Press of the 31st says, editorially, "Gen. Grant's conduct, in paroling the Vicksburg prisoners, is being investigated. We hope his head will be struck off, for he could not have struck a heavier blow to the Confederacy. Pemberton's army is dispersed, and the Texas and Alabama troops which have crossed the Mississippi are lost. The whole mass of the remainder is precipitated upon Johnston's camp, to eat his stores, discourage and decimate his ranks, and now are ordered to report to the same officer as fast as exchanged, which they will not do, as they hate him. If Pemberton is assigned to the command of that army again, it will be equivalent to its annihilation. Not a tithe of it will be gathered together again."

On the 4th of August, the siege at Charleston was progressing favorably. So says an arrival at Fortress Monroe.

Advices from the front of our army in Virginia report very heavy skirmishing on the 5th. Our batteries were engaged all day in feeling the enemy's position. Fitz Hugh Lee's brigade of cavalry and portions of Longstreet's division comprise the rebel troops at Fredericksburg. Lee daily sends scouting parties across the Rappahannock to watch any movement that Gen. Meade may make in that direction.

Jeff. Davis has issued an appeal to officers and soldiers to return immediately to their corps. He complains of a want of alacrity in this most dismal hour of the South.

The Richmond Examiner is gloomy over the prospects at Charleston, and says the fall of that place will be a fatal blow to the cause of the Confederacy.

☞ William Lowndes Yancey, the leading spirit among the rebels at the outbreak of the rebellion, is undoubtedly dead. He was a native of South Carolina, born in 1815, and for a time resided in Massachusetts as a student of Williams College, from which he was expelled for misconduct.—Afterwards he shot an uncle, and was imprisoned for 15 months. His youth gave promise of what his manhood would be.—He removed from South Carolina to Alabama, and became a member of Congress, where he sided in the Texas annexation.—He was the first to announce secession, if a President was elected on the Republican platform; and he urged that action after Mr. Lincoln was elected, till he saw the revolution in full blast. His work was evil, and he ends all in an early grave.

THE NEW YORK RIOTERS.—The cases of John Conway and Michael Doyle, charged with highway robbery in assaulting and robbing two Massachusetts soldiers, on the steps of the Comptroller's office in the City Hall Park during the riot week, were sentenced to 15 years in the State Prison.—Three more rioters were also sentenced to 8 years in the State Prison for burglary.—In all some 60 indictments have been found against the rioters. They are mostly foreigners; and it is perfectly well understood that there is not an abolitionist, a republican, or a protestant christian among them; nor are there many among them who really *attend* worship in catholic churches,—but they are the inmates of dens of drunkenness, debauchery and theft, and they came out to commit treason, arson and murder.

We should hardly be disposed to call these men patriots, or conservatives! But the great victory which these very men won last fall at the polls, was styled a conservative victory, and trumpeted over the land, by papers claiming loyalty, as likely to save the country,—by making Congressmen of Fernando Wood & Co. Men are sometimes known by the company they keep.

PRESIDENT LORD, late of Dartmouth College, has published his letter of resignation in the Concord Patriot, with an introduction, in which he says:—

"It is due to Judge Eastman, of Concord, and Rev. Samuel Delano, of Strafford, Vt., to say that they did not concur in the action of the Trustees."

In the letter he protests against new *tests* not found in the College Charter, and suggests that he is tested and censured, "for my opinions and publications on questions of Biblical ethics and interpretation supposed to bear unfavorably upon one branch of the policy pursued by the present administration of the Government of the country."

By this the president means that his published extreme pro-slavery views are so offensive to the trustees and the denomination to which they belong, that they wished a change of course or a change of men. He then says:—

"But, not choosing to place myself in any unkind relations to a body having the responsible guardianship of the College—a body from which I have received so many tokens of confidence and regard, and believing it to be inconsistent with Christian charity and propriety to carry on my administration while holding and expressing opinions injurious, as they imagine, to the interests of the College, and offensive to that party in the country which they here professedly represent, I hereby resign my office as President. I also resign my office as Trustee."

WORK FOR GIRLS.—A writer in the Manchester Mirror says, "in Manchester and vicinity, while the labor of men and boys over twelve years of age is in great demand and commands larger remuneration than at any time for many years, the reverse exists in relation to female employment. Cases of destitution and suffering have been brought to the notice of the poor department, and pauperism, especially among the foreign female population, is largely on the increase. Don't come to Manchester to get female employment, and those of you who are now out of work would probably do much better in the country towns."

Girls can do a great deal of light work out of doors, on farms; and their help is needed this year.

WHY GEN. LEE RETREATED.—The army correspondent of the Savannah Republican furnishes that paper with a resume of the Pennsylvania campaign. It is written two weeks after the conclusion of the fights. In answer to the question, why did Gen. Lee retire, he says:

First because he did not know the enemy would retreat; secondly, because he had been checkmated and foiled by the stubbord resistance of his antagonists, and had suffered heavily; and, lastly, because he did not have ammunition enough left to fight a half of a day longer, and could not get it without taking it from his adversary or re-opening his communications with Winchester. It was impossible to take with us ammunition for the entire campaign, and a sufficient force to keep open our communications could not be spared from an army already inferior in numbers to that of the enemy.

Our only recourse, therefore, was to take it from the enemy, and failing to do this, no alternative was left us but to return towards our base of supplies. It was found impossible, also, to subsist the army long at a time in any one place, the inhabitants having driven off as many of their beef cattle and horses as they could, taken one or more wheels from their wagons, and removed their stock of shoes, hats, and medicines far into the interior.

THE COPPERHEAD ORGANS grind out any tunes to suit their disloyal purposes, without the slightest regard to consistency. They select any premises, true or false, and then argue in any way that enables them to prove that they are infinitely more anxious to break down the Administration than to conquer Jeff. Davis, or to save the country either from protracted civil war, or the sacrifice of all that makes it a republic.

☞ Philadelphia has got through with the draft. Out of a population of 567,000 there have been 18,000 men drawn.—This ratio applied to New-York would call for about 30,000.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Greenland Parish, 1705.—*Gov. Allen's death, and close of his law suit.—Indian war*, 1706-7.

On May 3d, 1705, a Convention of deputies from the several towns in the province met in Portsmouth to agree upon terms of settlement with Allen. After a short consultation they came to a determination, and presented their proposals to him, which he received for the purpose of examining, and taking into consideration. But these prospects of a settlement were cut off by the death of Allen. He died very suddenly on the 5th of May, in the seventieth year of his age, and left one son to inherit the contention; which would perhaps have been put to rest, if his life had been spared a few days longer.

Mr. Adams says, Allen was a Merchant of some eminence in London; and sustained an unblemished character, well established for probity and integrity. He was of a placid temper, rather unsocial and reserved, charitable in his disposition, and benevolent to such as were proper objects of his beneficence. He was induced for the sake of gain to enter into land speculations, but his hopes were delusive. Like those who had pursued the same course before him, he found his labors attended with perplexity and expense, without reaping any of the expected reward.

On the 4th of June the town voted, that the inhabitants of Greenland, in considera tion of their numbers, distance they had to travel, and danger of passing to public worship, be paid out of the town stock their proportion of one hundred pounds a year, raised for the support of the minister, during their maintenance of an able ministamongst them, and no longer. The bounds of Greenland were fixed at the south side of Colonel Packer's farm.

In 1706, Thomas Allen, the only son of Governor Allen, obtained permission of the Queen to commence the suits anew to settle the title to the lands in New-Hamshire. He conveyed one half the province to Sir Charles Hobby, and commenced his action of ejectment against Waldron at August term.

Since the renewal of hostilities the Indians in small parties hovered round the frontiers, doing mischief as opportunity offered. They kept the country in continual alarm, and eight or ten people were murdered by them at one house at Oyster river. The women of the neighbourhood, whose husbands were absent, assembled at a garrison-house, and having put on their husband's jackets and hats, defended the garrison bravely when it was attacked, and obliged the enemy to retreat.

Colonel Schuyler, of Albany, informed Governor Dudley that a party of two hundred and seventy men were about to march from Canada to the frontiers of New England, and it was uncertain where they would make their attack. They were first discovered at Dunstable, where they surprised and burned a garrison-house, in which were twenty soldiers; and they extended their ravages on the frontiers of New-Hampshire as far as Piscataqua river.

Col. Hilton marched from Exeter with sixty-four men, but for want of provisions was obliged to return without meeting the enemy. He was a brave and active officer, and on that account the Indians had determined to waylay and destroy him. A party for this purpose, were lurking about his garrison to observe the motion of his people. Ten of them went out with their scythes, and having laid their arms aside, began to mow. The Indians rushed suddenly upon them, killed four, wounded one, and took three captive, so that only two of the ten escaped.

Colonel Hilton, with two hundred and twenty men, visited the frontiers in the spring of 1707; but the weather being mild he could not traverse the woods so far as he expected. He came to an Indian track, which he followed, and killed four Indians and took a squaw and her papoose prisoners. She conducted him to a neck of land, where he surprised eighteen Indians as they lay asleep, and he killed seventeen of them and made the other a prisoner.

In the Spring an expedition was fitted out against Port Royal, which proved abortive. During the summer several individuals were killed at different places. At Oyster river a party of thirty Indians made a furious attack on Captain Chesley, with a small company, there cutting timber in the woods. At the first fire they killed seven, and mortally wounded another. Captain Chesley, with the few men he had left, made a vigorous resistance, but were soon overpowered by numbers, and his party entirely cut off. His death was much regretted: he was a brave officer, and twice commanded a company in the expedition against Port Royal.

Allen's cause against Waldron was tried at August term of the Superior Court, 1707, and judgment rendered in favour of the defendant. Allen appealed to the Queen in Council, but the cause was never brought to a decision.

☞ The navy is in want of small low pressure iron screw tugs. Price, age of boat and full description should be forwarded.

The U. S. army is certainly in motion towards Mobile.

The Mobile News of the 30th ult. has a leader on "Despondents and Croakers." It closes very bitterly as follows:—

"We have to choose the whip of the slave, or the whip of the master—choose ye."

The report that President Lincoln intends to visit New England this summer, we learn from excellent authority is without foundation. He has no idea of leaving Washington.—*Boston Journal.*

Our readers have doubtless observed the advertisement of Mr. Clock's Hair Restorer. This preparation is comparatively new in this market, but it has already acquired a well-sustained reputation, and is, consequently, having a large sale.—See advertising columns.—*Manchester Union.*

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn in the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. HACKETT,

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, INDIGESTION, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. 4pso

POLICE COURT, August 7, before Justice Bufford.—Wm. Parker plead guilty to the charge of being drunk; fine $3, costs $3.86.

James Dillen, for same offence, fined $3, costs $3.86: committed.

Margaret Dillen, for same offence, fined $3, costs $3.86: committed.

Geo. Martin, same offence, fined $3, costs $3.86.

——, same offence, fined $3, costs $3.36.

The Judge of the Police Court being absent on the summer vacation, Hon. M. Bufford, the associate justice, is performing the duties of the place. If one can judge by the amount of business done, it is to be inferred that Judge Bufford proves an acceptable officer.—*Cor. Ballot.*

☞ A rare opportunity is now presented for any gentleman to furnish himself with a commodious and elegant mansion, combining most advantages of town and country, with more or less land as the purchaser may wish. This opportunity presents itself in the advertisement of Mr. Myers' fine house, orchard, and cultivated grounds, formerly the Sparhawk place, which has been improved at large expense, and now contains all the modern conveniences and comforts.

The location is such as to give the purchaser power to mingle in active business in the city, or to be as rural as he pleases;—and to do so at a moderate cost. There has been no opportunity like it here, for a long time.

A NUISANCE.—*Mr. Chronicle:*—I am requested to say to the City Authorities through your paper, that the cross pavements about the city which are not paved up on the sides, are beyond patient endurance by all who ride much, and especially by Bakers and Milkmen, who spend a large portion of their time in travelling to accommodate the public. NEW HAMPSHIRE ITEMS.

—— Lt. John L. Kelley, of the 4th N. H., has been appointed an Assistant Quartermaster of Volunteers, with the rank of Captain.

Major J. I. Plympton, of the 3d, has been placed on Gen. Terry's (Post Commandant's) staff as Division Inspector.

Capt. George F. Towle, of the 4th, has been appointed Brigade Inspector on Gen. Vodges' staff.

Lieut. M. V. B. Richardson, of the same regiment, has been detached as assistant mustering officer of the Department at Hilton Head.

——It was supposed at first that the suspected incendiary of the Hampton hotel, whose name was Crane, was burned in the barn, but he was found drunk on Saturday afternoon in an Irish shanty not a great distance from the scene of the conflagration.

—— The 15th N. H. regiment left Buffalo Thursday night, for Concord. They and the 5th are to have a grand reception next Tuesday.

A NEW GUN LOCK.—J. Hamilton Shapley, Esq. of Exeter, has an ingeniously constructed gun lock, of his invention, and which a patent has been applied for. The distinguishing peculiarity of it is that the hammer, which plays through the plate, moves horizontally, and is consequently out of view of the marksman as he sights his piece. The cap tube is intended to be placed directly in the barrel of the gun, and can be used to aid in securing the lock in its place; and as it comes more directly in contact with the charge, of course renders ignition more certain. The machinery of the lock is original, and simple, neat and compact; and the discharge of the gun at ball-cock is impossible. The manufacturers of guns will not fail to see in this lock a desideratum, inasmuch as the doing away with the necessity of a protuberance to receive the cap, must considerably reduce the cost of their manufacture.—*Ballot.*

☞ A Port Hudson letter of July, 24 says, "Major Hoyt, Paymaster U. S. A., is here to-day, paying some of the nine months' regiments previous to their departure north. The Major is a Massachusetts man, and well known there. I am happy to say he has won the respect and esteem of every person with whom he has had business connexions here."

AUGUST.

BY REV. J. K. RANKIN.

Midsummer sunsets bloom upon the sky!
Like boulders huge, which some convulsion
crowds,
Ashen the Western edge appear the rugged
clouds;
Or atlas' brawny shoulders heaving high.
As flocks, at noon, in sultry pastures lie,
Rose-tinted, tattered clusters fade the air;
Or, as they how for sweeter food repair,
Obedient to the breeze, they clamber by.
Now gentle Night, like Ruth at Boaz' feet,
Has spread her mantle by the sleeping day;
Reluctant children leave their happy play,
And hend their little limbs in homage sweet;
Accoutered in their simple, clean array,
Officious kindness ushers them away.

Deserted now, the fevered, dusty town.
For wealth betakes itself to rural shades;
The privacy of wood and cream invades,
Or camps at nightfall on some mountain's crown,
Or island, coast or lake of fair renown.
With pinioning pastime glides the transient day;
Thus pass the languid, sultry weeks away,
Escaped the Dogstar's hot, malignant frown.
How sweet to steal from sordid man apart,
To scent the breath and hear the voice of pines;
For wounded life is like the taste of wines,
To nerve afresh a worn and haggard heart.
There man grows weary of his proud designs,
For his great mother's smile he pines.

N. Y. Independent.

☞ Steamer Ruth, from St. Louis for Vicksburg, was burnt on Tuesday night, a few miles below Cairo. Paymaster Greene and three clerks were lost. $2,600,000 in greenbacks were burnt. 30 persons are supposed to have lost their lives.

☞ A Vicksburg dispatch says that among the documents captured in the course of the advance on Jackson, were letters confirming the suspected treason of James Buchanan. Some of these letters are to Jeff. Davis, and are of a nature to justify Gen. Scott's accusations.

DRAFT NOTICE.

Notice is hereby given that the draft for the First Congressional District in New Hampshire will commence on MONDAY, August 10th, at the office of the Provost Marshal in the old Custom House, corner of Daniel and Penhallow Streets, at 9 o'clock A. M.

The drawing will follow the numbering of the Sub Districts: Rockingham County comprising the numbers from one to eleven inclusive, Strafford from twelve to sixteen inclusive, Belknap from seventeen to nineteen inclusive, and Carroll from twenty to twenty-four inclusive.

SCHOOLEY'S

NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, Fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and *dry* for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have not a cog yet running in one of Schooley's Refrigerators during the warm weather *one week*, when I use it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can *offer to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been used in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of a Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicate nature of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 2 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with this "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. The it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, Strictures, Seminal Weakness of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, Frightful Swellings, and the long train of horrors, symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the health of the mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The mental effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult Dr. D., who, by experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charge for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case, and the money; also for sale the French Capotins, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary skill gained a reputation which calls patients from all parts of the country to obtain advice.

Among the many in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of frying meats can be prevented from entering into the room. With the extension top there is a large copper Reservoir for hot water; also a large sheet iron Boiler attached, in which any platter, can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES,

The subscribers, being the sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over the ones now in use, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the proportion of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue at the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This evil does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the gums are irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a trial to cure old and inveterate Sores.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice rejected applications* SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

☞ ATTENTION, THE WHOLE! ☜
EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold a lot to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CRESSEY, *Lee, May 31, 1861.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CRESSEY.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. msv26o

Morning Chronicle.

Portsmouth, N. H.

MONDAY, AUGUST 10, 1863.

THE REBELLION.

A special correspondent in the U. S. fleet off Charleston, writing to the Baltimore American, predicts the capture of Fort Sumter,—but says the preliminary battle will be the most furious fight of the war. Moving buoys have been located from each of the monitors and the Ironsides to within 500 yards of Sumter. "The enemy are also at work erecting batteries on James Island, but we are putting up batteries to command them, also.

There has been little cannonading to-day; some of the monitors will go in to-night to harass the enemy. Yesterday there was considerable cannonading all day and during the night. The guns of the naval battery, which is the advance battery, will be erected to-night.

Yesterday 500 prisoners were taken by four companies of the "Lost Children," on an island in the rear of Folly Island. They showed but little fight, and after receiving two vollies, laid down their arms.

The sea is calm and the weather hot, but all are hopeful and confident of victory. The arrival of reinforcements has given new spirits to the troops on shore."

News from New Orleans is to Aug. 1.—Ex Mayor Stilth of New Orleans has arrived there, having been released from Fort Pickens, where he has been confined since September. Gen. Orme, of Gen. Herron's command, had arrived in New Orleans.—The U. S. steamer Tennessee, the flagship of Admiral Farragut, had arrived at New Orleans.

A large number of invalids from the rebel garrison at Vicksburg had arrived at New Orleans, as had some 50 registered enemies from St. Louis. Their destination was Mobile.

The new monitor Neosho is at Vicksburg. The Osage was expected. The Choctaw and Pittsburg were blockading Red river.—An important military and naval expedition was on foot at Vicksburg.

Gen. Grant had some dozen skeleton regiments of negroes organizing at Vicksburg.

It is believed in Richmond that Gen. Meade has been reinforced from Gen. Grant's army to the extent of 15,000 men.

The Richmond Examiner of the 1st, says the number of prisoners in Richmond that day was 4300, and several thousand had been sent Northward during the week. The number of commissioned officers among the 4300 is 523. No prisoners were received on that day from Lee's army, which, the Examiner says, is the first instance for several weeks.

After a few weeks rest Generals Grant and Banks will move forward with their armies to crush out every spark of the rebellion in the great valley of the Mississippi. They will probably co-operate also in the recapture of Mobile.

It is confidently stated that after Gen. Gilmore commences to fire upon Fort Sumter with his new battery, it cannot hold out for twenty-four hours.

☞ The New York Herald's Charleston advices state that Gilmore will reduce Sumter first, as the guns of that fort will make Fort Wagner untenable.

Four hundred and fifty rebels from Kentucky reached Cincinnati on Friday.

THREATENED RETALIATION. — The Times' Washington dispatch states that all rebel officers in our hands are to be imprisoned at Sandusky until a satisfactory answer is received from Jefferson Davis in regard to President Lincoln's order of retaliation.

☞ We learn from the Calais, Me., Advertiser that a woman named Elliot, residing at Jackson Brook, poisoned a daughter-in-law a few days ago by administering to her a dose of strychnine in a glass of rum. She has been arrested.

☞ The Mass. 42d regiment left New Orleans Aug. 1, per steamer, and arrived at New York Saturday, and probably in Boston Sunday. The 47th was to leave New Orleans about Aug. 7th or 8th for Boston.

☞ Mr. Montgomery, formerly editor of the Vicksburg Whig, was presented last week with an elegant silk flag by the ladies of Binghampton, N. Y. He is about to return home to start an out and out anti-slavery paper—having come to believe that slavery must be extinguished in order to close the war.

☞ The Republican Union Convention of Pennsylvania at Pittsburg on Wednesday, nominated Gov. Curtin, for re-election. The resolutions fully support the policy of the Government, including the Emancipation Proclamation. The election takes place in October.

The Boston Post says "The nomination of Governor Curtin, of Pennsylvania, for re-election, is a defeat of the Radicals."

☞ An exchange pertinently inquires if some measures ought not to be taken to provide for the support of the families of drafted men who run away.

Mrs. Lincoln, wife of the President of United States, spent Sunday Aug. 2d at the Pavilion in Wolfborough.

MAINE DEMOCRATIC CONVENTION.—Hon. Bion Bradbury was renominated for Governor of Maine, by the Democratic Convention of Maine, on the day of National Thanksgiving. Resolutions were passed sympathizing with Gov. Seymour, of New York, and Mr. Vallandigham, of Ohio; condemning the administration; dreading the extinction of slavery; and throwing every obstacle they can think of in the way of getting men to replenish the U. S. army: but not saying one word against the rebellion, or even intimating that any such thing exists. Mr. F. O. J. Smith made a speech, and presented a resolution, which passed unanimously.

A letter was read from Mr. Bradbury, pretending to define his position. Gen. Anderson appeared as his representative. After the reading, the following debate ensued, as reported in the Portland Courier:

"Gen. Anderson was asked by Mr. Parris whether Mr. Bradbury entertained the same views as he did last year, respecting the war; to which he replied that he thought Mr. Bradbury was opposed to the war with or without qualification. He is as much *opposed* to the war as any gentleman in this convention.

Mr. Parris remarked that in Mr. Bradbury's letter of acceptance last year, he was in favor of the war. Mr. Bradbury had said within a fortnight that the Convention must adopt a series of war resolutions or we should be beaten by 25,000 majority.

Gen. Andrews was then asked if Mr. Bradbury was elected Governor if he would withdraw the troops as he had a right. In reply to which Gen. A. said, (—) if you have not *dared* to come up to that standard in your resolutions, how could you expect your candidate to do so. He would say, however, that when Gov. Seymour withdrew the troops, the Governor of New Jersey withdrew the troops, and Tom Seymour of Connecticut, who will soon be Governor (cheers) and whose views are more like the gentleman's and my own, withdraws the troops, *then*, I pledge you, Mr. Bradbury, if Governor, will do the same."

This is quite significant of the *new* kind of State rights, on which the rebellion was based. A cotemporary puts this pertinent question:—

Have Gov. Seymour and others been calculating on a time when they shall assume to stretch out their authority over the armies of the United States, and break them up by calling home their States' quotas?—The people must understand this significant hint, coming as it does from the intimate friend and confidant of the Democratic standard bearer in Maine. The voters of that State will see whether he can relieve himself from the factious and traitorous attitude into which he is thus put, and if not, he will be buried beneath a public majority greater than that which he confessed a simple anti-war position ought to bring upon him.

NEW HAMPSHIRE ITEMS.

—— The ladies of Newmarket have forwarded eight large boxes and a barrel of hospital supplies for the Sanitary Commission. They raised $233.22 for the purchase of the materials which they made up.

—— Ex-Gov. Baker, formely of this State, now Adj. Gen. of Iowa, is on a brief visit to Concord. The Statesman says:—

"A band of Musicians serenaded him on Wednesday evening, in front of his lodgings, Phenix Hotel, and he responded in remarks in the hall connected with the hotel. Some of the old Democratic friends of the Governor were present, but were rather uneasy under his remarks.

—— The Concord statesman says in regard to Dartmouth College—"a change was absolutely necessary, to save the College from decline; and a conclusive fact in proof of the disfavor into which it was falling is this, that at the recent Commencement only about ten students applied for admission to the Freshman Class. Every real friend of Old Dartmouth will utterly disregard fault-finding, after this, and address himself to the work of placing it upon a more enduring foundation than ever."

MORGAN IN THE PENITENTIARY.—A dispatch from Columbus, Ohio, 30th ult. says:

"Morgan was incarcerated this afternoon in the Ohio Penitentiary. Himself and men were delivered over to Captain Merion by the military authorities, and immediately put through the same motions as other criminals, having their persons searched, hair and beards shaved, bathed and clad in clean suits. Morgan and Duke submitted very quietly, but some of the younger thieves demurred bitterly, until told they must submit. Morgan had his belt filled with gold, greenbacks and Confederate notes. One who had before broken his parole refused to strip, when it was instantly done for him. Duke begged for his mustache, but it was in vain—it was razored. They will be compelled to submit to prison discipline, be confined apart from the convicts, and guarded day and night by the military. One or two talked about retaliation, but the rule against speaking was instantly enforced.

A negro convict did the barbering for the chivalry."

One hundred and twenty-three of John Morgan's officers have been sent from Johnson's Island to Harrisburg, to be confined in the penitentiary there.

☞ The steamship Pacific went ashore Mistaken Point, N. S., but got off and arrived at St. Johns, Saturday. Her fire compartment is full of water. The cargo is not injured, and is being discharged. She will be repaired at St. Johns.

☞ The draft riots in Iowa continue, and there is a camp of 700 rioters, and one of 300 Unionists.

VOICE OF THE DRAFT.

THE RIGHT SPIRIT.

We give below a few brief extracts from a noble, patriotic Sermon, delivered on Sunday, two weeks since, by Rev. Wm. J. Potter, of New Bedford—a conscript, and one who "is going," too. The preacher has been drafted, and addresses his hearers upon the duty of men—true *men*, in such cases. He talks like a man, a patriot, a christian. We wish we could possibly publish the whole discourse. Hear this christian warrior, and warlike christian:—

A call now comes to me, my friends, to make another proof of this my ministry among you. I have spoken to you heretofore by words; I am now called to speak to you by an act; I am bidden to make that full proof of the sincerity of my utterances which only deeds can give. I have held up before you the beauty and sublimity of sacrifice; I am now asked to bring my sacrifice to the altar. There is but one course that conscience opens to me. My friends, this call is imperative; I must obey. I would not make the matter too serious.—There may be little service or sacrifice required; perhaps the showing a readiness to obey will be all. I wish that our obligation to our country were more sacredly considered and revered, and that the whole question were decided more in the light of solemn duty. I wish that those whose names are drawn were asking rather if they cannot go, than seeking reasons for staying at home.

I do not know that I shall be pronounced physically worthy for the service into which the lot would take me, though I am aware of no defect that would legally exempt me, and sincerely hope that none may be found. I only wish this matter were beyond doubt.—I have wanted, as never before, strength of body, and shall regard it with profound mortification if I shall be declared physically disabled for meeting this demand which my country makes upon me. I cannot at all understand the feeling which prompts so many men to search their bodies for some weakness or disease whereby they can escape this service. How any one can exult if such incapacity be discovered in himself is what I cannot comprehend. Aside from the mean and craven nature of such a sentiment, a proper pride in the possession of a sound body should keep one from grovelling so low.

Young men, if your mothers should be assailed, would you exult because you were feeble-bodied, and could not go to their defence? Our country is our mother; and shall we not pray for strong arms, in this, her hour of peril, to defend her?

The conscription law has put an end in a great measure to considerations of fitness, as also to those of convenience. It is to be presumed that two years' opportunity for volunteering has taken all those into military service who have any special liking or adaptedness for it, or who could leave home and business with ease. Whatever the fact may be, the presumption on which we must act is, that it is now an even matter who shall go to make up this new army; and for this reason we have drawn lots to decide the question. I say, *we* have drawn lots; we the people have done it. It has not been done for us or over us by any despotic authority, but it is our act, done at our demand. And this leads me to say the word which I wish to say on the Conscription act. The Conscription Law is our law—the people's law. It was passed by the legal representatives of the people, and at the demand of the people. The people said to the Government, "All have volunteered who have any special fitness for war, or who can go with convenience to themselves or to their families, or to society; it is now as difficult for one man to go as another, so we will draw lots to determine who shall go." And the Government has accordingly put our names into the wheel, and the fates at our command are turning it; shall we not abide by the lot?

It is quite commonly said, I know, (and such a report I now see in the newspapers) that the commutation fee, by which a veteran volunteer may be procured, is more acceptable to the government than a raw recruit. If the government should make an authoritative statement to this effect, it would decide the question for many of us. But no such statement has yet been made, and until it is made on official authority, the presumption is, that since the law was made for raising an army, the men are wanted more than the money.

As to substitutes—fitness consists by no means solely in the possession of muscle or in belligerent training. I might send many men in my stead who have stronger bodies and are better fighters, but no man could be my substitute who does not believe in the justice of our cause as thoroughly as I do. No man could be my substitute who does not by birth, or adoption, or principle, feel a personal interest in the triumph of our cause and the salvation of our country. No man could be my substitute who would merely fight for pay, or who would fight on the other side at any price. For one to be my substitute in this struggle, he must have some other allegiance to our cause than an allegiance that is bought,—he must believe in it; he cannot be a good and true soldier without belief. But the substitutes that are procurable, and that are being accepted, are mostly of a very different sort from this. They are Canadians, or aliens just from the other side of the Atlantic. They have no intelligent appreciation of our struggle or our institutions. They come only for money. They would serve just as readily, many of them more readily, on the side of the rebels; and they will desert at the first opportunity; or, guarded against that, are at least very likely to prove faithless in battle. I ask you, young men, and brother conscripts,—you who mean to be true sons of your country and do your whole duty to her, and answer honorably her call for help—is it such creatures that you are willing to send in your stead to the defence of your mother, the country? Can you, without a blush of honest shame, call such men—swindlers, perjurers, runaways,—your substitutes? Are you ready to have your patriotism measured by their character, and to own that men who can only be kept for service by being guarded in jail, or sent to the camp in irons, could do your work in the holy cause?

What is most wanted now for putting an effectual end to this rebellion, with all its causes and consequences, is a general uprising of the people to the support of the government,—to the support of it against not only rebellion in the South, but against secret treason and open violence at home. Let the people of all classes not merely show submission, but respond with alacrity to this draft, each one going to his place in the army as to a post of solemn duty, and not only would the war soon come to an end, but the stability of republican institutions would be insured forever. The spectacle of a great people, including all classes, thus rising cheerfully and harmoniously together, to meet the demands of a draft—saying to one another, our sons and brothers who could volunteer in this holy cause have gone, and we have now cast lots to see who shall go to stand by their sides or to defend their graves; and we, to whom the lots have fallen, now come ready in hand and heart for the service to which our country calls us,—such a spectacle would be a grander exhibition than was the first uprising of the people at the outset of the war, and an army so formed would be nobler in its invincible determination than even an army of volunteers.

God grant that I could be one in such an army! God grant, and the patriotic hearts in this community grant, that there may be many to stand with me! Could such an army spring up, I doubt if it would ever have to march out of the loyal States, for it would be recognized as the army of the invincible fates—as the host of Heaven's retributive justice; and rebellion, violence, treason, oppression, lawless rage, and every foul wrong of war that now devastates our land, would shrink from before it into the darkness of annihilation; and law, liberty and peace would be established in triumph, and forever, over a re-united country.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon.

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water Wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howe Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. HACKETT.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and without fulfilling errors.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar a fine one worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

DRAFT NOTICE.

Notice is hereby given that the draft for the First Congressional District in New Hampshire will commence on MONDAY, August 10th, at the office of the Provost Marshal in the old Custom House, corner of Daniel and Penhallow Streets, at 9 o'clock A. M.

The drawing will follow the numbering of the Sub Districts: Rockingham County comprising the numbers from one to eleven inclusive, Strafford from twelve to sixteen inclusive, Belknap from seventeen to nineteen inclusive, and Carroll from twenty to twenty-four inclusive.

JOHN S. GODFREY,
Capt. and Provost Marshal 1st Cong. Dist. N. H.
Portsmouth, Aug. 4, 1863.

From the above official notice from the Provost-Marshal, it will be seen that the Draft is to commence this morning. The whole number enrolled in the first class, in this city, is 1084. Number to be drafted, 317;—this includes the 50 per cent. added for exemps. The draft is to be made according to the arrangement of the sub-districts, but each town's quota will be drawn by itself. We presume it will take more than one day, perhaps several days, to complete the draft; but we shall endeavor to inform the public of all action in the matter, each morning.

☞ We are glad to learn that Robert Shillaber, Esq., has been appointed and qualified as Pound-keeper in this city; and hope he will clear our streets of stray cattle.

NATIONAL THANKSGIVING.—Thursday was very generally "observed" as a holiday, by loyal citizens. Among other modes of celebration, a large company visited Cape Neddick—probably more than one hundred different persons, from all the towns in the vicinity, stopping at Freeman's Hotel during the day, upwards of seventy taking dinner there, and quite a party of boarders remaining.

There was a heavy thunder shower at the Cape in the afternoon, winding up with a splendid rainbow,—"promising" weather for the haymaker, which has hardly resulted.

To show the animus of the copperheads, we will relate a little circumstance which occurred at the Cape, and which goes to disprove their repeated statements, that they wish the success of the Union. Instead of "rejoicing with those who rejoice," on that day, for conquests over rebellion—a prominent copper there, stuck up on a stick at the roadside, the carcase of a little animal who stinks in the noses of all decent men, like as the memory of the tories does, and as the remembrance of copperheads *will*, hereafter,—accompanied with a placard, "Lincoln's Thanksgiving." This, a couple of loyal young men from this city, tipped over into the field, where it rested against the wall, as they passed. This perhaps they had no right to do, although it was placed one-half over the road; and it would perhaps have been as well to leave it, "a standing disgrace" to the perpetrators of the vile act. However, on their return from the Beach, they found it righted again—if there can be any right about such an affair—and breaking the staff, they threw the skunk into the field, and carried off the placard.

Presently, our copper hero came out of his house, and approaching the carriage, demanded the passers' reason for interfering with the matter, and snatched at the placard, in the hand of one of them. The shingle or board broke, leaving half in the hands of each, when copper struck the young man with his piece, and the loyalist threw his fragment slap in copper's face.—"And thus they parted"—after a little spluttering from an old woman who ran out, and said she "smelt brandy in his breath," &c.; (perhaps she did,—but nobody in the carriage could smell it.) But good bye for now, Secesh.

☞ The 5th and 15th New Hampshire regiments will have a grand reception at Concord on Tuesday. Grand military display, reception dinner in State House yard, speeches, &c. Half fare on railroads.

WASHINGTON ITEMS.—It is said, apparently by authority,—that the *senation stories* about a great but divided Cabinet Council at Washington, about a scheme of peace proposed when Vicksburg fell,—"had no foundation whatever in fact. No such debates or propositions, or any debate or proposition on the subject of peace or of such amnesty, has been made or had in the cabinet, nor has any such difference arisen."

The Sergeant-at-Arms of the Senate has removed J. W. Jennings, and appointed Henry O. Kent of New Hampshire, Postmaster of that body.

Hon. Alfred Ely of New York has presented to the War Department, claims of the Corporation of Rochester and of the 28th Congressional district, to be credited on the present draft in his district for the excess of men furnished over former quotas. It is understood that the Department has granted the allowance claimed, and that the order will apply to other similar cases.

☞ Memphis papers announce the death of Jefferson Davis. This is probably premature. His Confederacy, however, is either dead or dying.

A DISSOLVING VIEW.—The reader may remember that last week there was a report from rebel sources, that Dick Taylor had won a victory over Gen. Banks, taking 600 prisoners; which was taken as a crumb of comfort to the rebels and their traitor friends.

Now our advices from New Orleans are to the 1st inst. No mention is made of any disaster to the Federal troops in that Department. Brashear City is occupied by our troops. The rebels had left, taking nearly everything with them. The railroad was in a few days to be in operation there.

☞ The total receipts at the office of National Revenue for July, exclusive of the tax on income, are nearly $5,299,000, which is considerable larger than for any previous month.

☞ The coffer dam at Lewiston, Me., was entirely carried off Friday night. It had been completed but a few weeks at a great expense. Some of the mills will find it difficult if not impossible to continue running.

Hardly an officer can be found belonging to the regular army, that is not in favor of negro regiments, and who do not lend themselves earnestly to their formation and efficiency. So great a change in their conduct on this matter, excites attention.—"*Burleigh.*"

GOLD.—in New York on Friday, 127. At Atlanta, Ga., on the 27th ult., gold was quoted at $12, making one dollar in gold equivalent to twelve dollars in rebel currency.

☞ Adj. Gen. Thomas has again gone West, to organize more negro regiments. He will proceed directly to Memphis, and from that point to New Orleans, organizing regiments all along the river. He will be gone three or four months, and has the same full power as before.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—all are perfectly fast. Samples on silk and wool can be seen and the colors procured of THACHER. ju20

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement in the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, grain dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous constitution is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the red of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe rior to any other remedy yet devised, is known by all who have given it a trial. The it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Seminal Gonorrhœa, Contamination by the virulent poison of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Painful Swellings, and the long train of evils in a system attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the strong and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, and forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Be careful to address, Post Paid, Dr. Dow's Cupidene, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW'S Female Surgeon Tonic, 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Whites, Menstruation, and other menstrual derangements, are speedy relief guaranteed in a few days. So invariably certain is the mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt his greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary skill gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be, from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a speciality in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, **91 Washington St. Boston.**

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and soft iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in the city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable article.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objections urged by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible properties of the air, passing off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend and be carried up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases in the cone, they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. We can make the upper plate by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While it is lighter and better, save in a few peculiar cases, it is much cheaper than Gold.

Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers for Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure patents, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official inter course."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on twelve different occasions SIXTEEN ATTEMPTS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents. R. H. EDDY.

ATTENTION, THE WHOLE!
RYE, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his HUMOR WASH, which have effected a cure. There can be no mistake as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH DENNESS.
PORTSMOUTH, April 21st, 1863.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited the food I ate soon after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA which wholly cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. DAVID W. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so fast as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 11, 1863.

THE REBELLION.

The N. Y. Herald's Washington dispatch says it is reported that Gen. Meade has twice presented his resignation as Commanding General, and now insists upon its acceptation. Rumors in military circles are to the effect that Gen. Grant will succeed him.

Conscripts are daily arriving, and being assigned to regiments in the front. Last week, out of three hundred of this class sent to the 5th Corps, two hundred and ninety-nine were substitutes, but one individual being a drafted man.

A great number of nine months' and two years' men are returning to the field, many of them in the capacity of substitutes. Several of their officers have also rejoined the service.

The number of rebel prisoners now on parole is upward of 35,000, while the number of paroled Union soldiers is less than 18,000.

Deserters and stragglers are sent forward to the Army of the Potomac daily.

The poor in Richmond are suffering from high prices of provisions.

Gen. Banks has made a trip from New Orleans to Vicksburg, which was accomplished without impediment, Gen. Banks arriving and being met at Vicksburg by Gen. Grant on the 1st inst.

While at Natchez an attack was threatened by the rebels, but our forces nabbed some sixty who were sent to burn bridges.

A Federal cavalry expedition from Natchez burned 35 railroad cars and 2 locomotives on the Woodville & Bayou Sara railroad, destroyed several hundred barrels of molasses and sugar marked C. S. A. at Woodville, and burnt a large woolen factory, costing over a million of dollars.—They took thirty-five prisoners, paroling 100 others who were sick, and captured 100 ex-horses and mules.

Gen. Gilmore is mounting more guns before Charleston: he is reinforced.

☞ The latest slang expression, or the latest way of asking a very old-fashioned question, is, "How are you?" This is now heard upon all sides, and the lovers of slang, pride themselves upon the fantastical manner in which they diversify the emphasis upon the last word of the question. Adapting the fashion to current events, we hear a hundred times a day, "How are you, Conscript?" or "How are you, Draft?" This latest colloquial oddity seems to be a growth of the war, as the first we ever heard of it was in the stories told of the early campaigns on the Potomac, where the pickets on either side hailed each other with, "How are you, Reb?" "How are you, Yank?" "How are you, Butternut?" There are fashions in phrases as there are in coats, hats and whiskers. "How are you?" is about as harmless as any of its predecessors in the world of slang, and it will probably continue in vogue until something newer and no more witty or quaint, jostles it aside and fascinates the ear of the million.

THE VOICE OF KENTUCKY. The opposition papers are a little confused in regard to the result of the Kentucky election. At first it was an abolition triumph, won by the tyrant Burnside. Now it is a victory of the Seymour school, and a condemnation of the Administration. Whatever may be the sentiments of the Governor elect, loyal men are fully satisfied that Kentucky has irrevocably arrayed herself on the side of the Union. Beyond this they ask no questions. The best that any State can do is to bear her share of the burdens of the war, and this Kentucky renewedly promises. Commenting on the result, the Louisville Journal says:

"We shall hear no more about the withholding of the men and money necessary to the prosecution of the war. The disloyalty that has been so noisy and threatening is rebuked. It has received a lesson that it is not likely to forget during the rest of its brief days. Its insolent crest is bowed. Kentucky, deeply and bitterly as she mourns this awful war, will, in her own strength and the strength of Heaven, prosecute it until the Union shall be restored; and Oh may a merciful God grant that the time be short."

The election of two firm supporters of the Government from Kentucky insures a good working majority in the House and shuts out the least chance of electing an opposition Speaker.

CRINOLINE SIGNS.—Some of our shopkeepers will be surprised to hear that a Mrs. Harrow was lately taken before a Bow street magistrate, in London, and fined one shilling and costs, for having an "unsightly and disgusting exhibition" in front of her shop, such exhibition being no more nor less than "a number of large crinolines eight feet above the foot pavement, and projecting three feet into the public thoroughfare." After paying the fine, the offender was notified that a repetition of the offence would be punished by a mulct of five pounds.

Truth, in the garment of politeness, is often more comely than the naked truth.

THE REIGN OF TERROR IN TEXAS.—A letter from Matamoros, published in the New Orleans Era, says:

"A great many Texans Rangers are coming here, as they have been coming here for the last eighteen months. Some are deserters, some liable to conscription in the rebel service, but most of the 5000 or 6000 who have passed through this place were compelled to leave the State to save their lives, because our "mistaken Southern brethern" suspected them of being in heart and in fact, "citizens of the United States."—Many who were skulking from hill to hill, and forest to forest, in Northern Texas, seeking to get out of the country; and only desirous of being "let alone," have been trailed by assassins and murdered outright. I do not doubt that 2500 murders have been committed within two years in Texas, every one of which has been for "suspected sympathies" for the old flag; but the new arrivals are all radicals—all intend revenge.

Sixteen men from near Austin, only a week ago, arrived here, and two of them (one a nephew of General Hamilton) is on the way to New Orleans. There are hundreds of as good men in Texas as there are out of it. The Germans and thousands of Americans in Texas are loyal; Texas would be loyal if the reign of terror was at an end."

THE NEW YORK RIOTS.—In a recent speech at Binghampton, Hon. D. S. Dickinson thus referred to the New York riots:—

The recent conservative meeting in the city of New York, called by some radical people a riot and a mob, it will be seen, came off about the time of Lee's movements into Pennsylvania, and the raids of Morgan and others into Ohio and Indiana. There are a thousand evidences combining to prove that these several movements had an intimate relation to each other, or rather by those who helped plan the whole. The ominous givings out which preceded them, the foreign recognition thermometer in England and France, where the mercury rose so speedily at this juncture and simultaneously—the confident and insolent tone of the Confederate press—the mission of the rebel Stephens to Washington—the copperhead complacency as the movements were inaugurated and progressing, and its malignity on their failure—the mutterings of Lee in his inglorious retreat, that he had not been received by his Northern friends as he expected, and a whole cloud of witnesses besides, proves that the New York movement was a part of and intended to be directly in aid of, the cause of rebellion.

The draft was used as a pretense. The whole was originally a device of some of the most wicked and unscrupulous and pestilent politicians that ever infested society. The commencement of the draft was, by preconcert, made the occasion for the outbreak, because it was supposed by the managers of the affair that they could at this time, and upon this occasion, better embody their motley—better influence the passions of the ignorant and prejudiced, and better turn to political account, and wield in aid of the rebellion, a riot commenced in an ostensible resistance to the draft, than otherwise."

A BRILLIANT FUTURE FOR VALLANDIGHAM.—The Richmond, Va., correspondent of the London Times predicts a brilliant future for Vallandigham. Hear him:

In there not in the North any vision keen enough to pierce far into the future, and to foresee that in ostracizing Mr. Vallandigham, President Linkoln has, perhaps, insured that martyr's succession to the Presidential chair? Before the candidates of next year shall rise into public view, the claims of General Butler or General *McClellan* will have faded into obscurity. Will not the claims of Mr. Vallandigham grow brighter and stronger, and so much the more as ye see the day approaching?

In one of the towns in Maine a man was opposing the administration on account of the President's emancipation proclamation, and declared that "it was not called for."—"Yes, it was,' said a man in the crowd; "I've heard you call for it, Mr. Partridge, on your knees, in solemn prayer before God; and now you're complaining because your prayer for the bondman has been answered in a little different way from what you expected." The political and religious Copperhead thought it time to go home, as there was a shower at hand.—*Augusta Jour.*

WOOL.—The governor of California reports that the crop of wool in that State is increasing immensely, and that, in 1870, he expects it to be equal to the entire production of the country according to the last census.

☞ Dr. O. W. Holmes, in a speech made at the dinner of the Howard Alumni last week, said:

"The Hancock House, the umbilical scar of the cord that held our city to the past, is vanishing like a dimple from the water."

☞ Whiskey at a thousand dollars per barrel should be pure, but it was the veriest rg. that brought that price and more, just before the surrender of Vicksburg.

Don't trust too much to good temper when you get into an argument. The Indian produces fire by rubbing the driest sticks.

☞ It is stated that the Emperor Napoleon has revised the last proofs of the first volume of his "Life of Cæsar."

A Western editor says of a hail storm on the lakes in his vicinity, that it came so suddenly that the pilot looked round to see which one of the passengers was throwing stones at him.

☞ It is thought that a thousand men might be enlisted per day in New York if liberal bounties were offered. Substitutes are very plenty.

☞ The funeral of Capt. Cailloux, a mulatto, was very largely attended in New Orleans.

☞ A writer says the bad effect of Southern whiskey begins to show itself. Yancey died of kidney disease.

☞ The Toronto Globe has recently published the speech of Vallandigham in Congress, in which he expressed himself rather defiantly of Britain, &c. The effect is that the Canadians are not disposed to lionize him much.

☞ The Philadelphia Bulletin says that there is "poetic justice" in John Morgan's confinement in the penitentiary. Prentice guesses that John feels the justice, but doesn't believe he sees the poetry.

"DAWKTER," said an exquisite the other day, "I want you to tell me what I can put into my head to make it tigh." "It wants nothing but brains," said the physician.

☞ While their is no difficulty in procuring other officers for the colored regiments, there is such a scarcity of surgeons that the Surgeon General is compelled to advertise for them.

"Anatomists say that man changes every seven years. Therefore," says the inimitable Jones, "my tailor should not remind me of the bill I contracted in 1855—I ain't the man."

☞ The subject of a discourse preached at Richmond, Va., recently, was: "The Northern States of America the most likely location of 'the Lake Fire of and Brimstone,' in which the beast and the false prophet will be tormented."

☞ We have received from the author, a copy of an "Oration delivered by Rev. John G. Adams, before the authorities and Citizens of Providence, July 4, 1863."—It is a truly loyal American production, worthy of a christian freeman.

☞ Capt. Wm. O. Sides and Lieut. John S. Sides, of this city, have received appointments in the Invalid Corps in accordance with their respective ranks.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly fast. Samples on silk and wool can be seen and the colors procured of THACHER. ja20

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. HACKETT.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS.—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to secure from 4 to 6 Pills to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

The Draft was here closed for the day to be resumed at 6 o'clock, Tuesday morning, commencing with Sub-District No. 5, comprising Exeter, Newmarket and South Newmarket; and will proceed in the numerical order of Sub-Districts, until Rockingham County is finished. A delay of a day or two will probably then occur, before proceeding with Strafford County, to allow for the proper preparation of Notices to persons drafted, and other necessary labor.

☞ We give this morning all the details of the draft we could possibly arrange. There are of course many mistakes—and we will thank all who notice any to inform us, so that we may present a revised and corrected list, with other particulars, in our Weekly on Thursday.

☞ Among the drafted in Portsmouth, we notice three clergymen, Rev. Messrs. Eddy, Davies and Patterson; Mr. Smith, Principal of the Boys' High School; and the proprietor of the Chronicle, the junior of the Journal, and the publisher of the States and Union newspapers. There are doubtless other prominent citizens.

CONCERT TO-NIGHT.—"Forrest's Amazons", a large and said-to be talented Minstrel Company, of ladies and gentlemen—give one of their Ethiopian entertainments at the Temple this evening. They have never been heard here, but come with a good reputation from abroad. See their advertisement and bills.

☞ The Excursion of the Portsmouth Cornet Band to the Shoals, Thanksgiving Day, was an overflowing success—as almost a shipload of passengers were desirous of embarking aboard the little schooner which was supposed to be big enough for the occasion. The Band's Excursions are deservedly very popular.

It will be seen that they announce a very attractive two-days' trip to the Lake, over the Eastern railroad, for this week. Don't fail to read their advertisement, and to go if you can.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.
This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odor.
Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."
Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and sweet for ten or twelve days."
John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."
C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."
Thousands of similar testimonials can be shown in its favor.
SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.
We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.
The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can do. His facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Boils, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to him when broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the various diseases.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
YOUNG LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

The peculiar taint or infection which we call SCROFULA lurks in the constitution of multitudes of men. It either produces or is rendered by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, by living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs or attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Only by this means can these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. This it does, combine virtues truly extraordinary, in their effect upon the class of complaints, it is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely selected from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, and promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and dizziness in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, (frightful) Swellings, and the long train of horrible symptoms attending the final of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by secrets and solitary habit, which ruin the body and mind, unfitting the unfortunate victim for pleasure or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous irritability, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, reflect that a sound experience alone can be once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, which are the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, Mass., continues to cure all diseases incident to it female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new physiological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had a longer experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, his cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

☞ N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior boiler and sad iron heater combined, by which the odor of broiling meats is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin water-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The Bro is regulated by a damper in the collar of the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every morning.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus generally, seem to have been greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe as much as possible.

To accomplish this many complicated and expensive heating arrangements have been constructed, some consisting of a long improvement over former methods, while many have proved a total failure. The reason for these obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of atmospheric air, which, being heated, enables them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions which may be found to come in any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

DENTISTRY.

NO. 60 CONGRESS STREET,
Portsmouth, Aug. 1st, 1862.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT* satisfaction in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. ROBINSON, for particulars in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. WEDNESDAY AUG. 12, 1863. NO. 35.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, to just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

THE VISIT OF STEPHENS.—Mr. Alexander H. Stephens' visit to Washington, had he made it as proposed, would have been for the purpose of laying before our own government, in a highly officious, if not an altogether official, way, the views of the rebel government respecting our arming of the negroes. It was his plan, according to a Richmond letter, to see what could be done to arrive at an understanding on the matter with the United States authorities. It would, in fact, appear that the Confederates have seriously taken alarm, and had their indignation excited besides, in consequence of the new policy of the Government in regard to arming negroes to fight the South. Mr. Stephens started to go to Washington in order to enter an imposing remonstrance against it—and going up the Potomac all by himself in a Confederate vessel beside! It is further added, that he was to threaten the President that, unless this recruiting of negroes was stopped, and the black forces now in the field were withdrawn, the rebels would go into it themselves and arm ten negroes to our one.

That would be a good threat to make, but it sounds more terrific than it really is. Without stopping to inquire into the policy or propriety of enlisting the blacks in this war, as armed soldiers, we will only say this: the experiment on the part of the South of arming ten negroes to our one, could it be made by them, would prove vastly more hazardous to them than to ourselves. It is not open to doubt even, that arms once placed in the hands of the black population of the South, especially if that population should at first become enlisted on *both sides*, would instruct them in the art of making *freemen* of themselves much *faster* than any process yet devised. It may be, after all, that this is one of the means by which Providence is to work out His infinite designs with the race whose development and destiny seems more mysterious to us every time we give it our contemplation.—*Dover Gazette.*

This sounds like common sense. And if we will just take a lesson from experience elsewhere, we may make every laborer a freeman, and let every race take care of itself, under God's good providence. The great mystery and difficulty now are not with the working men, but with the proud and lazy aristocracy who grew lordly on the labor of others, and do not like to work for their own living!

Portsmouth, N. H.

WEDNESDAY, AUGUST 12, 1863.

THE REBELLION.

The expedition which left Fortress Monroe on the 4th inst., under the direction of Major General Foster, was accompanied by the turreted iron-clad Sagamore, and the gunboats Commodore Barney and Cohasset. They proceeded up the James River, and when within seven miles of Fort Darling, at a point called Dutch Gap, a torpedo was exploded under the bows of the Commodore Barney by a lock string connected with the shore. The explosion lifted the gunboat's bows ten feet out of the water, and threw a great quantity of water high into the air, which, falling on the deck, washed overboard 15 of the crew,—among them Lieut. Cushing, commander of the vessel. Two sailors were drowned; all the rest saved.

Gen. Foster was on board the boat when the explosion took place. The enemy then opened upon them from the shore with a twelve-pounder field piece. The Commodore Barney was penetrated by 15 shots, besides a great number of musket balls, but not a man was injured except the Paymaster, who was slightly wounded by splinters. The gunboat Cohasset received five 12-pounder shots, one of which instantly killed her Commander, Acting Master Cox.

The Commodore Barney was towed down to Newport News by a tug and will be repaired. The object of the expedition was accomplished and the fleet has returned.—The new army gunboat Gen. Jessup, commanded by Lt. Col. Whipple, also accompanied the expedition, and received several shots.

Brig. Gen. Costar, with a small force of cavalry, on Saturday came up with Mosely's guerrillas. They fled before our cavalry, leaving twelve prisoners in our hands. Gen. Costar was within an ace of capturing Mosely himself, but the guerrilla escaped, under cover of a dense wood, when our forces were close upon his heels.

In Virginia, the rebel Gen. Lee has been reinforced by the division under Polk, from Bragg's army, and is reported to have sent a division to the aid of Charleston. None of his infantry are thought now to be on this side of the Rapidan, and his cavalry are lessening the number of their pickets along the Rappahannock.

Capt. Baldwin, of the 2d Wisconsin, and other officers in the Libby prison at Richmond, writing on the 5th inst., state that arrangements have been made to supply them with money, clothing, &c.,

Last Friday Lieut. Col. Nichols and two Sergeants of the rebel army were captured at Brentsville, Prince William County, Va., by our cavalry and lodged in the old Capital Prison.

Governor Pierpont of Va., has established himself at Alexandria, and for the present the affairs of the State will be administered in that city.

The Mobile News of the 3d says 'we have a multitude of reports horribly detrimental to the character of the patriotism of the people in many places in Alabama and Mississippi—some of them too disgraceful to publish. A portion of our people have gone stark mad. They are bastard Southerners and recreant Confederates.'

An army 25,000 strong is still at Meridian and Enterprise, ready to go to Mobile or east, as circumstances may require.

Bragg is at Chattanooga and a portion of his force is at Rome, Ga.

Extensive preparations are being made to finish the fortifications of Mobile.

A battle between the rebels in Arkansas and a small U. S. force under General Blunt was expected about last Sunday.

A portion of Longstreet's corps has occupied Fredericksburg.

The rails of the Fredericksburg and Aquia Creek Railroad have been all torn up by the rebels and sent to Richmond, together with every other species of property in that section available for military purposes. The railroad bridges, depots, &c., have been burned, and the whole country between the Rappahannock and the Potomac is swept of everything.

Jeff. Davis is reported to be dangerously ill at Richmond. That city is in excitement—especially the Lee family—over the expected hanging of Sawyer and Flynn by the rebel Government. The people demand that the sentence shall be executed next Friday, while Gen. Lee, whose son Fitzhugh Lee is held by our Government as a hostage for Sawyer and Flynn, demands that Davis shall prevent their execution, and threatens, if his son is hung by us in retaliation, that he will resign his position in the rebel army, and leave the Confederacy in disgust. It is thought there will be no hanging.

Pres. Lincoln was alive and well Tuesday, altho' *rumor* in New York had pronounced him dead.

Gov. Tod, of Ohio, has gone to Washington—where there is to be a consultation on National Affairs.

☞ The information we received from the rebels that the army of the Potomac has been reinforced, is confirmed from Washington. Grant sent Meade 20,000 men immediately after the surrender of Vicksburg.

Gov. Seymour, of New York, has written another letter to the President of the United States, about the draft, in which he complains bitterly, as follows:—

"Again, to show the partizan character of the enrollment, you will find on the 21st page of the Military Report, that in the first nine Congressional Districts the total vote of 1860 was 151,243. The number of conscripts now demanded is 33,729. In the nineteen other districts the total vote was 457,257; yet these districts are called upon to furnish only 39,626 drafted men. Each of the nine districts gave majorities in favor of one political party, and each of the nineteen districts gave majorities in favor of the other party. You cannot and will not fail to right these gross wrongs."

If these were *all* the facts in the case, it would have a very bad look: it is possible, however, that the nineteen districts *volunteered* more, and *voted* more, in proportion, than the nine.

Ex-Gov. Aiken, of South Carolina, the owner of 1300 slaves, is in the Libbey Prison, at Richmond, because he would not take the oath of allegiance to the bogus Confederacy, nor contribute means to carry on the war. He says he would rather see slavery perish than to give up the Union.

Parson Brownlow, in a letter to the Nashville Union, proposes to seize five prominent rebel Tennesseans, and put them in jail as hostages for the release of Gov. Aiken.

☞ When three citizens of Louisiana recently waited on the President, and under the pretense that they represented the people of that State, asked him to take certain measures proposed by them as the best means of bringing the State back to the Union, Mr. Lincoln told them that he desired a further and fuller expression of the sentiments of the people before he thought it proper to act. For this caution he was blamed, at the time, but it now appears that he refrained wisely. When the Union Association of New Orleans heard of the affair, its members met and passed resolutions denying the authority of the gentlemen in question to speak for the people of the State.

☞ Hon. Geo. B. Upton, and George B. Upton, jr., owners of ship Nora, destroyed by the pirate steamer Alabama, have made a protest in reference thereto, and demand of the Government of Great Britain full reparation for the same in the sum of eighty thousand dollars of the coin of the United States, being the value of said ship and freight at the time of her destruction.

They make this demand upon the ground that the Alabama was fitted out in an English port, manned mostly by British subjects, has never been in a Confederate port, but has been aided at British Islands, and is, in short, a British pirate and nothing else.

Items from the South.—The Southern Confederacy newspaper has raised its price to thirty-six dollars a year. This, says the Atlanta paper, "is not as high as the articles of subsistence and price of paper would authorize. All the Atlanta papers have adopted these rates."

The Richmond Sentinel says the Shenandoah valley presents a flourishing appearance. The crops are very fine, particularly the corn and hay. The Sentinel adds that "it is really refreshing to visit a region of country where everything looks so plentiful, and where there are few or no marks of this horrible war."

The following paragraph from the Advertiser and Register indicates either that coffee is scarce, or that rebel currency is not at very high premium:—

"Fifty Cents a Cup.—We are informed by a keeper of a coffee saloon, who considers himself referred to by the paragraph under this head, that he raised the price of coffee to fifty cents a cup before the arrival of the Vicksburg prisoners."

The Richmond Examiner says that 'companies of youths, between the ages of fifteen and eighteen, are organizing to take the place of veteran troops, now doing guard duty in Richmond.—They are specially designed to take the place of a North Carolina company stationed there.' Are the rebels afraid to trust the soldiers of the Old North State?

☞ Joel Eastman of Conway, was at Dartmouth College commencement this year, the first time for thirteight years. He jocosely remarked that being now only 64 years old, he should arrange his plans so as to come again in 38 years more! Some one hearing, said, "Judge, you can live to that age and then be no older than your mother now is." She is in her 102d year, and able to walk about. She recently attended the funeral of a friend who was a year her junior.

New York Riots.—The amount of the claims for damage in consequence of the riots, which have thus far been presented to the authorities of New York, comes to $1,305,740 22. The subscription to the fund in aid of colored people who suffered by the rioters, amounted on Saturday evening to $38,696. Several of the rioters were tried and sentenced before Recorder Hoffman on Saturday. All who were arraigned were convicted with one exception only, and received awards of imprisonment varying in duration from ten months to ten years.

Death of a New Hampshire Officer.—Intelligence has been received of the death of Capt. S. Judson Alexander of the 9th New Hampshire Volunteers. He died of fever near Vicksburg. Deceased officer was a member of the last graduating class of Dartmouth College, but more than a year since he exchanged his books for the sword. He was a young man of great integrity and of superior military abilities, and had given much promise of future excellence.

—— One of our returned soldiers died in Exeter, Monday morning, very suddenly, viz: William Nudd, aged about 43, a member of the N. H. 15th Volunteers. Mr. Nudd arrived home on Saturday morning, and was to return to Concord on Monday to participate in the reception on Tuesday.

☞ General McClellan had a narrow escape at Sagharbor the other day. James Talmadge was drowned while bathing in the surf, and Gen. McClellan and several others, bathing at the same time, were in imminent peril from the heavy under tow.

—— In Exeter on Sunday morning Aug. 2, a party of young men went into the water for the purpose of bathing, one of the party ventured out where the water was 12 feet deep, and not knowing how to swim sunk for the last time—but Mr. G. B. Pushe swam to the rescue and brought him out in safety.

☞ On the subject of the draft Gen. Halleck is very emphatic: 'Sir, we must either raise two hundred thousand men this fall for victory and peace, or eight hundred thousand men next spring to prevent all that we have won being wrung from us.'

☞ A correspondent of the New York Herald, at St. Louis, states that the recent election in the Fifth Congressional District of Missouri resulted in the choice of John G. Scott, anti-administration.

☞ While about seventy men were at work Thursday afternoon in the marble quarry at West Rutland, Vt., some fifty tons of loose rocks overhead gave way and fell down about fifty feet, killing one man, Frank Donnelly, immediately, and injuring three others.

☞ In several Scotch districts, the potatoes have been completely destroyed by severe frost. In the highland districts there have been severe and biting frosts, and the whole Cairngorm range is enveloped in snow.

☞ The number of tickets to the Cornet Band's Excursion to the Lake, to-morrow, is absolutely limited to four hundred; so all who intend to go, should procure tickets at once, and not be disappointed in attempting to do so, at the depot, when too late. Read the attractive advertisement.

Tickets may be had at the stores of Messrs. Preston, Thacher, Cobb and Head.

☞ Mr. Davis' Singing Schools this (Wednesday) afternoon and evening. See advertisement on the fourth page of this paper.

Tickets for the last half term, 75 cents—to be had at Mr. Head's.

☞ See you fair maiden in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Our readers have doubtless observed the advertisement of Mr. Clock's Hair Restorer. This preparation is comparatively new in this market, but it has already acquired a well-sustained reputation, and is, consequently, having a large sale.—See advertising columns.—*Manchester Union.*

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 60 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ja20

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM B. HACKETT.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, and we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require three to four Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by coincidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Morning Chronicle.

THE INGRATITUDE OF SLAVES.—The Georgia Constitutionalist has an amusing article bewailing the ingratitude of slaves, of which the following is the best portion:

"A sufferer by the Combahee raid sums up his sorrows in the following sentence: What contributed most to my mortification was, that in my whole gang of slaves, among whom there were any amount of Aarons, Abrahams, Isaacs and Jacobs, there was not one Aisbiel—not one remained loyal to the rebels." This is the complaint of hundreds and thousands of other sufferers. The most petted, trusted and seemingly devoted slaves are found wanting in the hour of trial. Hence interference adverse to the institution of slavery. We have heard of a gentleman, not long escaped from a northern prison, who returns to this native land with an animosity towards the Yankees which language cannot express, and with a determination to submit to the yoke of the Hottentot in preference to that of Lincoln.

But at the same time, he declared that what he saw and heard of the liberated negroes at the North had made him an abolitionist. Out of thousands of them, old and young, male and female, brutally ignorant or comparatively well educated, abused or petted, while in a state of slaveay, he saw not one who evinced the slightest gratitude towards its former master or mistress; and he, for one, was done with the wretches henceforth and forever. This gentleman's feeling is shared by many others, and the feeling is mistaken as an argument against slavery. But if ingratitude proves so much against slavery, it proves as much against white servitude. Every reader of English periodicals, familiar with Punch's illustration of "servant-gallum," and all who have lived at the North know too well the sufferings housekeepers endure at the hands of the male and female "helps." Precious little is heard in Yankee land of gratitude from high or low, and so common, indeed, is the vice of ingratitude, that Dr. Kane, in his Arctic Journal, declared bitterly that his experience had convinced him that mankind were never influenced except by selfish and sordid motives. * * We argue, then, that if gratitude be the test of an institution, we are not likely to be profited, on moral grounds, by abandoning the Bible system of domestic slavery for the wages system of white slavery."

The working men and women of New England may well laugh at this trash, which is so soberly put forth by one of the honest slaveocrats. He seems to think, true to his aristocratic training, that all working people are mudsills, all idlers are lords and ladies, and that the workers are under great obligations to the idlers; most ungrateful dogs indeed, they are not thankful for the privilege of being slaves. U. T.

"WHAT'S THE NEWS?"—The following was undoubtedly written by some nervous editor when communication was destroyed with New York by the late mob:

Never meet an editor without asking him "What's the news?" Go across the street and ask him—go to the sanctum and ask him—hunt him everywhere with this stereotype interrogatory, "What's the news?" Of course he has nothing else to do but answer questions. "He gets all the papers—he's an editor and ought to be posted." If he don't stop and tell you all the rumors and reports, vote "uncivil and disobliging." If he does answer all your questions, be sure to insinuate that the news has been "made up" for the purpose of helping the sale of the papers.

A good story is told of Dr. Wilbur, a member of the Board of Enrollment in the Third District. A drafted man presented himself for examination, who was so deaf that it required the utmost power of the Doctor's lungs to make him hear. The Doctor stooped down and commenced a critical examination of one of the drafted man's knees, remarking, in a low tone, "That is sufficient to exempt any man." "Glad to hear you say so," said the deaf man—suddenly recovering his hearing; "What did you say—was the trouble with my knee, Dr. Wilbur?"

It is perfectly sound and good,' replied the Doctor, I was only examining your ear.

That man paid his $300 and was exempted.—*Banger Whig.*

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 2 and 4 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Swellings, Ulcers, pained and distorted the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest allings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the best and most anticipating individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, sudden blushes, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating marriage, consult Dr. Dow, who is experience, and be at once restored to health and happiness.

Those who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted perfected preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW's Female Pills, prepared by Dr. DOW, No. 2 ENDICOTT STREET, Boston, is consulted daily for all disease incident to it. Female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and all menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new method of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has now more than 20 years' experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four cents, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, for $5 Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 2 Endicott street, Boston. Those who need the services of a skillful and experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE PREVENTIVE SECRET. Order by mail. Two for $1 and a red stamp.

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are made of solid plates, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meat will be prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin wagon to contain nothing but which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as the dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated from the outside as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about purchasing to call and examine for themselves the truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air without dust or smoke, and at the same time the air which comes in contact with the ore-pots is used for respiration, the tendency to produce headaches so much complained of in other furnaces is entirely obviated.

The objects aimed at by the construction of heating furnaces are, to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat in the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former ones, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass on from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the coal can be made to consume the gases of the coal, as they pass off with a large current of air, and not generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.	Albert R. Hatch, Esq.
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept as sweet as new, and any defects in which it is finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of gold, and costs much less by half as much. My experience has been highly satisfactory to myself and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr TREADWELL, Dr BOARDMAN, Dr OLIVER and Dr HAYNES, for patronage and success in extracting Teeth. Teeth extracted without pain and still perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, but is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

CONDITION OF FREEDMEN. — Robert Dale Owen, James McKaye, and Samuel G. Howe, the Commissioners appointed by government to inquire into the condition and necessities of the slaves freed during the war, have made a report concerning the District of Columbia, Eastern Virginia, North Carolina, South Carolina and Florida. In the three sections first named the commission are confident the freedmen need not be, for any length of time, dependent upon the Government for assistance. They are loyal, faithful, and willing to work, docile and uncomplaining. The negroes of South Carolina and Florida are of a different character, having been degraded by the harshness of the peculiar institution. The most effective agency to give character to the race is found to be military training, and the Commission are of opinion that 100,000 negroes might be profitably employed as military laborers, and 300,000 as soldiers in the field. This number of able bodied men represent a population of a million and a half, being nearly one-half of all the colored people in the insurrectionary States. To provide for this population then becomes an important question, and a system of guardianship is recommended, with the accompanying reflection that such an arrangement must be only temporary in its character.

The commission express the opinion that this care should be substantially separate from the ordinary military administration of the army, and are confident that if a judicious selection of officers be made the plans they propose will meet with success.

☞ Kate Brown, a female secesh, is lodged in one of the Western Virginia county jails for repeatedly cutting telegraph wires. She curses the jailor every time her food is brought, and instead of eating her meals she throws them out of the window. She yells like a Yahoo all through the night, and pounds upon the door of her cell continually.

☞ An official order from the rebel Gen. Pemberton rescinds the furloughs of the paroled prisoners from Vicksburg, as "of too great duration in the present condition of the country." This means that these paroled prisoners are to be used by the confederates in violation of the rules of civilized warfare.

☞ The Memphis-Grenada-Jackson Appeal says the loss of Vicksburg is really the only serious reverse that the rebel arms have met with during the past year, and thinks the operations of the Copperhead or peace party in the North, full compensation for all the reverses the South has sustained.

☞ The Philadelphia Inquirer of Saturday morning says an order was received directing that the colored regiment which has been encamped at Shelton Hill since its formation, shall leave as soon as possible for Charleston, S. C. Another colored regiment is now forming in that city. Its ranks are fast filling up, and it is thought that in a few days they will have reach the number required.

☞ The State Prison at Windsor, Vt., contains 79 convicts, about two-thirds of whom are Irish and French, and of this number six are females. The male convicts are occupied chiefly in the manufacture of scythes. The Prison has about a dozen men as a police, supplied with loaded muskets, and the income during the last ten years has paid the expenses, about $8000.

☞ The Southern Confederacy may now be bounded as follows: on the north by McClellan and Halleck; on the east by Burnside and Hunter: on the south by Fort Pickens and the Gulf Squadron; on the west by Gen. Butler, Commodore Farragut and Captain Porter.

Portsmouth, N. H.

THURSDAY, AUGUST 13, 1863.

THE REBELLION.

The siege of Charleston was progressing favorably on Friday last. The N. Y. Herald's correspondent, under date of the 5th and 7th inst., reports our position stronger and safer than ever. Although the rebels keep pouring in shells from Forts Wagner, Sumter, and other fortifications, the protections to our troops are so complete that the casualties are hardly noticed. On Sunday there was a terrific engagement between the gunboats, monitors and ironsides, and our troops on Morris Island, and the rebel forts. The rebel guns were finally silenced.

Gunboats are being prepared at Cairo to co-operate with Gen. Steele's expedition into Arkansas.

Our troops have destroyed five locomotives, 43 platform cars and 12 passenger cars, and burned a rebel cotton factory: also cotton and manufacturing goods to the value of $200,000, at Woodville, 70 miles from Natchez.

Letters from privates in Bragg's army report that he is retreating to Atlanta, Ga.—A considerable number of deserters who have retained their arms are said to be in the mountains near Pikeville, Ala., organizing with the citizens to resist the conscription.

A strong Union sentiment is showing itself in Vicksburg. The 9th army corps has begun to arrive in Cincinnati. Gen. Burnside and staff left Cincinnati on Monday, bound South. An important movement is hinted at.

Gen. Kilpatrick officially reports that he captured 2 guns, 3 battle flags, and upwards of 1500 prisoners at Falling Waters, when Lee's army escaped; and Gen. Meade says Lee must have been deceived by his subordinates, or he would never have denied that our troops took any prisoners there.

PENSION DIRECTION REVERSED.—A few days since it was said that the United States Attorney General had decided "that under the Pension act of 1862, widows and daughters of soldiers and sailors who, after being wounded while in the United States service and in the line of their duty, resign and subsequently die in consequence of such wound, are not entitled to a pension." A letter from the Hon. J. H. Barrett, Commissioner of the Pension office, says that "*Acting* Attorney General Coffee gave an opinion similar to that stated, but the Secretary of the Interior has decided in the *contrary* manner, and the latter decision controls the Pension office."

—— The Boston Journal states that an English Chronometer of the Adams manufacture, costing $225, was presented on Tuesday evening to Hon. Wm. E. Chandler Speaker of the N. H. Legislature, by the Republican members of that body. Some fifty members of the last Legislature were present, together with many distinguished civil and military gentlemen who had been in attendance upon the reception exercises of the day. The gift was duly tendered by Hon. Horton D. Walker, of Portsmouth, whose remarks were very happily conceived; and Mr. Chandler replied in felicitous remarks. Brief and spirited addresses were afterwards made by Hon. E. H. Rollins, Ex-Gov. N. B. Baker, Col. Walter Harriman, Hon. Larkin D. Mason, and others.

—— A heavy thunder storm passed over Wolfboro' on Saturday evening, doing no damage other than the shattering of several timber trees, among them one that has stood as a prominent landmark for many years on the farm of Daniel Whitten.

☞ A Cairo dispatch gives a report that the guerrilla Richardson has returned to West Tennessee with the requirements to carry on the conscription. It is said he has instructions to conscript all light colored negroes between 18 and 45 years, to serve three years as soldiers, at the expiration of which time they will be manumitted, but receive no pay for service.

☞ Mr. Hezekiah Wight, of Belfast, Me., died a few days ago of consumption, aged about 25 years. He was the tallest man in Waldo county, if not in the State, measuring in height 7 feet and 6 inches.

☞ John H. Morgan, the noted raider, was formerly a professional gambler, having his headquarters at Lexington, Ky.—His raid into Ohio was a desperate game, in which his entire pile was staked and lost.

☞ The Unionists in Eastern North Carolina are to hold a Mass Convention to invoke aid from the U. S. Government to relieve them from rebel oppression.

☞ Two of the representatives elected from Kentucky, Clay and Smith—are said to be administration men. The others are Union men simply.

☞ The draft excitement in Iowa has subsided. The rioters dispersed on the arrival of the military.

☞ Deserters are being captured daily in the southern counties of Illinois and forwarded to their regiments.

THE CONSCRIPTION.

From the Springfield Republican.

NOT MONEY, BUT MEN.—The appropriation of two millions and a half by the city government of New York to purchase exemption for all the conscripts in that city, is in the first place a cowardly concession to the mob; and in the second place an attempt to defeat the object of the government, and prevent the reinforcement of the armies of the Union. The example of New York is being followed by other cities in that State, and may become so general as to make the law a nullity; for it is not money but men the government needs.—There are doubts as to the legality of the operation, but there can be no doubt that it is unpatriotic and mischievous. If New York is so entirely at the mercy of the few thousand ruffians, who filled its streets with murder and rapine recently, that in no other way can the peace of the city and the lives and property of the citizens be secured, there may be some excuse for the concession. But even if the case were as bad as that, the New Yorkers had better call for help from the country and keep up the intestine war till their desperate classes are completely exterminated, rather than thus yield the vital point of the supremacy of the law. A mob bought off is still a mob; the combat is only postponed to be renewed again whenever the mob is balked of its will.

But there is a course of action by which cities and towns may alleviate the hardships of the draft without doing anything to defeat it. Provision may be made, and should be, for the families and dependents of needy conscripts, and for the payment of the exemption fees of such as cannot go and have not the means of paying for themselves. The course taken by the town of Cape Elizabeth, Maine, was both sensible and patriotic. The people being called together at the instance of some copperhead artizans in order to get a vote for the New York plan of buying off all the conscripts, they rejected it with great unanimity, and voted to pay to every drafted man who goes to the war or procures a substitute $350.

That is the true idea. Offer no inducements to men to stay at home, but increase the inducements for going. And, in the present state of the war, with a very reasonable prospect, as there certainly is, that it will terminate before half the three years' term expires, $350 added to the government bounty and pay, holds out the promise of large wages and little work, and we believe half the able bodied conscripts would prefer to serve rather than be excused on such conditions.

The copperhead politicians, defeated in their purpose to stop the draft by mob violence, will resort to all sorts of devices to neutralize and defeat it indirectly. Loyal citizens must meet them at every point, and while they see to it that the law is enforced because it is law and is right, also make every proper effort and sacrifice to equalize the burdens of the conscription and remunerate those who go into the service of the country. In this matter we are fighting through the most essential contest of the whole war, and if the conscription fails we lose all that we have won from the enemy by hard fighting, and the rebellion succeeds at last by the aid of treason and cowardice at the North. This must not be. Let every true man swear it shall not be.

"ABOLITIONISM IS A BARBARISM," says a northern advocate of the peculiar institution. If that be true, Africa, particularly the "Slave Coast," is the most highly civilized country in the world, and Cuba the next—while England, France, Denmark and Russia, are all mere barbarous countries, for they have all been abolishing such institutions lately. The conscience and sentiment of the world cry out against slavery. Even Jeff. Davis, in his late groaning address, seems to think it a dreadful thing to be enslaved by the yankees. No human being ever did or ever could choose slavery for himself:—and, therefore, no one can rightfully impose it on another. U. T.

DEATH OF CHILDREN OF FOREIGN PARENTS.—The mortality of the City of New York was largely increased last week, running up to 970, of which number 538 were children of five years and under. This fearful infant mortality is chiefly confined to children of foreign parents, of whom 475 died, against only 36 of native parents.—One chief cause of death is adulterated milk, which is again freely sold all over the city.

In Boston, the number of deaths of persons of American parentage, last week, was 49; of foreign parentage, 137.

Judge Holt's decision holding the drafted man responsible if his substitute proves to have been a deserter, promoted commutation yesterday. Conscripts hardly feel safe in investing in Canadian New Yorkers, who may by and by be claimed for service due to Uncle Sam, in a capacity other than a substitute.—*Providence Journal.*

☞ The following pithy platform has been adopted by the 50th Ohio regiment:

"*Resolved*, That our platform is: The Union first, last, and all the time; peace when it is established; war until it is."

NEW HAMPSHIRE ITEMS.

—— The 5th and 15th N. H. regiments had a glorious reception in Concord on Tuesday. The escort consisted of the Amoskeag Veterans, Nashua Cadets, Strafford Guards, and Concord Lancers (boys) with several bands of music. Gov. Gilmore accompanied by his staff took a position in the procession and welcomed the returned soldiers home in an eloquent speech. Responses were made by the commanding officers of the 5th and 15th. The procession then took up its line of march through the principal streets of Concord, and returned to the State House, where a collation was prepared; speeches were made by distinguished military and civic gentlemen present.

—— On Wednesday, at Washington, Paymaster McFarland, of Concord, drew $90,000 from the Treasury, to take next day to the army of the Potomac. He put it in his trunk, and kept guard over it until evening, when he went out for a short time, leaving it in charge of his clerk, McCarty. On his return, McCarty was gone. McCarty did not return, and Mr. McFarland discovered that $40,000 of it had disappeared. Police officers were at once set to work and McCarty was arrested the next morning, "in company with a woman," at Bladensburg, and all the money, with $200 of his own taken from him. McCarty was a clerk at the military headquarters in Concord for some time, and sustained a good reputation. He has a wife in this State.

—— Three table waiters at the American House, Boston, were drafted, skedaddled, and obtained employment at the Pavilion, in Wolfboro, where they were arrested on Monday by U. S. Detectives.

—— One James C. Ford lately used the liberty of the press rather freely, charging Augustus Jones of Charlestown, N. H., with stealing a horse,—but now Ford recants, and says:—

"The charges were utterly and wholly false and groundless, and without any substance or shadow of truth, and that the same were published by me, maliciously and willfully, and for the sole purpose of injuring said Jones, and for no other purpose whatsoever, and that the same were without any shadow or foundation of truth whatever, and I hereby declare that said Jones never stole a horse and wagon of me, or of any other person whoever, to my knowledge, so help me God.

JAMES C. FORD."

This was sworn to before a Justice of the Peace.

—— Over four hundred bushels of blueberries have been sent to Boston during the present season from Meredith Village. One man sent two hundred bushels.

—— Ex-Gov. Baker, now Adjutant Gen. of Iowa, is on a visit to Concord, the first since he left the State, some eight years ago. He was serenaded at the Phenix Hotel, last week, and made a patriotic speech.

—— Mr. Benj. Hosmer, an old and much respected citizen of Nashua, arose from his bed on Sunday night, while dangerously ill from typhoid fever, and jumped into the river near his house. His body was recovered the next morning. He was in his 70th year.

THE DRAFT AGAIN.—Nothing is given out from the proper quarter that would lead to a belief that another draft will be ordered after this one is finished.

A SALVE FOR EVERY SORE.—When we consider the various diseases to which the skin is subject, it must be an object of importance to have at hand a sure and certain cure for most of them. For recent flesh wounds, obstinate ulcers, troublesome felons, sore breasts, ringworm and scald head, and chilblains of the tender skin of infants, as well as for warts and callouses, "*Grace's*" *Universal Salve* is a certain and rapid remedy. Every father who goes into the woods should carry a box in his pocket, and every mother of a family should have a 25 cent box in the cupboard. See advertisement in another column.

☞ See you fair maiden in another column, picking Samburi Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

DEATHS.

In this city, August 11th, THOMAS HOLMES HATCH, aged 4 years and 4 months, son of Mr. Wm. C. Hatch.

In Exeter, Mr. STEPHEN SHORES, aged 66.—2d inst., Mrs. MARY HALL, aged 75.

In South Newmarket, Mr. THOMAS QUINN, aged 82.

PROVOST MARSHAL'S OFFICE,

FIRST CONGRESSIONAL DISTRICT,
Portsmouth, N. H., August 12, 1863.

Drafted men furnishing substitutes must previously forward to the Board of Enrollment a written notice, giving the name and age of the substitute and stating whether he is an alien or a citizen. They must present themselves with the substitutes on the day they are ordered to report, between the hours of 9 A. M. and 1 P. M.

Those wishing to commute for service must pay $300 to James M. Lovering, Collector of the Internal Revenue, Exeter, N. H., or at the office of William H. Hackett, Portsmouth, N. H., and procure DUPLICATE receipts for the same, before making application to this Board for certificates of exemption.

A drafted man may pay $300 in commutation of services or furnish a substitute, AFTER he has presented himself for examination and been accepted by the Board of Enrollment.

Henceforth, a Reward of Ten Dollars will be paid to any person upon the arrest and delivery of a deserter to the Provost Marshal or either of his deputies.

ANY person claiming exemption on the ground of ALIENAGE must file before the Board an affidavit stating: 1st that he is an Alien and setting forth the government of which he claims to be a subject. 2d the TIME when he came into the United States, and where he has resided since that date. 3d that he has never declared his intention to become a citizen of the United States, and has not exercised the right of suffrage by voting at any election in any State. 4th that he claims to be exempted from Military Service on the ground that he is the subject of a foreign Government, and has not declared his intention to become a citizen of the United States, and has never voted in any State,—the affidavit to be supported by any competent evidence the party may offer.

Persons claiming exemption by reason of Unsuitableness of Age are required to make an affidavit setting forth the claim, to be supported by as much of the following testimony as can be obtained.

1st. By an authenticated extract from the legal registry of Births, if there be any such registry.—2d. By any other authenticated documentary evidence tending to establish the fact of age. 3d. By the affidavit of the Parents. 4th. By the affidavit of such other respectable persons, (not less than two,) heads of families, as are most likely to be informed on the subject.

DRAFTED PERSONS in the County of Rockingham requiring blank forms of certificates, from No. 25 to No. 30 inclusive, can obtain them by applying at the office of the Provost Marshal between the hours of 12 o'clock M. and 1 o'clock P. M., and at the office of James M. Lovering, Exeter, N. H., and to William S. Ring, Esq., Northwood.

Valuable Mill Privilege
AT AUCTION.
Will be sold at Auction, on the premises in Rye,
On SATURDAY, August 15th, 1863,
at 2 o'clock in the afternoon,
The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Double Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.
At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Rock, in fair order.
The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.
The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of HOSEA B. ODIORNE at Rye, or of WILLIAM H. HACKETT.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to perform all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it for their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, WEAKNESS, LOSS OF APPETITE, and derangements of the stomach and Bowels, and as a Family Pill. epno

ANOTHER SON OF PORTSMOUTH DECEASED.—Died, Aug. 8, at Camp Bowers, near Portsmouth, Va., Mr. Albion J. Jenness, aged 18, son of Mr. Lowell Jenness of this city. He was a member of Co. E, 13th Regt. N. H. V., and of the Portsmo. Division Sons of Temperance; and was a very worthy and promising young man. His remains are on the way home for interment here. Thus our noble army of patriot martyrs increases; and a mausoleum of bleeding but loving hearts is built, silently, sadly,—but full of trust that liberty, law, and justice, bought at such a price, will last as long as sun and moon endure.

☞ The U. S. frigate St. Lawrence was towed to sea from the Portsmouth Navy Yard on Wednesday morning, by the new steamer Nipsic, built at the Navy Yard. The machinery of the Nipsic has recently been put in, and had been run previously only about two hours, on Monday, at the wharf. It is well known that it is a very uncommon thing for one United States vessel to tow another to sea, and the Nipsic being almost untried, it was a matter of much congratulation to those interested that she succeeded so well.

The St. Lawrence was towed out to a point about 9 miles from Whale's Back Light, and the Nipsic then returned on what was virtually her trial trip. Everything worked admirably, and to the highest satisfaction of those on board. She easily made eleven knots, her engines working smoothly and finely. These were built by the well known firm of Woodruff & Beach, Hartford, Conn., who made those of the Mohican and Kearsarge,—two vessels which have deservedly proved popular with the Department, and have attested the efficiency of those by whom they were built and fitted out.

We understand that Messrs. Woodruff & Beach have contracted to furnish engines for two new vessels, of 2500 tons, to be built at the Portsmouth Navy Yard.

"NEWS."—A correspondent at Kittery, Me., informs us (the Gloucester Telegraph) that Commander Macomb, of the Navy Yard at that place, has appointed Mr. Thomas Woodfall, a native of England, as Master Mason, and placed him in charge of Fort McClary. This somewhat excites the indignation of the true native Americans in that quarter, as our correspondent says Mr. W. has fitted up the Barracks for his own and his friends' use, at great expense to the government, and he hopes that Kittery and Portsmouth people will look into the matter. *Gloucester Telegraph.*

Now, we will just say, for the information of our friend of the Telegraph, that our observation of all the correspondents from the "*Kittery* Navy Yard" has gone to show that such fellows, who don't know the name of the location they date from, are not reliable in anything they say—or write. Commander Macomb may have charge "of the Navy Yard at *that* place," Kittery; but Captain Pearson was Commandant at *Portsmouth* Navy Yard, the last we heard. Capt. Macomb has charge of the harbor fortifications building here; but we know nothing about his fitting up barracks, or anything else; though it is to be presumed that he knew his business, or he would not have been placed in charge. Don't let anybody "sell" you, Br. Tel.

THE DRAFT for Rockingham County was begun on Monday and completed on Wednesday, in the most orderly and business-like style, without trouble or disturbance of any kind; and we have not heard that the police assaulted any peaceful citizens, or committed any breach of law and order.

We record this latter fact with much pleasure, and have no doubt the whole matter was conducted to the satisfaction of all reasonable people.

We have devoted a large space in our paper to the publication of the names drafted; as the communities were anxious to know the result.

☞ The Portsmouth Cornet Band, excursion will leave the Eastern R. R. depot in this city by extra train, this Thursday, morning at 8 o'clock. Tickets must be obtained before taking seats in the cars.

☞ Paymaster J. V. B. Bleecker has been detached from the Portsmouth Navy Yard, and is awaiting orders. Paymaster Caleb J. Emery has been ordered to succeed him.

☞ A boy of 7 or 8 years, named James H. Hartford was drowned while bathing in the South Mill Pond, Wednesday forenoon. He was a son of Mr. Lyman Hartford, who is absent in the navy. The body was recovered.

☞ The temporary necessity for the use of private shinplasters having passed away, only postal currency and coin, will hereafter be received at the Chronicle office in payment for papers, advertising, etc.

☞ The Class of 1862, Harvard University, have passed resolutions of respect to the memory of their classmate, Lieut. Samuel Cushman Haven, 162d New York Volunteers, of this city, who died recently in the hospital at Baton Rouge, La.

SCHOOLEY'S NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to pro ure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to these diseases in particular and practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the sanct as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines; and have been tested in more than 20,000 cases annually with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoicing in what makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons too disgusting which accompany each package, for the guidance of ladies, in the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, free from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Portsmouth, Aug. 8, 1863. 39 Market St.

Morning Chronicle.

GEN. SHEPLEY, of Maine, as is well-known, was out at New Orleans, in an important station. He is now in Portland, and on Monday evening last an immense audience filled City Hall "to greet Gen. Shepley, Military Governor of Louisiana." The General made a speech of two hours, which was greeted with enthusiastic applause.

He defended the Government and its measures in quelling the rebellion, and vindicated the course of Gen. Butler. He hopped the last drop of Union blood and the last dollar of Union money would be expended before the Government should treat with the rebels on a basis of separation. The process of restoration seemed not difficult to him. Ignore the rebel government, put Union men in power and let them bring back the States to the Union. Rebels should have no part in the Government.

The first gun against secession sounded the death knell of the institution which caused the rebellion. He was willing to trust the Union men of the South to settle the slavery question. He declared emphatically that no offer had been made by the State of Louisiana to return to the Union, and no public meetings had been held to authorize a committee to apply to the President. The Louisiana committee acted for a few wealthy planters. The Government had done everything in its power to welcome Louisiana back to the Union. * * * First put down the rebels in arms, dispose of their self-constituted governments, and give time for the people to recover from the pressure to which they have been subjected. We must sustain them until they are able to stand alone; we must put the civil authority into the hands of loyal and pure citizens; we must put down their evil combination and breathe into their atmosphere a brighter and purer air.

The audience was composed of all classes of citizens, and hundreds were unable to gain admission.

PRESERVATION OF THE TEETH.—The American Dental Convention, in session last week at Philadelphia, adopted the following resolution:—

Resolved, That in our deliberate judgment, the flagrant and indiscriminate extraction of teeth, for trifling, temporary, and sometimes wholly unnecessary causes, which has so long and so extensively prevailed, should not only be held perfectly inexcusable, but should be severely censured, and that an intelligent and prompt rational treatment for their restoration from disease and permanent preservation should be the first and highest aim and effort of our profession. And, further, that in our belief the progress of dentistry at the present day has revealed resources varied and ample enough, when timely need, for the preservation of almost every tooth, so that its decay and extraction shall only be simultaneous with that of the human frame itself.

"We all of us should be ready to make sacraments," said Mrs. Partington solemnly as she heard that a neighbor's son had been drafted; "if I had a hundred sons I should be willing that every one of 'em should be exempt." What a patriotic glow her cheek assumed! How her eyes flashed through her glasses!—What a meaning there was in her tone! But like, who knew the dictionary signification of the word "exempt," laughed.

—— The National Thanksgiving was observed in Lebanon by a free conference meeting at the Town Hall. Remarks, chiefly of a patriotic nature, were made by the several clergymen and others. About 200 persons were present.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcerations and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of Secretion, Symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body, and totally unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by such habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for hand the French Capotles, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, 7 and 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has doubtless had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledged superior to the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 a. m. to 9 P. M.

CERTAIN CURE

In all cases, and No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of a experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH CAPOTE. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plates which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping to the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as pure as the air which comes in contact with the fire-pot is used for respiration; the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by its use.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished, the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

VOL. 23. PORTSMOUTH, N. H. FRIDAY AUG. 14, 1863. NO. 37.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

NORTH CAROLINA.—The National Intelligencer at Washington has published an article in relation to the return of North Carolina to the Union. Mr. Edward R. Stanley, one of the leaders for reunion, who is the brother of the late Military Governor there, and an influential citizen, says:

The people of North Carolina "will resist the emancipation proclamation to the last; that they will not make any overtures of peace or propositions to return to their former allegiance to the Union; but if the President will proclaim to them that all officers and political leaders below a certain grade, and all the people below them shall be held innocent, and shall be restored to their original rights under the Constitution, they will hail it as a just and generous act, will gladly accept it, and return to their allegiance to the Federal Union."

There seems to be something like a death struggle in the efforts made just now by the slave power to keep itself alive for further mischief, a new rebellion, and a more frightful civil war. It is not strange, that men who have been the lords of wealth and power, amid slaves and sycophants, should wish to bring back their old aristocracy in all its beauty and glory: but it may be easier to imagine this than to do it.—The working-men themselves may have something to say about it: and restoration may be more difficult than reconstruction.

☞ In Missouri, lately, Gen. Blair made a speech, in which he declared himself in favor of the emancipation ordinance passed by the late convention. He regarded the opening of the Mississippi river as the greatest military operation on record, and to General Grant was due the glory of planning and to his men the glory of endurance and valor in successfully executing these plans. Gen. Grant's army had killed, wounded and captured more men than it numbered, and had taken Vicksburg with more men in the place than were in the army when it sat down before the place.

Gen. Blair favored the draft in Missouri, and censured Gov. Gamble for striving to avoid it.

☞ A volume of verse has been published in New York, with the title, "Palmetto Pictures." It is devoted, we observe, to the praise of our military leaders and the soldiers in South Carolina. The following stanza is a specimen:—

"Yonder indigenous endogens wave
Banner like blades on a mystical pole
And, with a vigor perennial, brave
Boreal blasts from the alien pole."

After that, we suppose that the reputation of our troops at the post in question may be considered secure and immortal.

SHOOTING STARS.—The usual flight of these meteors, Aug. 10th, came off Monday evening. Between the hours of 8 1-2 and 11 o'clock seventy-eight were counted; all of them moving (with a single exception) in a line whose origin was in the constellation Perseus. Many of them were very brilliant and left a long train of sparks behind them. This phenomenon has, for years, been as true to its period as that of any other celestial phenomenon, and it appears evident that the earth in its annual course round the sun comes very near to a body of loose material, which revolves in a ring around that luminary.—*Newburyport Herald*

☞ Deacon Josiah Bracket, of Charlestown, 78 years of age, has been notified that he is a conscript in the 6th District, Massachusetts. Deacon Bracket will appear as ordered, only regretting that he is thirty or forty years too old to come within the limits of the law.

☞ The London papers state that by the earthquake at Manilla, on the 3d of June, the town was destroyed and 10,000 of the inhabitants buried in the ruins.

A FAITHFUL PRIEST.—One of the Roman Catholic priests of Newark, N. J., told his flock, some days since, that if he should at any time hear of the perpetration, by an Irishman, of any outrage whatever upon any colored citizen, he should immediately seek out and protect in his own house the person so assailed.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 14, 1863.

THE REBELLION.

Gen. Rosecrans' headquarters on the 7th were at Dechord, Tenn. Bragg was said to be at Chattanooga, with about 28,000 men.

The Associated Press' correspondent at Charleston, under date of Aug. 8th, says the rebels have built numerous additional batteries on James Island and we will have to encounter 100 more guns than Admiral Dupont had. They are also building interior lines of defences close to the city. Not less than 7000 troops had landed at Morris Island during the previous week, from the North. Under date of 8 P. M., 10th, the correspondent says Gen. Gilmore had notified Adm. Dahlgren that he would be in readiness to commence the assault on the 13th. The Navy was all ready.

THE OTHER FACTS.—A day or two since, in Gov. Seymour's bitter complaint of alleged partiality in the enrollment and call for troops, he stated that nineteen republican districts were called upon lightly, while nine democratic districts were heavily drawn upon. We suggested that *other* facts might change the thing, materially.

Here are some other facts. The city of New York should have furnished 25,160 men on the call for 600,000: she did furnish 6,637: and owed 18,523.

All the rest of the State should have sent 94,855 men; and did send 85,369 men; leaving 9,546 deficiency.

Thus the city furnished 27 men for every hundred;—and the State 90 for 100.

Again, the 9 counties including the city, which gave 42,638 majority for Seymour, fell short 25,621; while the deficiency in all the rest of the State was but 3,348!!

In West Chester County, 7 towns only gave republican majorities. In these towns 446 soldiers were called for, and there was a deficiency of 5.—There were 16 towns with democratic majorities, which should have sent 2,632 soldiers, but fell short 809!

Now the President of the U. S. has not called on the city to make up its deficiency, but has called for its proportion of the new draft. Yet Gov. S. protests and threatens, apparently intending mischief, and certainly aiding the rebellion.

These facts show two or three things: 1, the Governor's *unfairness* in the *suppressio veri*, intending to deceive. 2, the *falsehood* of the pretense that Seymour's partizan's had sent more men into the field than his opponents. And 3, the reason why some loyal counties were lightly enrolled, viz. because their men were already in the field.

The Tribune supposes that the New York republicans and war democrats in the army are 50,000 more than there are copperheads: and that Gov. Seymour wishes to keep it so.

☞ California has been full of rumors of a contemplated rising of the secessionists, and an affray occurred on the 6th, at Visalia, between secessionists and soldiers stationed there. One soldier was killed, and several rioters wounded. Gen. Wright has sent troops there, and ordered the spare arms to be distributed among the loyal citizens.

Gen. Wright, some days since, asked permission of the Government by telegraph to begin immediately the new defences of San Francisco, but as he received no reply, the City Supervisors have voted the city's guarantee of repayment to any person who will advance $50,000 to enable the Government instantly to commence proper fortifications.

☞ Among the claims for damages during the late riots in New York, filed with the Controller on Tuesday, are those of Postmaster Wakeman, for nearly twenty seven thousand dollars, and Provost Marshal Duffy, for damages to his premises, and for loss of business, to over five thousand dollars. The Grand Jury of the Court of General Sessions, prior to being discharged for the term, sent a communication to Recorder Hoffman asking for an investigation into the causes of the recent riots.

☞ The Paymaster-General has distributed to the armies of the United States funds for the May and June payments as follows: — Rosecran's army, $4,750,000 Grant's $5,000,000; Burnside's $2,000 000 Bank's $2,500,000; Gilmore's $1,250,000 Foster's $1,000,000; Schofield's $1,000,000 Pope's, $750,000; Meade's $6,500,000.

☞ It has lately been decided by the Supreme Court of Wisconsin that a man who had voted illegally, and claims exemption from the draft on the ground of alienage, is not liable under the conscription law to military service, but is amenable, for a violation of the election law of Wisconsin, to serve a term of years in the State prison.

☞ It is stated that Frederick Douglass is to accompany Adjuant General Thomas to the West, to assist in organizing colored regiments.

NEW HAMPSHIRE ITEMS.

—— Col. Kingman, of the 15th regt., has been released from arrest and arrived in Concord on Tuesday evening.

—— Henry M. Wingate, son of Mr. William P. Wingate of Dover, was drowned while bathing in Black River on the afternoon of the 9th inst. An older brother, in his efforts to save him, became so much exhausted that his life was for some time despaired of. The deceased was about 18 years of age.

—— The barn of Daniel K. Webster, Esq., in Dover, was burnt on Sunday afternoon, with all its contents, consisting of about 20 tons of hay and $700 worth of hides. The fire is supposed to have originated from friction matches in the hands of children. The barn was insured, but its contents were not—making the loss to Mr. Webster quite serious.

—— A young lad 7 years of age was severely injured in Concord on Tuesday.—He was in the road with other boys when some ignorant fellow threw a bunch of India crackers, on fire, into the street. A horse took fright and became unmanageable, and ran over this lad. His head was severely cut in many places, and he was insensible for many hours. He is the son of a poor widow lady by the name of Philbrook.

THE LATE COLONEL CROSS.

The following letter, which was written after the battle of Fredericksburg, to a friend in Cincinnati, Ohio, by the late Colonel Edward E. Cross, who was killed at Gettysburg, has just been published:—

HEADQUARTERS FIRST BRIGADE,
Hancock's Division, June 4, 1863.

Fredericksburg came near being my last battle. As we were advancing to those fatal heights in line of battle, I was near my colors. A twelve-pounder shell, from the Washington battery, burst right in front of me. One fragment struck me just below the heart, making a bad wound. Another blew off my hat; another (small bit) entered my mouth, and broke out three of my best jaw teeth, while the gravel, bits of frozen earth, and minute fragments of shell, covered my face with bruises.

I fell insensible, and lay so for some time, when another fragment of shell, striking me on the left leg, below the knee, brought me to my senses. My mouth was full of blood, fragments of teeth and gravel, my breast bone almost broken in, and I lay in mud two inches deep. My brave boys had gone along. I always told them never to stop for me. Dead and wounded lay thick around. One captain of French's Division was gasping in death within a foot of my head, his bowels all torn out. The air was full of hissing bullets and bursting shell.—Getting on my hands and knees, I looked for my flag. Thank God, there it fluttered right amid the smoke and fire of the front line. I could hear the cheers of my brave men. Twice the colors dropped, but were up in an instant. I tried to crawl along, but a shot came and struck the steel scabbard of my saber, splitting it open, and knocking me down flat.

Dizzy and faint, I had sense enough to lay myself out decently, "feet to the foe." Two lines passed over me, but soon they swayed back, trampling on the dead and dying. Halting about thirty yards in the rear, one line lay down and commenced firing. Imagine the situation. Right between two fires of bullets and shell—for our own artillery fire from over the river was mostly too short, and did great damage to our own troops. I lay on the field four hours, the most awful moments of my life. As the balls from our line hissed over me, within a foot of my head, I covered my face with both hands, and counted rapidly from one to one hundred, expecting every moment my brains would spatter the ground. But they didn't.

My guardian angels (if there be such personages) of my destiny saved me. The end of my days was reserved for *another* and I hope more fortunate occasion. For if I am to die on the battle-field, I pray that it may be with the cheers of victory in my ears. When it became dark, some of my men found me, and I was carried to the hospital.

You remember the evening of our little festival. Out of the gay crowd of officers there assembled, death has made a fearful mark. Of the nineteen officers of the 5th New Hampshire in the battle, seven were killed and ten wounded. Of the five colonels of the brigade, three were badly wounded. Only one mounted officer was left in the brigade, which left half its numbers dead and wounded on the field.

Thank heaven that the old "fire proof" brigade added to its glorious name that day. The same colors that were in front at Fair Oaks, Malvern Hill, and Antietam, were placed nearest to those inaccessible batteries. Out of two hundred and forty-nine of my regiment, one hundred and eighty were killed and wounded. Captain Ferry and Captain Murray were shot with the colors in their hands. Major Sturtevant and Captain Moore fell within thirty or forty yards of that stone wall at the foot of the hill.—But I have no heart to go over the details. The scenes of that battle added ten years to my experience.

I suppose we are now in summer quarters. *When are the conscripts coming?* The enemy are very strong in front of us. I want to fight this thing out. My life—all I have—is at the service of the country. But let me tell you it is hard fighting against stupidity, foolishness and *treason at home!*

I shall always be glad to see any of my Cincinnati friends, come when they may.—I now command the old First Brigade. I have often been recommended for promotion, and by no less than twelve generals. Yet, so it goes. Yours truly,

EDWARD E. CROSS,
Col. Comg. First Brigade.

☞ The rebel privateer Gibraltar, late the Sumter, arrived at Bermuda July 31, from Liverpool.

A DAY ON THE LAKE.

One day near the close of July, a very pleasant excursion to the Lake was enjoyed by a party of gentlemen from this city and the Navy Yard, on invitation of certain other gentlemen resident in Dover. The excitement of the draft, and the attention which this has demanded, has occasioned too long a delay in referring to it; and this delay has been still further prolonged by a temporary absence from the city.

The party left this city in the early train on the C. & P. R. R., and included Hon. Thomas L. Tullock, Navy Agent, Mayor Dearborn, City Clerk Bufford, Capt. Murray and Paymaster Bloecker from the Navy Yard, Col. Wentworth, Hon. Horton D. Walker, Aaron Hill, Esq., Aaron Young, Esq., and other gentlemen. At Dover the party was most cordially welcomed by Hon. John P. Hale, John E. Bickford, Esq., Mayor Estes, Messrs. Tricky and Jewett, and other gentlemen,—including Mr. Kimball, the enterprising Superintendent of the Winnepisseogee Railroad.

The party comfortably filled a comfortable car, and, with many expressions of kindly regard and anticipations of a joyous day, were quickly taken over the smoothly-running railroad to the steamer Dover at Alton Bay. It was a beautiful day, most fit to be appropriated to such an excursion to the Lake which sparkles beneath "the smile of the Great Spirit"; and as the steamer glided smoothly and gracefully over its placid waters, at each revolution of its wheels bringing us to localities more charming in their beautiful surroundings even than those just passed, there was a natural longing that the pleasures of the moment might not be fleeting, and almost a wish that the beautiful day might never end. And in its memories such a day never ends; the mind never quite loses its hold upon the recollection of "the good times in which we were." Far away from war's dread alarms; on a lake whose waters have not moistened the keel of armed vessels, and whose high shores did not know the tread of martial men, we found this day fruitful in memories that did not perish when its sun went down.—Throwing aside the anxieties and perplexities of every-day life; forgetting for a while the pain and the anxiety which civil war has made so constant companions with us, all entered heartily and unreservedly into the enjoyments which kind nature so bountifully provided. There was a feeling that it was well for us to be there, and a realization that this temporary quiet and peace could be productive only of good.

A most bountiful dinner was provided for the party on the boat. Appetites sharpened by the clear mountain air appreciated this feature of the trip; and the jokes and sentiments which followed, were a most agreeable dessert. Capt. Wiggin, of the steamer Dover, is manager of a most excellent and amply provided boat, and on this day proved himself to be a most efficient and obliging officer,—a reputation which he acquired long since among his passengers by his care and attention to them on every trip the boat has made under his direction.

At Centre Harbor we were reluctantly compelled to part with friend Clarke, of the Manchester Mirror, who was going on to the mountains. The remainder of the party returned on the boat to Alton Bay, where several remained at the hotel until the next morning. The evening was passed in pleasant conversation; a few at sundown fished in the lake; others took a stroll, and others still sat down to the inevitable game of euchre.

An early start at four o'clock the next morning was at least a novelty, and before we had fully recovered from its unusual effects, we had once more reached "the quiet seaport." Of the minor incidents of the trip; of the golden-hued anticipations of beneficial results from the extension of the railroad from Dover to Portsmouth, we have not time or space to speak now: certainly we have not space to express one-half the pleasure the trip afforded us, and our indebtedness to the gentlemen who enabled us to enjoy ourselves so much.

☞ Ex-alderman Boole, city inspector of New York, has been in office but six weeks, and has removed over 150,000 loads of dirt, ashes and garbage, giving the city a more cleanly aspect than it has had for years.

☞ Prairie chickens are so plenty in Iowa that they can be killed with stones and clubs, and in many instances the farmers importune hunters to visit their lands, and even offer to pay for the killing.

THE CROPS.—Taken as a whole, the reports respecting the harvest and growing crops are quite favorable. The Spring crops, which had been kept back by cold and drought, have improved under the warm sun and kindly showers, till now a full average yield is anticipated in most parts of the country. According to the report of the condition of the crops in the months of May and June, given by Hon. Isaac Newton, Commissioner of Agriculture, it appears that a tenth more land was sown this season with wheat than the season of 1862, which was the largest crop ever grown in this country. The appearance of this crop has varied, but as a general thing there is a prospect of a large yield.—*Boston Trav.*

☞ In Kentucky, Bramlette, Union, has 42,000 majority for Governor in 70 counties, over Wickliffe, copperhead; there are in all 109 counties, and Bramlette may get 60,000 majority. It was hoped before election that Bramlette might be elected, and when the first report came that he had 20,000 majority, it was received with caution; but this great majority is as gratifying as it was unexpected.

☞ The temporary necessity for the use of private shinplasters having passed away, only postal currency and coin, will hereafter be received at the Chronicle office in payment for papers, advertising, etc.

PROVOST MARSHAL'S OFFICE,

FIRST CONGRESSIONAL DISTRICT,
Portsmouth, N. H., August 12, 1863.

Drafted men furnishing substitutes must previously report to the Board of Enrollment a written notice, giving the name and age of the substitute and stating whether he is an alien or a citizen. They must present themselves with the substitutes on the day they are ordered to report, between the hours of 9 A. M. and 1 P. M.

Those claiming to commute for service must pay $300 to James M Lovering, Collector of the Internal Revenue, Exeter, N. H., or at the office of William H. Hackett, Portsmouth, N. H., and procure a certificate to the Provost Marshal or either of his deputies.

Any person claiming exemption on the ground of ALIENAGE must deliver to the Board an affidavit stating, 1st that he is an Alien and setting forth the government of which he claims to be a subject. 2d the TIME WHEN he came into the United States, and where he has resided since that date. 3d that he has never declared his intention to become a citizen of the United States, and has not exercised the right of suffrage by voting at any election in any State. 4th that he claims to be exempted from Military Service on the ground that he is the subject of a Foreign Government, and has not declared his intention to become a citizen of the United States, and has never voted in any State,—the affidavit to be supported by any competent evidence the party may offer.

Persons claiming exemption by reason of Unsuitableness or Age must present an affidavit setting forth the claim, to be supported by as much of the following testimony as can be obtained.

1st. By an authenticated extract from the legal registry of Births, if there be any such registry.—2d. By any other authenticated documentary evidence tending to establish the fact of age. 3d. By the affidavit of the Parents. 4th. By the affidavit of such other respectable persons, not less than two in heads of families, as are most likely to be informed on the subject.

Persons drafted who may be too sick to report upon the day ordered should forward the affidavit of a Physician, stating the facts in the case and how long it will be in his opinion before the man will be able to travel.

No certificate of a Physician or Surgeon is to be received in support of any claim of drafted men for exemption, unless the facts and statements therein set forth are affirmed or sworn to before a Civil Magistrate competent to administer oaths.

DRAFTED PERSONS in the County of Rockingham furnishing blank forms of certificates, from No 25 to No. 30 inclusive, can obtain them by applying at the office of the Pr vost Marshal to-day the hours of 12 o'clock M. and 1 o'clock P M, and at the office of James W. Lovering, Esq., Exeter, N. H., and to William S. Ring, Esq., Northwood.

Valuable Mill Privilege
AT AUCTION.
Will be sold at Auction, on the premises in Rye,
On SATURDAY, August 15th, 1863,
at 2 o'clock in the afternoon,
The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House, together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Bevel Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.
At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.
The Mill Privilege has long been useful (previous to the late fire, which has wholly destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.
The above offers an excellent opportunity for any one desiring to engage in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of
WILLIAM H. HACKETT.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Local.

☞ The City Council on Thursday evening passed an ordinance giving drafted men from this city, or their substitutes, $300, 10 days after being mustered into the U. S. service.

☞ A dispatch from Capt. J. H. Thacher, of Co. K, 16th N. H. Regiment, received in this city on Thursday, stated that the regiment reached Buffalo, N. Y., on Wednesday morning, and would leave immediately for Concord, via Springfield. They would probably arrive there on Friday afternoon.

Isaac Thomas, of this city, a member of Capt. Thacher's company, died at Port Hudson Aug. 1.

☞ Almost a serious accident occurred at the terminus of the Portsmouth and Concord Railroad, at the North End, on Wednesday, by the engine of a coal train breaking from its tender, while the engineer had left he engine to attend to the coupling. At the breaking of the connection, the engine started with great speed, but a boy, 14 or 15 years of age, who was on the engine at the time and who knew something of its working, stopped it in season to prevent its running into other trains near the depot.

THE GREAT CONSPIRACY AGAINST THE UNION.—The Hon. Horace Maynard, of Tennessee, and the editor of the Nashville Union, vouch for the character of Mr. Alfred Hoss, of East Tennessee, the writer of the following letter, which is sent by Mr. Maynard to the Union:

NASHVILLE, TENN., June 26, 1863.

Hon. H. Maynard—Dear Sir—I take pleasure in complying with your request to give the substance and, as nearly as possible, the language of Mr. ——, of Louisiana, in a conversation which occurred between him and myself about three weeks before the last Presidential election. I met with Mr. ——, on the cars, some miles beyond Jonesboro', Tenn., in October, 1860. He was then returning to his home in Louisiana from the City of Washington.

By accident I took a seat immediately behind the one occupied by Mr. ——, when he at once turned round and began to make inquiries respecting the prospects of the different candidates for obtaining the electoral vote of Tennessee. He expressed great pleasure when I assured him that Breckinridge could not possibly obtain the electoral vote of this State; and his reasons for it I will give you as nearly as may be in his own words. "I am glad," says he, "that Mr. Bell will get the vote of Tennessee, although I cannot vote for him. I am a Douglas Democrat, and I am hastening home to see what can be done to prevent my State from casting its electoral vote for Breckinridge. I have been in Washington since the first day of July, and I tell you now, sir, there is at this moment on foot at Washington the most damnable conspiracy to break up this Government that was ever known in any civilized country. I do not speak from hearsay, sir, for I have been in their caucuses almost nightly for the last three months, and I know the programme from A to Z. And it is this: If they can by any means (which is utterly impossible) secure a majority of the electoral votes for Breckinridge, then the scheme is, as soon as he is inaugurated and put in possession of all the resources of the Government, to divide the country along Mason and Dixon's line, the Ohio river and thirty six degrees thirty minutes north, to the Pacific ocean. In other words, they intend to cut loose from all the free States and to build up a great slave confederacy in the South; and to accomplish this purpose they will use all the resources of the Government proper. But should they fail in this (as they assuredly will) the plan is for South Carolina to secede first—the other cotton States are to follow (I think he mentioned the order in which they were "to go out," but I am not positive); the border States are to be persuaded or forced to join them in their unholy cause, and then we are to have such a civil war as this world never witnessed." He added: "I had hoped, until a month or six weeks ago, that Mr. Breckinridge was ignorant of all this matter; but I have had evidence as clear as the noonday sun that he is as deeply implicated as Yancey himself; and more than that, Mr. Buchanan is into their scheme up to the eyes."

I have given the above statement in almost the identical language used by Mr. ——. The whole affair was of so startling a nature that it made a deep impression on my mind, and none of the facts have slipped my memory. * * *

Your friend truly, ALFRED HOSS.

A SALVE FOR EVERY SORE.—When we consider the various diseases to which the skin is subject, it must be an object of importance to have at hand a sure and certain cure for most of them. For recent flesh wounds, obstinate ulcers, troublesome felons, sore breast, ringworm and scald head, and changes of the tender skin of infants, as well as for wens and callouses, "*Grace's*" *Universal Salve* is a certain and rapid remedy. Every father who goes into the woods should carry a box in his pocket, and every mother of a family shou d have a 5 cent box in the cupboard. See advertisement in another column.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. MARRIAGES.

In this city, Aug. 13th, by Rev. A. J. Patterson, Mr. HENRY TUCKER to Miss MARY A. AYERS, both of this city.

—By the same, Mr. IVORY LEWIS, of Kittery, Me., to Miss SARAH FORBES of Scotland.

DEATHS.

In this city, on Wednesday, Aug. 12th, Mrs. MARIA NAFT, aged 74 years, widow of the late Mr. Thomas Neil.

—Also, August 13th, at the same residence, Mrs. MARY D. NEIL, aged 34 years, wife of Mr. Thomas Neil, and daughter of the late Mr. John Hanscom.

Funeral of both from the Stone Church, this day (Friday) at 5 o'clock P. M.

The distressing circumstances of this double bereavement, are so peculiar as perhaps to warrant our giving them to a sympathising public. The elder lady mentioned may be regarded as a sheaf fully ripe and ready for the harvest; but the young wife and mother who goes with her, seemed promised with long and useful life. She was for a long time prominently connected with our church choirs; and for several years was Assistant Teacher at the Girls' High school, with the late lamented Nichols — whom, shall she so soon follows. "Acting well her part," always, and held in high regard by her pupils and all whom she met; her devotion to and engrossment in family joys and cares, was so entire as to be remarked by all friends.

But a fortnight had elapsed since "God hath graciously given" to her another household jewel, making three little daughters: and her eldest was for a few days, quite sick. The mother desired the child to be brought to her, and it is supposed that the little one's altered appearance so distressed her mother, as to throw her into convulsions, which resulted in a sort of paralysis, from which she never rallied, but died after lying in an insensible condition for several days. Truly the old must die, but the young also may die—and terribly mournful indeed does it seem, for that young mother to be thus rudely severed from her little flock, in all her health, and strength, and womanly beauty, and with all around to render life worth the living. Truly, "His ways are not as our ways."

HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

THE BEST IN THE WORLD.

This fact is well established. It is the most simple and best operating machine yet made, although forty different kinds have been put into the market, the greater part of which have proved utter failures.

A sale of three hundred in this city, and a still increasing demand, prove the popularity of these wringers. No family should be without one.

We have iron framed Wringers at a lower price, but *the best is the cheapest.*

This Wringer has had an immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions."—No family should be without it. Try one; if not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a patent ventilated Refrigerator, were compelled to pro ure one of the *old type*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Skin Bones, Cancerous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are precisely under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are hereby invited to consulting Dr. J. Teller, they will be friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid, on receipt of 25,000 cures the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

EPPS, N.H., Feb. 25, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians and Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Form ELDER J. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that your Panacea was efficient with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined to a sitting posture six months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may20

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gleets, Ulcers, pains and distresses in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Rumors, frightful Swellings, and the long train of loathsome symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by the secret solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and fearful effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritation, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Young men, or those intending contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has for sale the French Catholic Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling down of the womb, Bloody Issues, profusion, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief produced in a few days. So sure, invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted rejoice in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having 18 unwearied attention and extraordinary success gained a reputation which calls patients from all parts of this country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street. A number of cases in need the services of an experienced physician and surgeon should give him a call.

F. S.—Dr. Dow improves and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and dish heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes can be entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who have been using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable article. His facilities for

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot succeed, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of fuel, and they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. Will not injure the teeth or have can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

Being as light in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

VOL. 23. PORTSMOUTH, N. H. SATURDAY AUG 15, 1863. NO. 38.

Advertising.
For a Square (1 inch) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $6, six months $8, one year $15. These are Daily rates—and no adver tisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of article Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most extensive circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

☞ The Newburyport Herald gives the following consoling information to those who have a sweet tooth:

Sugar is almost universally considered a deleterious article for the teeth; and the notorious fact that the workmen in sugar refineries, who are obliged constantly to taste the sugar, invariably lose their teeth by decay in a very few years, seems to settle the question. But on the other hand the equally notorious fact that the negroes on the sugar plantations, who, like the flies and other insects, literally live on cane-juice, molasses and sugar, during the season, have the finest, whitest and most permanent ivories in the world, seems to open it again for further consideration. It has been proved by experiment that the strongest syrup of pure sugar has no action on either the bone or enamel of teeth which after extraction have been kept in it for months. But if a small quantity of lime or other alkali be combined with the solution, it imparts to it the property of dissolving the phosphate of lime, which is the basis of the teeth. As lime is used in all sugar refineries, this accounts for the difference between the effects there and on the plantations.

JOSH BILLINGS TAKES A RISE.—I kum to the conclusion lately, that life waz so onartin, that the only wa for me tu stand a fair chance with other folks, waz to git my life insured, so i kalled on the Agent of the "Garden Angel life insurance Ko," and answered the following questions, which waz put to me over the top ov a pair ov gold specks, by a slik little fat old feller with a little round gray head, and az pretty a little belly on him, as enny man ever owned:

QUESTIONS.

1st—Are you mail or femail? if so, state how long you have been so.

2d—Are you subjec to fits, and if so, du yu have more than one at a time?

3d—What iz yure precise biteing weight?

4th—Did yu ever have enny ancestors, and if so, how much.

5th—What iz yure legal opinion ov the constitutionality ov the 10 commandments?

6th—Du yu ever have enny nice mares?

7th—Are yu married and single, or are yu a Bachelor?

8th—Do yu beleave in a futer state, if yu du, state it?

9th—What are yure private, centiments about a rush ov rats tu the head, can it be did successfully?

10th—Hav yu ever committed suiside, and if so, how did it seem to affect yu?

After answering the above questions, like a man, in the confirmatif, the slik little fat old feller with goold specks on, sed I was insured for life, and proberbly wud remain so for a term ov years. I thanked him, and smiled one ov my moste pensive smiles.—*The Poughkepsian.*

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEETS PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since; and have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA AND HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. mav,60

Portsmouth, N. H.

SATURDAY, AUGUST 15, 1863.

THE REBELLION.

The Potomac flotilla has seen no rebel demonstrations on the river for a month past.

Union troops have started from Vicksburg to endeavor to drive the rebels from Arkansas, and if possible, from the entire trans Mississippi region. Our scouts report Gen. Price at Little Rock, or 'Des Arc,' with from 7000 to 10,000 men. Marmaduke at Jacksonport with about 4000, and Col. Dobbin on the Cache river, near Cotton Plant, with a force of about 1000. This is thought to be the whole force west of the Mississippi, except Kirby Smith's command, operating on the line of the Opelousas Railroad in the lower portion of Louisiana.

Official dispatches from Adm. Dahlgren and Gen. Gilmore show the prospect of success in the impending attack at Charleston to be very encouraging.

☞ On Wednesday night, Mr. John T. Aldrich, a young and esteemed merchant of Boston, of the firm of Cook & Aldrich, came to his death under painful circumstances.—He had a child sick, in the care of which he had been occupied five nights. Of a temperament of a most sensitive character, he was unable to sleep. Wednesday night his physician gave him opiates, which probably had the stimulating, rather than sedative effect, and Mr. A. left his room in a state of mental aberration, and drowned himself in a creek near his house.

☞ A California Senator is represented as having said to a distinguished member of the Cabinet, who has repeated the statement publicly, that "Senator Conness is in character a combination in equal parts of Ben Wade and Dave Broderick. He is a man of conscience and of courage." Mr. Conness, before going to visit his friends in Illinois, left behind his assurance that the Unionists of California would carry that State in the coming election by 50,000 majority.

☞ It is reported that a relief ship is to be sent to Charleston harbor, in order that the crews of the iron clads may go on board to sleep where they can breathe fresh air. If this be true it will greatly conduce to their health and comfort, and the officers will be relieved from one great inconvenience—that of breaking in new men every day.

☞ Correspondence from the Isthmus states that Mr. Partridge, our Minister at Salvador, had got into a difficulty with the government about a claim of some American citizens upon property seized from Don Jose Gonzales. The Salvadorians refused to give up the property, and refer the matter to our Government. Gonzales, whose property was seized, is alleged to be a traitor.

THE GEORGETOWN COUNCIL REPUDIATED.—At the regular monthly meeting of the Congregational Church in Georgetown, held Thursday August 13, 1863, the result of council having been read, a motion was made to accept the same, and lost, twenty-one voting in favor and twenty-seven against. So Mr. Beecher is not yet dismissed, and the controversy, so far from being closed, is fairly began and taking a new start.

☞ We learn from the Portland Press that the officers and agents of the steamer Forest City have declined to receive any compensation for the steamer's services at the time of the capture of the Caleb Cushing. By direction of the Sec. of the Treasury, Collector Jewett has tendered the thanks of the Department to the Corporation.

☞ Hon. William H. Seward, Secretary of State, is about to visit the North for the purpose of seeing his old friend and preceptor, Rev. Dr. Nott, President of Union College, at which Mr. Seward graduated many years since.

☞ Judge Advocate Holt has decided, that a man abroad or at sea who may drafted, is not regarded as a deserter in the spirit of the law until he is notified of the fact that he has been drafted.

☞ Official orders have been issued that the Commissioners appointed by the Iowa Legislature to superintend the voting of volunteers of that State on the field, shall be furnished with all proper facilities.

☞ Mrs. President Lincoln and two sons were at the Revere House, Boston, on Friday, on their way from the White Mountains to Washington.

☞ Rev. Dr. Chapin and family returned from their European tour on Tuesday.

☞ Almost one half of the conscripts examined in Bangor on the first day were accepted.

☞ One of the men said to have been leaders in the murder of Col. O'Brien, has been arrested. He gives his name as Henry Tilton.

☞ The British blockade runner Neptune (re-christened the Clyde) is being fitted out at the Washington Navy Yard as a gunboat.

NEW HAMPSHIRE ITEMS.

—— Col. Henry O. Kent has resumed editorial control of the Coos Republican.—He always made a good paper, and will doubtless do so now.

—— The Hillsborough County Agricultural Society's Fair is to be held on the 1st and 2d days of October.

—— Maj. Smith, who has had command of the 8th regiment since the death of Lieut. Col. Lull, has resigned and left the regiment in command of a Captain. Col. Fearing commands a brigade.

—— A deserter from the Mass. 22d was arrested in Chester on Wednesday, who had been absent from his regiment over a year.

—— Col. Potter, of the 12th, wounded arrived in Concord on Thursday evening.

—— Claremont is at present afflicted by the evil presence of scoundrels bad enough to deface the monuments in the cemetery.

—— A soldier in the 15th regiment which was at Port Hudson, had a son born unto him on the day that stronghold fell, and the little fellow has been named Hudson.

—— Pickpockets were busy in Concord at the reception of the 5th and 15th regiments. One gentleman was relieved of a pocket-book containing $112.

—— The lamented Col. H. S. Putnam, early in the engagement at Fort Wagner of the 18th ult. received a bayonet wound in the foot. An officer observing it, asked Col. Putnam if he was not badly hurt. The noble man replied, "It is a very painful wound, but it will not disable me," and regardless of the pain he kept on fighting until a bullet through his head deprived the country of one of its best officers.

—— In our navy many of the men enlist under assumed names, and report from other places than the one to which they belong or where their friends reside, which is entirely wrong. On board the U. S. iron-clad Nahant at Charleston, among the men scalded was the carpenter's mate, who shipped by the name of John Johnson, from Manchester. He has since died, and it has been ascertained that his name was Hanscom, from Haverhill, N. H. He had served with Berdan's sharpshooters.

—— The 16th N. H. regiment, on their way to Concord, reached Worcester at half-past one, A. M., Friday.

☞ Gen. Grant has adopted the plan of hiring out the freedmen to their old masters, under proper restrictions and guaranties, wherever it is practicable. In the region back of Natchez, planters having cotton crops have offered their old slaves half their crop if they would take hold and gather it; but in a number of these cases the offers have been refused. The negroes, however, will work for northern men or for the government gladly. The "attachment of slaves to their masters," proverbial in pro slavery logic, does not manifest itself in Mississippi any more than in Louisiana or Virginia.

☞ The Portland Argus states that it has been ascertained that as a port for the shipment of grain, the city of Montreal stands next to New York, being ahead of Baltimore, Philadelphia, Boston and Quebec, all combined.

☞ A few days since the steamer Ruth was burned on the Mississippi river, and $2,500,000 in greenbacks were said to have been burned in her. Now it is thought the money was not destroyed but stolen, and the steamer burned to cover the robbery.—An investigation will be had.

☞ The Army of the Potomac is said to have been, during the recent hot weather, well sheltered in fine forests, and busily engaged in picking blackberries, which is described as a great sanitary movement, protecting them from the diseases to which they are liable at this hot season.

☞ One of the conscripts of Holliston, Ms., mowed an acre of heavy standing grass in seven hours and a half, on a wager of $300—time given to do it in, 11 hours.

Captain de Smith remonstrates with Mr. Holmes, veterinary of his regiment, for mal-pronunciation of the word horse—to him the Vet—"Well, if a Haitch and a He, and a Har, and a Hess, and a He don't spell 'Orse, my name ain't 'Enery 'Omes!"

☞ An individual recently appeared at the Sandusky (O.) poor house in search of a wife, and requested the superintendent to "trot out" his marriageable stock, as he was terribly in earnest, and in something of a hurry. A female vagrant of ripe age was produced, and with very few preliminaries the twain were made one flesh.

OLD TIMES.—The Salem Gazette of February 8th, 1774, announced the marriage of Mrs. Barbary Springhoff, with the remark —"'tis said she has two husbands now living, 7 children, 10 grandchildren, and 50 great grandchildren."

☞ It is understood that Gen. Scott is completing the memoirs of his life and times.

☞ In Philadelphia, ice is selling at two cents per pound.

☞ Letters from Europe state that Russia is preparing for war.

☞ Gen. Butler will address a Union meeting at Portland, Me., to-day, Saturday.

☞ It is believed that the Union majority in Kentucky will reach 60,000.

The draft for the sub-districts comprising Strafford county was completed on Friday, and closes the drafting in this district for the present; ample notice will be given the public of its resumption for the counties of Belknap and Carroll. In our next edition we shall present the list of drafted in the remaining towns in Strafford county.

☞ "Jennie June" is at Saratoga, and writes that a lady, recently returned from Europe, excited a great deal of attention by an almost unlimited display of costly suits, each one as complete as the hands of a Parisian modiste could fashion it. Her wardrobe comprised no less than twenty-five exquisite bonnets, each one having its dress, scarf or mantle, parasol, gloves and ornaments to match. These, with the silk underskirts which must be trimmed something like the outside, only less elaborately, compose frightfully expensive toilettes.—With the richest silk dresses fine white tucked skirts are generally worn, as even the wife of a millionaire cannot afford to duplicate on every dress skirts, the silk of which costs from five to ten dollars per yard. Under thin dresses, of course, thinner silk skirts will answer.

LIFE AT SARATOGA SPRINGS.—A letter from Saratoga Springs says:—"Mrs. Morisey is here with her husband. A lady said something to which she did not like. Mrs. M. gave her a blow between the eyes that felled her to the floor, dared the prostrate woman to repeat the word; offered to whip any woman in Saratoga, she said."

There are four Water Wheels, one of which is a Hood Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of MALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. CONGDON at Rye, or of WILLIAM H. HACKETT,

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the attention of a moment only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Special Notices.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent taking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL AND ASTHMATIC COMPLAINTS, to all THROAT AND LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

Local.

POLICE COURT, Thursday.-Bufford, J.—Isaac C. Murch plead guilty to a charge of being drunk, and was sentenced to the House of Correction for 30 days, and to pay costs, $2.92.

Friday.—Smith Davis also plead guilty to the same offence, and was fined $3, and costs, $3.86. Committed for non-payment.

Timothy O'Brien, same offence, pleaded guilty, and was fined $2, and costs, $3.86.

John McDonnell also plead guilty to the same offence, and was fined $3, and costs, $2.92. Committed.

☞ The 16th N. H. regiment arrived in Concord on Friday morning, and most of Co. K returned to this city in the evening. The boys look as if they had seen hard service, and left several of their number sick on the route. Capt. Thacher returned with the company, but is suffering somewhat from illness. They have a furlough until Thursday next.

☞ The Ballot well says that "the hotels on the beaches in this vicinity are all overflowing, and that the hotel accommodations are inadequate to the demands of the pleasure-seekers. The number of visitors to our seaside resorts appears to increase year by year, while hotel accommodations seem to be diminished. We hope some men of energy will open large houses on the beaches another season, so that all disposed to visit this latitude may not be compelled to go elsewhere to find accommodation." So do we—and chief among these, the new Ocean House ought to rise from the ashes of the old. There is also a charming site (as well as "a good sight") for another Hotel, on the very seashore, a little to the eastward of Philbrick's popular Atlantic—between that and his bathing houses. We believe money could be coined down there, in either location, by somebody who knows how to keep a hotel as well as mine hosts of the Atlantic and the old Ocean.

☞ The correspondent of the Ballot states that a contract has been made for the machinery for the U. S. steamer Franklin, now on the stocks at the Portsmouth Navy Yard. It will cost $440,000. The Franklin will be launched in about a year, and will be the most beautiful ship, when completed, in the navy of the United States.

Contracts have been awarded for the new boat-builders' shop on the Navy Yard, to Isaiah Wilson and James Moses. Messrs. Whitehouse and Green are to do the mason work. The Porter's house and other buildings will be built by contract, by Clement & Cressy of Lawrence, who are building the new depot for the Eastern Railroad Co. in this city.

☞ Rev. Mr. Bowler, of Bangor, Me., is expected to occupy the pulpit of the Court St. Christian Church on Sabbath morning and afternoon.

Rev. Mr. Waterhouse will preach at the Alms' House Chapel Sunday afternoon at 5 o'clock.

☞ All who have music in their souls, and love the concord of sweet sounds, will not fail to enjoy the rich and mellow tones of the new North bell, and to approve the good taste of its selection, and feel grateful to those who made so fortunate a choice.

☞ One of the best companies of Ethiopian singers now travelling in the United States, are to give a Concert at the Temple on Wednesday evening next. Rumsey's Minstrels are patronized by the most fastidious lovers of music, and the innocent mirthfulness which they blend so artistically with their sadder strains serves to bring smiles and tears together. Go and hear them.—There are sixteen performers in this troupe, every one of whom is a fine musician. *

☞ Mr. Farwell tells us that he has just put a 12-passenger coach (which, like all such "accommodation" vehicles, will probably carry twenty) on the York Stage route, so that all visitors to Cape Neddick may be sure of a seat.

☞ See auction column, for sales this morning, afternoon and evening—goods at Navy Yard; mill privilege, &c., at Seavey's Creek; a fire engine; dry goods, plated ware, &c., &c.

☞ The Treasurer of the Hand Organ Company, who ought to know all about the matter, says in the Ballot—for which he is the valuable Portsmouth correspondent—that there was an "amateur 'grand' performance, the other night, upon the 'Arctic,' which instrument was toted about town in a wagon at the expense of the Company, duly attended by the agent. The showers of coppers on the occasion, bestowed by some of our more wealthy and liberal citizens who appreciate musical enterprise of this sort, we learn, will doubtless enable the company to declare another dividend shortly."

Glad to hear it—and for ourselves, we can only return thanks for *our* part of the serenade; as we were too sleepy to think of rising to encore. However, we have given the corporation some gratuitous advertising, haven't we?

AN INCIDENT OF THE NEW YORK RIOT.—The following incident illustrates the fiendishness of the late Copperhead mob in New York. And yet the brutal perpetrators of such unheard of outrages and crimes were affectionately patted by Horatio Seymour, Governor of New York, as "my friends." By such was he elected to his present position. But to the incident:

"Mother, they may kill the body, but they cannot touch the soul!" was the language used by poor Abraham Franklin, as he was borne from the presence of his mother by the barbarous mob on the morning of the 14th ult. This young man, aged twenty-three, had been an invalid for about two years, and was a confirmed consumptive.—When the mob broke into the house they found him in bed. They bore him into the street, and there, although he had not raised a finger against them, indeed was not able to do so, they *beat him to death, hanged him to a lamp post, cut his pantaloons off at the knees, cut bits of flesh out of his legs, and afterwards set fire to him!* All this was done beneath the eyes of his widowed mother. Such an exhibition of bloodthirstiness is without a parallel in the history of crime. Patrick Butler and George Glais, both Irishmen, the latter fifty-three years of age, have been arrested for the murder of Mr. Franklin.

☞ It is said that during the present month the value of the war material and general merchandize that has run safely into Wilmington cannot be less than three millions of dollars' worth, which is paid for in return cargoes, and obviates the necessity of cash payments. These goods, after being landed, are easily forwarded to all parts of the South, and the means are thus obtained for a prolonged resistance to our arms.

☞ A San Francisco dispatch, 13th, states that the reports of secession risings in Santa Clara and Saline counties, Cal., were untrue. Gen. Wright has received orders and funds from Washington to construct new harbor defenses for San Francisco. Batteries mounted by guns of large calibre are to be erected at Rincon Point, Rincon Hill, Buena Vista Island and probably on Telegraph Hill.

☞ A good story is told of Dr. Wilbur, of the Board of Enrollment in a Maine district. A conscript presented himself for examination who was so deaf that it required the utmost power of the Doctor's lungs to make him hear. The Doctor stooped down and commenced a critical examination of the man's knee, remarking in a low tone, "that is sufficient to exempt any man." "Glad to hear you say so," said the deaf man, who had suddenly recovered his hearing; "what did you say was the trouble with my knee, Dr. Wilbur?" "It is perfectly sound," said the Doctor; "I was only examining your ears." The man paid his $300 and was exempted.

☞ The Richmond Enquirer of last Monday expresses strong condemnation of the course the North Carolinians are pursuing in calling a mass convention of the Unionists of that State for the purpose of sending a delegation to Washington, D. C.

☞ The rebel Gen. Holmes, it is pretty well ascertained, has died of delirium tremens. His death devolves the command of the rebel troops in Arkansas upon Price.

☞ Geo. Peabody, the famous banker, is reported to be about to endow Yale College with a new Geological Cabinet, at a cost of $100,000.

☞ The N. Y. News states that there is fear of an ice famine. The scarcity is very great, and the dealers have increased their prices twenty-five cents on the hundred pounds.

☞ A member of the Philadelphia City Council has recently been tried and convicted of throwing stones against the door of a gentleman's house.

☞ Hon. Reverdy Johnson's reply to Hon. Joseph Holt's report on Fitz John Porter, is to be published in a few days.

☞ The temporary necessity for the use of private shinplasters having passed away, only postal currency and coin, will hereafter be received at the Chronicle office.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

EVERY KIND OF KITCHEN FURNISHING GOODS.

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER,
THE BEST IN THE WORLD.

This fact is well established. It is the most simple and best operating machine yet made, although forty different kinds have been put into the market, the greater part of which have proved utter failures.

A sale of three hundred in this city, and a still-increasing demand, prove the popularity of these wringers.—A family should be without one.

We have Iron framed Wringers at a lower price, but the best is the *cheapest*.

This Wringer has had an immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions."—No family should be without it. If not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, languor in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 50 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vivaire's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

☞ Punch says that the King of Dahomey intends to send a deputation to England remonstrating against white slavery there, as illustrated in the case of a millinery girl killed by want of sleep and air. If the King of Dahomey does so, an American paper that we wot of will call him a barbarian.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the expressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous disturbers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla
is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. The it does combine virtues truly extraordinary in their effect upon this class of complaints, is inexpugnably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, whereon may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the germs of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL.
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scirrous, Gonorrhœa, Ulcers, pains and distress in the regions of procreation, inflammation of the bladder and kidneys, Hydrocele, Abscesses, Pimples, Blotches, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of this cause, by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. The mind is weak and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful results of this habit are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self distrust, timidity, &c., are some of the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receipt of description of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incidental to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afficted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on cases of all diseases, all diseases of all diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott Street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow's improved and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large super Roeswoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is prevented by a movable grate, which is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who use it, are using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable

AIR VENTILATOR.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which is once heated is boosted into the fire-pot is used for respiration, the tendency to produce bronchitis so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason thereof is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry E. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the upper jaw teeth are to be built, by building out the depressions, which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a tumbler, as when finished the work presents one whole piece.

6th. Which in all respects it is better, save in a few peculiar cases, it is much cheaper than Gold.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD.
OF CHOICE OPORTO FRUIT,
For Physicians' Use, FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

As A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for sill weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADY S' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

FANNY KEMBLE'S JOURNAL.

HOW WELL-FED NEGROES LIVE.

How do you think Berkshire county farmers would relish laboring hard all day up on *two meals* of Indian corn or hominy?—Such is regulation on this plantation, however, and I beg you to bear in mind that the negroes on Mr. ——'s estate are generally considered well off. They go to the fields at daybreak, carrying with them their allowance of food for the day, which toward noon, *and not till then*, they eat, cooking it over a fire, which they kindle as best they can, where they are working. Their second meal in the day is at night, after their labor is over, having worked at the *very least*, six hours without intermission of rest or refreshment since their noonday meal (properly so called, for 'tis meal and nothing else.) Those that I passed to day, sitting on their door steps, or on the ground round them eating, were the people employed at the mill and threshing-floor. As these are near the settlement, they had time to get their food from the cook-shop.—Chairs, tables, plates, knives, forks, they had none; they sat, as I before said, on the earth or door steps, and ate either out of their little cedar tubs or an iron pot, some few with broken iron spoons, more with pieces of wood, and all the children with fingers. A more complete sample of savage feeding I never beheld.

At one of the doors I saw three young girls standing, who might be between six teen and seventeen years old; they had evidently done eating, and were rudely playing and romping with each other, laughing and shouting like wild things. I went into the house, and such another spectacle of filthy disorder I never beheld. I then addressed the girls most solemnly, showing them that they were wasting in idle riot the time in which they might be rendering their abode decent, and told them that it was a shame for any woman to live in so dirty a place and beastly a condition. They said they had seen buckree (white) women's houses just as dirty, and they could not be expected to be cleaner than white women. I then told them that the only difference between themselves and buckree women was that the latter were generally better informed, and for that reason alone it was more disgraceful for them to be disorderly and dirty. They seemed to listen to me attentively, and one of them exclaimed, with great satisfaction, that they saw I made no difference between them and white girls, and that they had never been so treated before. I do not know anything which strikes me as a more melancholy illustration of the degradation of these people than the animal nature of their recreations in their short seasons of respite from labor.

You see them, boys and girls, from the youngest age to seventeen and eighteen, rolling, tumbling, kicking and wallowing in the dust, regardless alike of decency, and incapable of any more rational amusement; or lolling, with half closed eyes, like so many cats and dogs, against a wall, or upon a bank in the sun, dozing away their short leisure hour, until called to resume their labors in the field or the mill. After this description of the meals of our laborers, you will, perhaps, be curious to know how it fares with our house servants in this respect. Precisely in the same manner, as far as regards allowance, with the exception of what is left from our table, but, if possible, with even less comfort in one respect, inasmuch as no time whatever is set apart for their meals, which they snatch at any hour, and in any way that they can—generally, however, standing, or squatting on their hams round the kitchen fire. They have no sleeping rooms in the house, but when their work is over, retire, like the rest, to their hovels, the discomfort of which has to them all the addition of comparison with our mode of living. Now, in all establishments whatever, of course some disparity exists between the comforts of the drawing room and the bed bedrooms, and the servants' hall and attics, but here it is no longer a matter of degree.

The young woman who performs the office of lady's maid, and the lads who wait upon us at table, have our other table to feed at, nor chair to sit down upon themselves.—The boys sleep at night on the hearth by the kitchen fire, and the women upon a rough board bedstead, strewed with a little tree moss. All this shows how very torpid the sense of justice is apt to lie in the breasts of those who have it not awakened by the peremptory demands of others.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, AUGUST 17, 1863.

THE REBELLION.

Lt. Com'r English, commanding the blockading squadron off the eastern coast of Florida, reports the result of an expedition up Mosquito Inlet, which captured a sloop loaded with cotton, and a schooner which was unladen. A large quantity of cotton on shore was burned and several vessels destroyed, one of which had her cargo in and was about to sail. A force was landed which destroyed all the houses that had been occupied by troops.

Gen. Meade was in Washington on Friday, and after an interview with the President and others, returned to his army. Deserters report that a battalion of armed men, under command of a major, are in the mountains in Virginia, refusing to re-enter the rebel army. The reports of demoralization in Lee's army are renewed. It is stated that several Mississippi and Texas regiments recently started for home, but Stuart's cavalry attacked them and compelled them to return.

Gen. Grant has acknowledged, in a complimentary order, the valuable services of the 9th Army Corps, which has returned to Gen. Burnside's department, and authorises the regiments and batteries to inscribe upon their banners and guidons—"Vicksburg and Jackson."

Sunday's dispatch reports the repulse of a rebel force in Missouri. 35 were killed, and their arms, ammunition, wagons, &c., captured.

SOME DOUBTS.—The Boston Courier, several days ago, had this question and answer:—

Can there be any doubt as to who caused the war? It was the policy of the Republican party that began the war, and under that policy we shall never have peace."

This is one view; but there is another, viz., that the war was *caused* by the aggressions of a haughty and rebellious aristocracy, who used the power of slavery not only upon the working men of the South, but upon the politicians of the North and West.

It is plain matter of record, that in 1787, Congress passed a solemn Ordinance, by its terms unalterable, "except by common consent," which said, in regard to all the N. W. territory:—

"There shall be neither slavery nor involuntary servitude in the said territory, otherwise than in punishment of crimes, whereof the party shall have been duly convicted."

Thirty years passed away—and it was desired to admit Missouri as a slave State, to counterbalance Maine, which was to come in without slaves: but the northern line of Missouri encroached on this free soil;—and so a *Compromise* was made, which was, on *paper*, a promise that slavery should *never* be established in any States to be formed from territory lying north of 36 deg. 30 min.; but was really an advance of slavery up to that point.

Thirty years and more besides, again passed away; Texas had been annexed; the institution of slavery had been strengthened, and the aristocracy had become gigantic, insolent and overbearing.

Now the Kansas Nebraska bill comes forward; in *words* it says, it is not designed to legislate slavery into the territory nor out of it: but the *animus* was to let it in, where before the compromise shut it out. This, as every body knows, opened the door for a fierce contest between two wings of the democratic party, which went on till the final explosion at Charleston.

It is well known that the ultimatum of the slave aristocracy at the Charleston Convention was that "neither Congress, nor any Territorial Legislature, has power to exclude slavery from any Territory;" that the Northern members remonstrated in vain, and that Geo. E. Pugh said: "Gentlemen, when we come here to debate these questions with you, you commence by telling us we are of an inferior class; that we must put our hands upon our mouths and our mouths in the dust. Gentlemen—we will not do it."

They did not do it;—and from that moment we have had the irrepressible conflict between the slave aristocracy of the South and the white democracy of the North.

Mr. Pugh, we suppose, is a good witness. One more will suffice.

The Boston Post said, in April, "*Certainly* the Secessionists *opened* and *keep up this war*; certainly it is right to repel force by force; certainly there *must be war* for the present or the National Capital will be in possession of the Confederates; certainly, according to the acts passed pursuant to the SUPREME LAW, the Constitution, *the law of the land is a state of war on this rebellion*;"

——There is but one course for Democrats. It is to live up to their professions, of placing country and the things that belong to it, before the strictly partisan, as they *always* have done. The question is one of preserving the nationality and transmitting Republican Government, not of a policy under a Government; and certainly if the people *abandon the war* they must give in to a dissolution of the Union and the destruction of the Constitution."

NEW HAMPSHIRE ITEMS.

—— Those two negro chimney-sweeps have reached Manchester.

—— There were 1000 summer visitors at North Conway the first week in August.

—— The conscripts in Dover were good natured, and paraded the streets on Friday evening with fife and drum.

—— It is stated that the draft in the 2d District will commence on Wednesday, Aug. 19, in the Representatives' Hall, at Concord.

—— Rev. William L. Gaylord of Fitzwilliam, has received a unanimous call from the Mather Church and Society of Jamaica Plains, Mass., to become their pastor.

—— It is stated that a sum is being raised in this State for the purpose of settling a handsome annuity on President Lord, recently of Dartmouth College.

—— Daniel E. Colby, Esq., of New-London, has been nominated for the office of Adjutant, Inspector and Commissary General of New Hampshire, in place of Gen. Anthony Colby, resigned.

—— Several members of the 15th and 16th N. H. regiments arrived at New York on Friday, in the steamer Pioneer from New Orleans. They were too sick to come, via the Mississippi, with their regiments.

—— Mr. O. M. Smith, of Manchester, while enjoying a pleasure trip on Massebesic Pond with his family and other friends, on Thursday, lost his balance as he was sculling the boat, fell into the water and was drowned.

—— Miss Dudley Gilman and Mrs. Badger Taylor were thrown from a wagon in Laconia, on Wednesday. Mrs. Gilman was instantly killed. Mrs. Taylor had one leg and arm broken, and was otherwise badly injured. Some hopes are entertained of her recovery.

—— Lieut. Col. Tileston A. Barker, of the 12th regiment, has been made the recipient, by the enlisted men in his command, of a sword, sash and belt, costing $300; also a gold hunting watch and chain valued at $250. The mountings of the sword and the grasp are of solid silver. The scabbard and hilt are heavily gilt.

—— The Concord Statesman says that "as the State and the city have, in one Grand Testimonial, made manifest their regard for *all* our regiments, in honors to the 5th and 15th, nothing further seems necessary than to permit returning soldiers henceforth to find, as speedily as possible, the repose they so much need." Possibly some other cities in the State, beside Concord, might like to have an opportunity afforded them to "manifest their regard" for our regiments. Repose, of course, is desired by our soldiers, but we do not imagine that many of them will complain if the people turn out and give them a cordial and enthusiastic welcome, although it may impose upon them some little exertion in the way of marching, &c. We protest against these regiments being allowed to come home without receiving some public acknowledgment of their services. If Concord, which has so eagerly grasped so much, has now become weary, or feels that she has fully done her duty, the cities which have heretofore asked and been refused, will cheerfully take their turn and welcome the soldiers home.

—— The Nashua Telegraph hasn't finished that egg yet. It now says:—

We recently noticed a remarkably large egg, measuring nine inches in circumference and three and a half in diameter. We have now to add the very remarkable fact, that on opening the outer shell, the place that should have been occupied by the yolk was filled by another egg of common size, shell and all. Thus it will be seen that the egg had two perfect shells, one about an inch within the other, and separated by the white, while within the smaller one was the yolk and another white.

☞ Dover took the draft very pleasantly. The Conscripts were called to order in front of the City Hall, Friday evening, by Daniel W. Hodgdon, a conscript and a Democrat. A procession was formed, and preceded by a band improvised for the occasion, marched through the streets to Franklin Square, where they halted in front of the store of Lieut. C. H. Crockett, of the Strafford Guards—another conscript, and compelled him to take command of the company. He graciously consented, and marched them through the streets, passing by the house of the enrolling officer, J. M. Haynes, for whom they gave three cheers; they also cheered the Mayor and other prominent citizens, and were dismissed at the City Hall about 9 o'clock. They propose to have a more general celebration on Monday evening, when they will have the Dover Cornet Band.

A great majority of the Conscripts were Republicans—about three fourths belonging to that faith.

Among the notables drafted in Strafford County, are: In Dover, E. A. Hills, editor of the Dover Gazette, C. H. Crockett, Lt. of the Strafford Guards, Daniel Lothrop, of the firm of D. Lothrop & Co., well known in the county as Booksellers and Druggists; Jere. Smith, of Lee, son of the late Judge Jere. Smith, formerly of Exeter, and Geo. York, also of Lee, well known as a Democratic politician; John L. Legro, of Rochester, son of the Sheriff of Strafford County, (who called off his name) and others.

☞ "Figures will not lie", says the proverb—but people sometimes make figures tell big stories. For example, an item from Albany, N. Y., Aug. 13, says:—

"The official report made by Judge Waterbury and Adjt. Gen. Sprague to Gov. Seymour, shows that New York City has furnished from the beginning of the war 33,923 men in excess of all her quotas, not counting 20,551 men sent by her on occasions of sudden peril for the defence of the national capital."

This looks and sounds *large;* and yet it is hollow as well as specious. New York *State* stands high on the roll of States, as thus far ahead of her quota; not because she has sent as many men in proportion as some others, but because she has sent so *many* under the great call of 1862 for three years, and so *few* for nine months only.—She is credited for every three years' regiment as equal to four enlisted for nine months only; and that is right. But in the *City* it is otherwise. The Tribune says:—

"Judge Waterbury parades the large proportionate number which our city had sent *prior* to July 2d, 1862, but is careful not to show for what time they were sent, nor how many of them remain in the service. We know very well that these early volunteers from our city were in large measure volunteers *for three months*, or with or short terms, and are long since out of the service; while thousands of them came to our city expressly to get into it. The Sickles Brigade, the Mozart Regiment, Scott's Nine Hundred, &c., &c., were largely made up of strangers to our city. It is just as notorious here that our city has now comparatively few men in the National armies as that Vicksburg is restored to the Union; yet Waterbury does his utmost to obscure it. * * * *

Having, at great expense of time and trouble, made out an inculpation of the Enrollment as unfair and partisan, Mr. Waterbury proceeds to confess that, under the regulations of the President and Provost Marshal General (whose anxiety to remove every ground of just complaint he is compelled to admit) *these alleged errors in the Enrollment can do no person and no section the least practical injustice.*"

☞ The N. Y. Tribune's dispatch from St. Paul, Minn., 14th inst., says three battles have been fought with the Indians by Gen. Sibley. A large number of Indians have been killed, and the remainder driven across the Missouri River.

☞ The N. Y. Tribune's Washington dispatch says Generals Grant and Banks have officially addressed the Postoffice Department, requesting that all the mails for the Gulf Department be sent by the Mississippi river.

☞ The death of Com. Henry W. Morris, U. S. N., is announced. He was a native of New York and entered the service Aug. 19, 1819. He had five months' service under his commission as commodore.

☞ A detachment of cavalry broke up a gang of deserters and others in Fulton county, Illinois, on Thursday night, capturing 10 or 12, and, report says, killing several. There is great excitement there in consequence.

☞ A man who by pretending that he was a Paymaster of Volunteers obtained $9500 from a regular Paymaster in New York, was arrested in Bangor on Friday, and most of the money was recovered.

☞ Admiral Farragut, it is rumored, is to command a new fleet, destined for the reduction of a Southern stronghold.

☞ A man was fined $25 and costs in Roxbury on Friday for cruelly beating his horse.

☞ Orpheus C. Kerr will write no more. He is to become an actor, to assist his "blushing bride," Menken.

☞ The negroes have gone to work on the wharves and in the stores of New-York, as before the riot.

☞ Screw-sloop Kearsarge, arrived at Fayal, recently and sailed the same day in pursuit of the English steamer Juno.

☞ The Navy Department has heard nothing of a battle off the coast of Maine, between a gunboat and a pirate, except what the newspapers contain.

☞ The Portland Press states that there is a crowd of visitors this summer at the Pool and Orchard, Saco. It is in contemplation to put up a spacious hotel at each place, the coming season.

☞ The Common Council of New York have appropriating $3,000,000 to exempt poor men from the draft by furnishing substitutes. Firemen are exempted thereby without regard to their pecuniary resources. The Express says that on its passage by the Aldermen, it will be signed by the Mayor. A resolution was also adopted asking Governor Seymour to prohibit all persons recruiting in the city for other States.

SINGULAR ESCAPE.—A three year old daughter of R. S. Hildreth of North Adams, Mass., fell into the Hoosac and was carried over the dam without being seen. The river was dragged for a long distance, and more than three hours afterward she was discovered an eighth of a mile below. She was taken out with her wet clothes covering her head, more smothered than strangled by water, was in a short time resuscitated, and is now as well as though no accident had happened to her.

DEATHS.

In this city, on Saturday morning, August 15, Miss REBECCA B. HARDY, aged 75; known to a large circle of christian friends, as a cheerful companion, pleasant associate and kind neighbor.

In this city, on Friday evening, August 14, Miss ELIZA ANN HILL, aged 60, daughter of the late Mr. John Hill.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the services of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

PROVOST MARSHAL'S OFFICE,

FIRST CONGRESSIONAL DISTRICT,
Portsmouth, N. H., August 12, 1863.

Drafted men furnishing substitutes must previously forward to the Board of Enrollment a written notice, giving the name and age of the substitute and stating whether he is an alien or a citizen. They must present themselves with the substitute on the day they are ordered to report, between the hours of 9 A. M. and 1 P. M.

Those wishing to commute for service must pay $300 to James M. Lovering, Collector of the Internal Revenue, Exeter, N. H., or at the office of William H. Hackett, Portsmouth, N. H., and procure DUPLICATE receipts for the same, before making application to this Board for certificates of exemption.

A drafted man may pay $300 in commutation of service or furnish a substitute, after he has presented himself for examination and been accepted by the Board of Enrollment

Henceforth, a Reward of Ten Dollars will be paid to any person upon the arrest and delivery of a deserter to the Provost Marshal or either of his deputies.

Any person claiming exemption on the ground of ALIENAGE must be before the Board an affidavit stating, 1st that he is an Alien and setting forth the government of which he claims to be a subject. 2d the TIME WHEN he came into the United States, and where he has resided since that date. 3d that he has never declared his intention to become a citizen of the United States, and has not exercised the right of suffrage by voting at any election in any State. 4th that he claims to be exempted from Military Service on the ground that he is the subject of a Foreign Government, and has not declared his intention to become a citizen of the United States, and has never voted in any State,—the affidavit to be supported by any competent evidence the party may offer.

Persons claiming exemption by reason of Unsuitableness of Age must present an affidavit setting forth the claim, to be supported by as much of the following testimony as can be obtained.

1st. By an authenticated extract from the legal registry of Births, if there be any such registry.—2d. By any other authenticated documentary evidence tending to establish the fact of age. 3d. By the affidavit of the Parents. 4th. By the affidavit of such other respectable persons, (not less than two.) heads of families, as are most likely to be informed on the subject.

Persons drafted who may be too sick to report upon the day ordered should forward the affidavit of a Physician, stating the facts in the case and how long it will be in his opinion before the man will be able to travel.

No certificate of a Physician or Surgeon is to be received in support of any claim of drafted men for exemption, unless the facts and statements therein set forth are affirmed or sworn to before a Civil Magistrate competent to administer oaths.

DRAFTED PERSONS in the County of Rockingham requiring blank forms of certificates, from No. 25 to No. 30 inclusive, can obtain them by applying at the office of the Provost Marshal between the hours of 12 o'clock M. and 1 o'clock P. M. and at the office of James W. Lovering, Esq., Exeter, N. H., and to William S. King Esq., Northwood.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent selling attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be secured, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and let prove the declarations by true testimony.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Local.

☞ An excursion party, comprising about 500 gentlemen and ladies, came down from Concord and Manchester on Saturday morning, with a band of music, intending to visit the Shoals. They took passage in a schooner, but the tide did not "serve," and the winds were contrary. They accordingly returned to the city, but as the day was fine, their visit probably was not unproductive of pleasure, each one being at liberty to follow his or her peculiar bent.

☞ The Nashua Telegraph states that arrangements are being made for an excursion from Nashua to this city, for the purpose of visiting the Forts, Navy Yard, and other places of interest in the vicinity. If a sufficient number decide to go, they can be brought here and returned the same day for $1,25 each, allowing about six hours for a sail in the harbor, visit to the Navy Yard, &c.

☞ The Boston papers state that at the final meeting of Co. G, 44th Mass. Vols., it was unanimously voted to present the entire company fund, amounting to the sum of nearly $500, to Mrs. Young, widow of Geo. B. Young, a former private of said Company, who died at Newbern of congestive fever, February 3d, 1863. Mr. Young's remains were interred in Portsmouth, and Mrs. Young is now a resident here. The liberal and commendable action of the company is a gratifying evidence of the generosity of the Volunteers comprising the Army of the North.

☞ The old U. S. ship Vandalia, which has been lying at Brooklyn Navy Yard for a long while, was towed around here, to Portsmouth Navy Yard, on Friday. She had on board, temporarily, a few officers and forty or fifty seamen. The officers returned to New York and the sailors were transferred to the U. S. bark Fernandina (which has been lying here for upwards of three weeks) or were reserved for the crews of other vessels. It has been reported that the Vandalia is to serve as a guard-ship or floating battery to protect this port.

☞ Mr. W. F. Laighton, U. S. Assistant Inspector, informs us that the gun-boat Agawam will not be ready to leave Portland for Portsmouth, until about the 20th of September. The Pontoosac will not be ready to leave for this place until late in the fall. The work of putting in the machinery is progressing finely.

☞ Lieut. William A. Haven, and four privates of Co. K, 16th N. H. regiment, arrived in New York on Friday in the steamer Pioneer from New Orleans, they being too sick to accompany the regiment thence, via the Mississippi river.

☞ The Boston Traveller states that the steamer Wawa, designed to run between this city and Dover in connection with trains on the Eastern Railroad, till the completion of the railroad extension, will be in readiness to go on her route early this week.

☞ At the recent Commencement of the Wesleyan University at Middletown, Conn., Richard S. Rust, son of Rev. Dr. R. S. Rust, of the Cincinnati Conference, and formerly of this city, took the Calef prize for forensic speaking.

☞ Capt. Thomas M. Jackson, of the 3d N. H. Regiment, arrived at his home in this city on Friday evening. He was recently wounded at Fort Wagner.

☞ Gen. William Sprague, of Rhode Island, is stopping at the Rockingham House, in this city.

☞ Mr. William E. Hadley, of this city, has been appointed by the Governor and Council, Justice of the Peace for the County of Rockingham.

☞ The Manchester Union states that Ira McL. Barton, of Newport, late captain in the 5th regiment, is to be appointed captain of a company to be raised for the protection of Portsmouth harbor.

☞ New Cider has come. Doesn't that sound like Fall? Hoyt and Trask, at the "Young America" saloon, have sweet cider on draft, or by the bottle—and of good quality too. Rightly used, it is one of the best and most delicious beverages.

☞ G. W. Lawrence, Esq., of Portland, has a contract to build a Monitor for the Government and is already preparing his yard for commencing the work.

From the Journal

PORTSMOUTH SAVINGS BANK.—The annual meeting of the corporation was held on Wednesday last. This is the year in which the dividend of profits for five years is made. The sum to be divided among the Depositors is $78,000. This is 6½ per cent. per annum to those who have had investments for the five years. The amount of deposits is $1,100,000. All Southern and doubtful stocks have been sold, and investments changed to better stocks, so that the institution is as secure a place of investment as any in the country. The two vacancies in the board of Trustees, occasioned by the death of William Stavers and resignation of E. F. Sise, were filled by the election of John Stavers and Charles W. Brewster.

A steamboat descending the Mississippi, with a very valuable cargo of stores, for Vicksburg, and no less than eight paymasters on board, with $2,600,000 to pay off the armies, has been lost by fire, with about 30 lives. One report is that it was the work of a rebel emissary on board; and another report makes the money lost only $1,000,000. But with eight paymasters, the larger sum is the most probable. It being in greenbacks, however, makes the loss to Government only the expense of paper and printing.

Mr. Samuel Lamson, only son of Rev. Dr. Wm. Lamson of Brookline, and a young man of much promise, was a clerk to one of the paymasters, and was drowned at the time of the disaster. His remains were interred in Salem this day, Aug. 14th.

"INGENIOUS AS THE BEE"—is a proverb as old as the language. It is manifest in their great activity, and the great amount of food they lay up in store for their use in time of need. It is rare, however, that any particular job is undertaken by them out of their regular course. Such a job, it appears, was recently performed by them, showing a capacity for labor, hardly credible. At the farm of Samuel Adams, Esq. on the point in Kittery just above Portsmouth Bridge, is a collection of bee hives, and like their proprietor, the bees are busy in the season for labor. His hives have movable honey-boxes, of various capacities. One morning recently between 8 and 9 o'clock, he removed a full box containing fourteen pounds of honey. It was so handsome that he placed it in the garden to exhibit it to a friend before making a disposition of it. A pressure of other business drew his attention from the box until nearly 12 o'clock. On examination, it appeared that the bees had discovered their property, and regarding their claim to it as just, mustered their forces, and in less than three hours, had opened and emptied every cell, leaving nothing but the wax behind! The whole fourteen pounds had been returned to the hive by the little fellows in less than three hours.

WE SAW this week a deed given in 1817 of a piece of property in Fleet street, which was drawn up by Timothy Ferrar, signed by I. W. Putnam, John Pearson, J. Burley Bill and Benjamin Akerman, and witnessed by Peyton R. Freeman and J. Plumer Dennett. Of these seven men who were in the business world forty-seven years ago, it is rather remarkable that all are now living except Mr. Bill.

STRAIN TIRES.—It should be generally known by visitors from neighboring towns, as well as by our own citizens, that at the last session of the Legislature, a general law passed forbidding any one to hitch a horse to a shade or ornamental tree (unless there be hooks or rings placed there for the purpose) under a penalty of from one to five dollars. So many trees have been injured by this practice, that it is time such a law should be strictly enforced.

DOGS.—Those who have escaped the dog tax this year because their puppies were not a year old, should know that in future, by legislative enactment, no dog will be exempt on account of age.

We do not remember a season with so long and continuous hot days (thermometer nearly 90) as have inaugurated the August of 1863, succeeding a week of almost continuous rain. Corn, vegetables and the late harvest of grass will be abundant.

No. 88.

CITY OF PORTSMOUTH.

AN ORDINANCE for the Relief of Drafted Men in the service of the United States, and for other purposes.

Be it ordained by the City Council of the City of Portsmouth, as follows:

Section 1. The sum of three hundred dollars shall be paid out of the treasury of this city to every person who may be drafted into the military service of the United States, under the call of the President of the United States, dated July 8, 1863, conformably to section 12 of an act of Congress, approved March 3, 1863, entitled "An act for enrolling and calling out the national forces and for other purposes," and who shall actually be mustered into said service as a part of the quota of this city; and a like sum shall be paid to every person who may be mustered into said service as a substitute for any person drafted as one of the quota of said city under said act; and the mayor is hereby authorized and directed to pay to every such drafted man or substitute, or to his order, the sum of three hundred dollars, upon receiving satisfactory evidence that such person has been mustered into the service of the United States. Provided, that no portion of such sum shall be paid to any drafted man or substitute, or to his order, until ten days after he shall have been duly mustered into the service of the United States.

Section 2. The City Treasurer, under the direction and approval of the Mayor, is hereby authorized to negotiate a loan on the credit of the city for a sum not exceeding seventy thousand dollars, and issue city bonds for the same, payable in not more than twenty years from the first day of September next, with coupons attached for the interest at a rate not exceeding six per cent. payable semi-annually, which bonds shall be approved by the Mayor, and countersigned and entered by the City Clerk, to be appropriated as follows:

To pay bounties as drafted men and substitutes,	66,000
To pay State aid to drafted men and substitutes and their dependents,	4,000
	70,000

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 RADICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the sick and suffering with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the bladder and kidneys, Hydrocele, Strictures, Humors, frightful swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great portion of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the duties of life or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the limbs and loins, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects of this habit are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, love of solitude, and many the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days can be accommodated with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 RADICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new and important principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most distinguished physicians yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private and Female Complaints, he feels confident acknowledges no superior in the United States.

N. B.—All letters must contain one red stamp, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on those cases of difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Radicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as those who have in families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the great est amount of heat from the smallest amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they rise off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the same side of the house, can be consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace can be set away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Gill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be secured by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a sancer, as when linen or the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER is a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

SHARPSHOOTERS. — For bush-fighting, the American riflemen are, undoubtedly, the best in the world. In all woodland districts in this country there is abundance of game, large and small, and, as the crafty backwoodsman must to some extent rely upon his gun for his dinner, it is hardly wonderful how expert he becomes at picking off a squirrel from the topmost branch of a tree, or sending his bullet into a deer as far away as he can catch a glimpse of him through the underbrush. It is a common mistake to suppose that a deer in the forests must be an easy mark on account of its size. The stems of the trees in our American forests are very close together; they are everywhere interpolated with trees of smaller growth—with underbrush, in fact, and it is through openings, in these, alone, that a small portion of the deer's body is visible and it is all the more difficult to "draw a bead" on, from the circumstances of its being nearly the uniform gray color of the stems.

In most cases, then, a shot at a deer is about as difficult as a shot at a small piece of brown paper stuck against a brown wall seventy five or one hundred yards distant. The Swiss riflemen, who are very famous sharpshooters, are certainly accustomed to longer shots than our backwoodsmen. The chamois, one of their principal objects of pursuit, cannot be approached nearer than between two and three hundred yards; but then he is seen elevated perhaps, on some pinnacle of rock, boldly relieved against the sky, and is on the whole easier to hit than four square inches of buck or doe through seventy-five yards of tawny stems and leafage.

"Those who have tried their rifles on a milk-white goose, pegged down against a bank of snow, will readily acknowledge that monotony of color is by no means conducive to stray shooting.

Hunters aver that the black squirrel is aware of this fact, and will run up a charred tree in preference to any other, when he smells "villainous saltpeter," or get himself mixed up with the black knots that crop out upon many trees. For ages the Scotch have maintained a reputation as riflemen; but, as in most European countries, the skill in fire-arms among them is mostly confined to the upper or "privileged" classes. Prizes are still shot for, however, by tradesmen and mechanics. Among such prizes the famous "Siller Gun of Dunlrie" held a foremost place, though, if Mayne, the poet-historian of those who shot for it, is to be believed, their craft as marksmen was more dangerous to themselves than it could ever have been to the advancing foe:

"Wide o' the mark, and fit to scare us,
The bullets ripped the swads like harrows:
And fright'ning a' the crows and sparrows
About the place,
Rammrods were fleeing thick as arrows
At Chevy Chase."

The Sharpshooters in the French service are for the most part Swiss. They are very sensitive on the subject of their skill, any imputation upon which is resented as an insult. Not many years ago, one of these riflemen, having been unsuccessful in his shooting, was debarred, according to regulation, from again competing for the regimental prizes until he should have brought him self by practice to a better standard of skill. By disguising himself, however, and assuming another name, he again challenged a chance for distinguishing himself, again failed, was detected and ignominiously expelled. Burning for revenge, he watched his opportunity, and fired at his commanding officer, but missed him. The only good shot made by this unfortunate Swiss was his last; for the moment after discharging his rifle at the officer, he drew a pistol and shot himself through the head.

Democratic papers seem inclined to start a discussion regarding the advantages of the Presidential election in "Old Kentucky," and already claim the result will afford the Administration no possible advantage. No Republican claims the election as a party triumph, as Bramlette and such Congressmen now chosen as act with him, do not sanction some of the prominent measures of Pres. Lincoln's Administration; but this is sure; the result does not afford a drop of comfort to Democrats of anti-war pattern. The Kentucky election is a Union victory, and that is enough for present purposes.—*Concord Statesman.*

HE WEARS HER NEAR HIS HEART.—Samuel Burns gave his name at the First District as a substitute. On examination, the letters B. C. were handsomely marked upon his breast. When asked, if his name was Samuel Burns, what was the meaning of the above letters, with a twinkle of the eye he exclaimed "*that is for Bridget Connell, my sweetheart.*"—*Prov. Jour.*

TUESDAY, AUGUST 18, 1863.

THE REBELLION.

A New Orleans letter to the N. Y. Herald states that the feeling of the people of Mobile is very despondent. They anticipate an attack every day. Provisions are very high, and they desire that no more sick and wounded prisoners may be sent there, as there are no medicines or means of feeding them. The squadron off Mobile is being largely increased.

The Mississippi river is still free from guerrillas, but the Mobile papers say strong guerrilla parties are being organized to annoy boats and destroy navigation. If this is carried out, every guerrilla caught will be summarily hanged.

There was a brief assault on Fort Sumter on Friday last, and it was thought the grand attack would take place on the 15th or 16th.

The Peace men are holding meetings in various sections of North Carolina.

A Poor Speculation.—The sum of $200,000, in counterfeit Confederate notes, was recently seized in Dixie. According to the latest quotations, a rebel dollar is worth about eight cents in hard currency. It would not be surprising, after this insane act, to hear of an attempt to counterfeit some of the repudiated Mississippi bonds.

☞ The draft commences in New York city on Wednesday, in the 6th district. Gen. Dix has issued an address to the citizens, setting forth the necessity and legality of the draft, and exhorting the maintenance of order, obedience to laws and the quiet pursuit of accustomed avocations, while the draft is in progress.

He says that ample preparation has been made to vindicate the authority of the government, and that the first exhibition of disorder or violence will be met by the most prompt and vigorous measures for repression.

New England.—In a letter to Hon. R. C. Winthrop, of Boston, the well known divine and patriot, Robert J. Breckinridge, writes:

It may be the will of God that the most dreadful changes await our country. If the very worst comes, I think that true and regulated liberty will perish last in New England. In the past years I have spoken freely in disapprobation of much which has been felt as an evil influence from New England, as it appeared to me. But I never doubted—and now less than ever—that the roots of whatever produces freedom, equality and high civilization are more deeply set in New England than in any equal population on the face of the earth.

The Next Congress.—The Albany Evening Journal asserts, after a careful examination of the returns, that there will be in the next Congress not only an overwhelming majority in favor of the vigorous prosecution of the war, but a majority who will cast their votes for the election of a firm friend of the Administration as Speaker.

☞ The Chicago papers announce that the Michigan Central and Michigan Southern roads have both reduced their fares between that city and New York to eighteen dollars, and to other points in proportion.

☞ In Philadelphia a conscript voluntarily relinquished his front teeth to escape conscription. To his unutterable dismay he was accepted for cavalry service.

☞ A monument is to be erected to the memory of the late Samuel Colt, of Hartford, the celebrated revolver manufacturer, at an expense of $25,000.

☞ The stories of a naval battle near Schoodac, Me., published in the Portland Argus, arose from the fact that the U. S. steamer Montgomery recently exercised her guns in that region.

☞ Commodore Henry K. Thatcher, late chief of the Mediterranean Squadron, has been relieved of the command and is expected to return by the next European steamer.

Peterson's Magazine, for September, is published thus early—leading all the magazines. It contains forty-two articles, sixty-three embellishments, and is an excellent number.

☞ The female prison in Kansas City, fell in on Tuesday morning last, burying in the ruins eleven women. Four were killed, one mortally wounded and six slightly.

☞ Though we travel the world over to find the beautiful, we must carry it with us, or we never find it out.

☞ Miss Lander, the artist, has presented to the East India Marine Society, of Salem, the original cast of "The Captive Pioneer Mother and Daughters."

☞ The English surgeon who performed a successful operation for stone on the King of the Belgians, received a fee of twenty thousand dollars and a decoration.

☞ Daniel Webster's widow visited his tomb one day last week. It was her first visit to Marshfield since the lamented death of her illustrious husband.

NEW HAMPSHIRE ITEMS.

—— The rebels at Fort Wagner had one man, said to be a Texan, who was a dead shot, and who was kept constantly in the rifle pits, and had wounded several of our men. A member of the Fourth New Hampshire, who is said to be the best shot on Morris Island, had been watching for this man for four days, and at last managed to get a bead on him, and put a ball through his forehead, killing him instantly.

—— The wife of Richard H. Dana, Esq., of Cambridge, Mass., was severely injured at Dublin, on Tuesday, by the running away of a horse she was driving—The carriage was thrown over a bank eight feet high, and the horse was instantly killed.—Mrs. Dana had an arm broken in two places, and a lady and a young man with her were considerably injured.

—— The Methodists hold a camp meeting at Epping, commencing on Monday, Aug., 24th, and continuing through the week.

—— A man who stole a dress pattern from a store in Exeter, during the temporary absence of the clerk, has been fined $19.

—— A Norfolk letter says the camps there are quite healthy, but diptheria prevails somewhat in the 13th N. H. regiment.

—— Ex-Pres. Pierce made a speech at the reception of Co. B, 30th Mass. Regiment, at Rockport, Mass., on the 12th inst.

Restoration.—After remarking upon the kindly relations between Northern and Southern soldiers in Vicksburg, the Louisville Journal says: "The people North and South do not want this war one moment longer than is necessary to re-establish the Union, the constitution and the law."

No doubt this is true to a very great extent; but the work here proposed is a very great and difficult task. The work is not merely restoration, but rather reconstruction, or, as the Louisville Journal states it, re-establishment. If it means a restoration of the aristocracy which made this war upon us, to power and control in the nation, it means also interminable strife and dreadful crime. If it could mean work and wages for every laboring man everywhere in the country, and homes for all, that would be a firmer establishment than we ever had yet. It is, perhaps, not probable that we shall see either of these conditions immediately. The first seems impossible, as it certainly is undesirable. And the last implies so great a change as to seem visionary to many people. But we are making history rapidly now.

Vallandigham.—This banished copperhead, in a recent published letter of complaint, says that he ought not to be assailed while he is no longer at home in Ohio to vindicate himself. Upon this the Cincinnati Gazette happily remarks: "The impudence of this suggestion has not been approached since the pathetic remonstrance of the murderer, who, being convicted of killing his parents, was asked by the judge if he had anything to say why sentence of death should not be passed upon him; to which the prisoner replied, he hoped his honor wouldn't be hard on a *poor orphan!*"

☞ Mr. Buchanan's private letter of March 16, 1850, to Jeff Davis, complaining that the South was too easily satisfied with the Clay-Webster-Douglas-Cass compromise of Non-Intervention, when he (Buchanan,) was prepared to do much better by them— that is, run the Missouri Slave line 36° 30m. straight through to the Pacific, recalls the fact that this line was exactly what Mr. Crittenden proposed. The Northern Democrats supported, and the Republicans were blamed for not accepting it in 1861. In other words, (says the New York Tribune,)

"We were required in 1861, after having elected our President, to make concessions to Slavery beyond her utmost demands in 1850, when as yet no Republican party was in existance! And, because we did not ourselves unite in making such extreme concession, we are now accused of having provoked a Civil War!

Mind that we never objected to the passage of the Crittenden or any other scheme by those who believed in it. What we resisted was the requirement that we, who *did* not believe in it—whose cardinal principle it contravened and subverted—should also vote for it. This we could not do without evincing a depth of baseness which our adversaries would have exhibited to public disgust and loathing through all subsequent time."

Singular and Sad.—The N. Y. Herald's correspondent, dating from Morris Island, says a member of the 24th. Massachusetts regiment was seated in the trenches a few days since, leaning against the earthwork, with his back toward Fort Wagner. A solid shot from one of the rebel guns struck the thick embankment behind him, and though no visible effect was produce upon the face of the parallel, the soldier was instantly paralyzed and rendered utterly helpless. He was removed to the hospital, and although there were no marks of injury about him, he lived only two days.

A Bachelor's idea of Wedlock—One of the casual-ties of life.

☞ Gen. Fremont and family have taken a cottage at Nahant for the season. T.

A WEEK IN MAINE.

Once each year each man's Alma Mater calls him, her wandering son, to withdraw for a brief season from the busy pursuits and cares of business life, and to return once more to her shrine. All through the country, in the month of July or August, the call is heard, and young and old obey. Many are the joyous meetings with old friends; many the sad words spoken in memory of those who have passed away.—The meetings and the memories make it a sadly-joyous occasion, till one can hardly tell whether the joy or the sorrow predominates. And so Commencement week is looked forward to, and enjoyed, and at last remembered, as no other week in the year. During its continuance some throw aside the dignity and reserve of age; others cease from the eager toil and activity of middle life; and others still increase and vivify the vivacity and abandon of youth, and all are boys together once more. The sports and the joys, the studies and the ambitions of College life are recalled, till it really seems as if the old life still remained, and the old habits had never been cast aside;—as if the graduates had ever remained boys, ready, each one, to say with Holmes:—

"Yes, we're boys—always playing with tongue or with pen,
And we sometimes have asked, Shall we ever be men?
Shall we always be youthful, and laughing and gay,
Till the last dear companion drops smiling away?"

Not alone have the members of the Class of 1829 of Harvard University thanked Holmes for that little poem in praise of "the boys." Graduates of colleges all over the country have read it, and felt it, and read it again. In prose he tells the charms of old wine, old meerschaums, old violins; but when he would speak the praises of old college friends, the thought "shuns common and plebeian forms of speech," and finds expression only by the means of "goodly poesie."

But we were on the way to Maine, and have glided into the land of dreams. The transition is sudden, for Maine is a wide-awake State, whether its citizens stretch forth their mighty hand to grasp pirates in Portland harbor, with a due regard to the country's welfare; or cordially receive Western Boards of Trade with a due regard to their own future business prosperity. The first Monday in August found us on the way to Old Bowdoin, where for four years able professors strove to teach us how to pursue life's purpose and to attain life's great end; and merry boys no less eagerly strove to teach us how to drive dull care away. It were not well to tell which labored most successfully. The memory of the exertions of both is gratifying now that the good old days have passed away forever.

The ride from Portsmouth to Brunswick is not particularly attractive. You purchase your Boston Journal as soon as you take your seat, and having read this you are ready to look about you; you are soon satiated with the monotony of the scenery, and turn to your fellow passengers. Here there certainly is enough to attract and interest you. Americans exhibit their characteristics in the cars. A short time since, while on a train, we noticed a party of Germans. They were in the smoking car, of course, but some were sitting, while the rest stood around them, and all chatted, laughed, and enjoyed themselves. They were a *party*. After a while, we left the smoking car, and curiosity led us to walk through the train. It contained several cars; there was not an unoccupied (double) seat in one of them. And this is one of the characteristics. Each American passenger, when he enters a car takes a solitary seat. Two very seldom sit down together. Very often, too, they sit diagonally,—that is, one passenger sits on the inside of the seat, the one before him on the outside, and so on. It is a sort of checker-board arrangement, amusing to the observer. And so each car is first just half filled. Then, when no unoccupied seat can be found, they will sit in pairs—hardly thus, however, for each man is an individual still, and has stamped upon him all over, *noli me tangere*,—touch, hands off! It would be undesirable to be compelled to confess that the habits of American society demand this exclusiveness; it would seem so, however, from its universal prevalence.

Having become weary of glancing furtively at your fellow passengers, from your solitary seat, you again turn to the window. You pass by the twin cities of Saco and Biddeford, and see the roofs of the buildings and the spires of the churches. Through all your ride you see not even a village, with the exception of these; and on the Kennebec & Portland Road it is little better. You reach the "Boston depot" in Portland, and disembark, to change cars.—While waiting in the depot, you hear the loud calls of the hackmen—"*Ellum* House," "Preble House," &c., and glance at them, wondering which it is who has carried so many sick and wounded soldiers to their homes gratuitously. You mentally exclaim, "long remembered be his name," (it has slipped *our* memory,) and the cars are ready to receive you. After being carried slowly around the city, "five minutes for refreshments" are graciously granted you, and you again start on a monotonous ride. But on both roads the trains run smoothly, especially on the P. S. & P., since its accession of new cars. The conductors are all attentive and obliging, and take up your tickets as if they felt that they were doing you a favor. And at half past two you reach Brunswick, tired and hungry, after a four and a half hours' ride—a ride about as long as our description of it. T.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Hampton, August 7, 1863.

PROVOST MARSHAL'S OFFICE,

First Congressional District,

Portsmouth, N. H., August 12, 1863.

Drafted men furnishing substitutes must previously forward to the Board of Enrollment a written notice, giving the name and age of the substitute and stating whether he is an alien or a citizen. They must present themselves with the substitutes on the day they are ordered to report, between the hours of 9 A. M. and 1 P. M.

Those wishing to commute for service must pay $300 to James M Lovering, Collector of the Internal Revenue, Exeter, N. H., or at the office of William H. Hackett, Portsmouth, N. H., and procure DUPLICATE receipts for the same, before making application to this Board for certificates of exemption.

A drafted man may pay $300 in commutation of services or furnish a substitute, after he has presented himself for examination and been accepted by the Board of Enrollment

Henceforth, a Reward of Ten Dollars will be paid to any person, upon the arrest and delivery of a deserter to the Provost Marshal or either of his deputies.

Any person claiming exemption on the ground of ALIENAGE must file before the Board an affidavit stating, 1st that he is an Alien and setting forth the government of which he claims to be a subject; 2d the time when he came into the United States, and where he has resided since that date. 3d that he has never declared his intention to become a citizen of the United States, and has not exercised the right of suffrage by voting at any election in any State. 4th that he claims to be exempted from Military Service on the ground that he is the subject of a Foreign Government, and has not declared his intention to become a citizen of the United States, and has never voted in any State,—the affidavit to be supported by any competent evidence the party may offer.

Persons claiming exemption by reason of Unsuitableness of Age must present an affidavit setting forth the claim, to be supported by as much of the following testimony as can be obtained.

1st. By an authenticated extract from the legal registry of Births, if there be any such registry.—2d. By any other authentic documentary evidence tending to establish the fact of age. 3d. By the affidavit of the Parents. 4th. By the affidavit of some respectable person, (not less than two,) heads of families, as are most likely to be informed on the subject

Persons drafted who may be too sick to report upon the day ordered should forward the affidavit of a Physician, stating the facts in the case and how long it will be in his opinion before the man will be able to travel.

No certificate of a Physician or Surgeon is to be received in support of any claim of drafted men for exemption, unless the facts and statements therein set forth are affirmed or sworn to before a Civil Magistrate competent to administer oaths.

Drafted Persons in the County of Rockingham requiring blank forms of certificates from No. 25 to No. 30 inclusive, can obtain them by applying at the office of the Provost Marshal between the hours of 12 o'clock M. and 1 o'clock P. M., and at the office of James W. Lovering, Esq., Exeter, N. H., and to William S. Ring, Esq., Northwood.

Local.

☞ The Morning Service at the Universalist Church, last Sunday, was attended by a large congregation, including about 150 soldiers of the U. S. Invalid Corps, who occupied seats in the centre of the house.—The pastor, Rev. A. J. Patterson, preached an earnest, patriotic sermon, from the text, "Blessed are the Peacemakers." At the close of the discourse, he stated that he had been drafted into the U. S. service, and purposed to perform it, with the leave of his society, for which purpose he asked a dismission, or leave of absence till the close of the war.

The Society met immediately after the morning service,—and after discussing the subject chose a committee to report in the afternoon.

The substance of the report was, that

Whereas, our Pastor having been drafted into the service of the U. S. has requested a dismissal as pastor of our society, in order that he may in person comply with the requirements of the same,

Resolved, That in consideration of the loss which our society and the community must sustain by the withdrawal of his services at the present time, and of our opinion that he is physically unable to perform the duty of a soldier,—notwithstanding our approval of his loyalty and patriotism, we believe his labors would be more useful with us in this community, than they could be in the army as a soldier.

Therefore resolved, That we cannot, consistently with our duty to the society and to him, grant his request.

Resolved, That the Wardens be authorized and directed to take such steps as may be necessary to relieve him from any responsibility under said draft.

The report was accepted, and the resolutions adopted.

The sermon in the afternoon was by Rev. John G. Adams; and was an appeal to the christian patriot and philanthropist.

COMPANY K, 16TH REGT.—This company, recruited principally in this city and vicinity, left Portsmouth for Concord, under command of Capt. Jos. H. Thacher, Oct. 30, 1862. On Friday evening last, most of those who remain returned to this city, the regiment having arrived at Concord in the morning, from Fort Hudson.—The names of those who returned are as follows:—

Capt. J. H. Thacher.
Sergts. J. H. Morrill, E. J. Hobbs, James Cunningham, and I. S. Fletcher.
Corps. E. O. Addition, J. A. Waterhouse, D. Danielson, William A. Rand, Jacob Haddock, and J. B. LeBosquet.
Musician, C. A. Edny.

PRIVATES.

J. Anderson,	Thomas Brackett,
S. Blatchford,	J. H. Emery,
John Flynn,	C. F. Goodwin,
C. A. Gray,	Otis F. Haley,
Rufus L. Jones,	Charles W. Leavitt,
Wm. J. Mills,	John Murphy,
D. McCormick,	Jos. E. Nash,
Timothy O'Leary,	A. L. Payne,
J. H. Pearson,	C. M. Perkins,
E. H. Packer,	Oren Seavey,
James Shaw,	John Shaw,
G. A. Woodsum,	J. F. Woodsum.

The following members of the company have died during their absence at the seat of war:—

Lieut. Geo. T. Wilder; Privates Benj. F. Watkins, Mark W. Tucker, Henry O. Ellingwood, Joseph Holmes, H. M. Carter, Robert Smart, James L. Smith, Theodore Fisher, John Leary, and Isaac Thomas.

There were left in hospital on the route:

At Vicksburg—Sergt. H. M. Chase, Privates John L. Chase, James Mitchell, F. W. Neal, James E. Walker, Daniel Watkins, Samuel Walden, and J. F. Whidden.

At Buffalo—Corp. Laighton, Privates Geo. E. Chapman and John Higgins.

At Albany—Private Isaac P. Drew.

The following members of the company, being too sick to accompany the regiment via the Mississippi, arrived at New York on Friday, in the steamship Pioneer, from New Orleans:

Lieut. Wm. A. Haven, Privates Franklin Dow, Wm. Dutton, Jacob F. Knight, and J. D. Perkins.

The losses of the company, otherwise than by death, have been as follows: discharged for disability, 1; re enlisted for three years, 2; deserted while in the field, 2.

☞ The large company of young contrabands, stationed on Jenkins' Island, at Fort Sullivan, are a source of much interest to our citizens; and numerous are the visitors they have. The negroes are all men, mostly young, and very eager to obtain knowledge of reading, &c., which they readily acquire. Several ladies go over from this city to teach them, on appointed days, each week. A few days since, while these ladies were engaged in their benevolent work, a boat-load of dirty blackguards (one of whom, we regret to say, belongs in Portsmouth) in going down river, stopped to revile and insult the freedmen, in the vilest language, regardless of the presence of ladies. At last, a white officer ordered a platoon to load their guns, and told the boat's crew to come on shore or he would fire on them. They thought best to land—and the officer kept them on the island, under guard, all day! And this punishment was altogether too light for them—for they deserved to run the gauntlet of all their superior colored brethren.

SUICIDE.—Mrs. Phinehas D. Hoitt, residing on one of the new streets north of the North Mill-pond, committed suicide on Sunday night by cutting her throat with a razor. She did not sever the jugular vein, but inflicted a frightful gash close under the chin; while on the side of the neck there were scratches occasioned by five separate attempts to accomplish the deed.—She was missed about 1 o'clock, and as she had previously threatened to drown herself and had also at times labored under mental depression, search was made for her in the vicinity of the pond, by Mr. Hoitt and the neighbors. At daybreak she was found in a field near the house, dead. She had arisen from her bed, partially dressed herself, and gone out without disturbing any one. After inflicting the fatal wound, she had closed the razor and replaced it in its case. She was about 40 years of age, and leaves four children,—one an infant.

The Mayor and Aldermen, and Drs. Oliver and Bennett investigated the case on Monday morning, and deemed an inquest unnecessary.

☞ Two hundred and seventy-five persons dined at the Appledore House, Isles of Shoals, on Sunday last. Here, as at other places of pleasure resort, the number of visitors this summer has been unusually large.

Rev. Mr. DeNormandie, of this city, preached to a large audience at Appledore on Sunday.

☞ A fellow calling himself James White, has recently been swindling business men in this and other cities,—on pretence of opening a wholesale grocery, corner of State and Water streets. Nobody seems to know much of him, except those who have discovered to their cost that he is a liar and a cheat. Look out for him, under whatever name or cloak. He is rather a slight man, of dark hair and complexion, and good appearance.

☞ In our report of the draft in Rockingham county, by some mischance, the return for the town of Newton was overlooked, and we publish it herewith:

By a very singular coincidence, some of our county cotemporaries have made a similar omission. It couldn't have been that they copied from us, as they gave no credit.

FOR OUR SOLDIERS.—It having been proposed by many of the ladies of Portsmouth to give the soldiers of the Invalid Corps a collation, notice is hereby given that all who wish to contribute are requested to bring their donations to the campground, at the Ropewalk, on Wednesday, Aug. 19, before 2 o'clock.

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.

This fact is well established. It is the most simple and best operating machine yet made, although forty different kinds have been put into the market, the greater part of which have proved utter failures.

A sale of three hundred in this city, and a still-increasing demand, prove the popularity of these wringers. ...o family should be without one.

We have Iron framed Wringers at a lower price, but the *best* is the *cheapest*.

This Wringer has had an immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The experience has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can *offer to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at the old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in constant correspondence with the most eminent Physicians of the Old World,) of obtaining the select as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to DR. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Starting disclosures—Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 600,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in female health.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

NEW VOICES FROM THE CROWD.

Under this title, Mr. W. C. Bennett, one of the popular poets of Great Britain, has published three poems, alleged to have been "re-written for the South and English Southerners, by Charles Mackay." The first of the series is entitled "Rule Britannia," which we copy:

"When Davis first, at hell's commands,
Dug, for a million, bloody graves,
This was the charter of his land,
And women whippers sung the slaves;
Rule son-sellers,
Whoever at you raves,
Southerners ever, ever will have slaves.

The nations not so blest as we,
Must sell their daughters not at all,
Breeders of selling babes to be
To any brutes to whom they fall;
Rule girl sellers,
Whoever at you raves,
Southerners ever, ever will whip slaves.

Us, God nor man shall ever shame;
All their attempts to put chains down,
Shall make us think man-hunting tame,
And hold wife-selling our crown;
Rule, wife-whippers,
Whoever at you raves,
Southerners ever, ever will whip slaves.

To us belongs the right to burn
The man who dares a man to be,
The man who dares our chains to spurn,
And be, as God would have him, free;
Rule, girl-whippers,
Whoever at you raves,
Southerners ever, ever will lash slaves.

All vices still with slavery found,
Shall to our cured homes repair;
Lust—cruelty shall there abound;
Torture and murder shall be there;
Rule, child-sellers,
Whoever at you raves,
Southerners ever, ever will breed slaves.

And while both heaven and earth abhor
Our new-born rule that shames the day,
We'll boast of all they hate the more,
And women's backs their taunts shall pay;
Rule, girl-whippers,
Whoever at you raves,
Southerners ever, ever will have slaves.

☞ There was a son of Frederick Douglass, the negro orator, in the storming party at Fort Wagner. A letter from that point says of him:

"Sergeant Major Lewis H. Douglas, a son of Fred. Douglass, by both white and negro troops is said to have displayed great courage and calmness; he was one of the first to mount the parapet, and with his powerful voice shouted: 'Come on, boys, and fight for God and Governor Andrew,' and with this battle cry led them into the fort."

Jenny Jane, who is passing a few weeks in the country, says, "if a cow exhibits, in our presence, the slightest preference for the sidewalk, we leave it wholly to its discretion, and take the high road as far off as is practicable."

The "sidewalk," in the country, is *good*.

[We are glad the editor thinks so, for our experience of country "sidewalks" has led us to pronounce them demnition bad.—*Devil.*]

☞ H. H. Loyed & Co, of New York, have published a large map of the United States, covering our entire country, from the Gulf of Mexico to the Northern Boundaries of our Great Lakes, and from Maine to California. It contains all the towns, rivers, mountains, &c., made famous by the War, up to the date of its issue. Size 40 by 54. Price—In sheets, colored in counties, 60 cents. Mounted, $1.25. Benj. B. Russell is the Boston publisher. For sale in this city by J. H. Foster.

☞ The Lounger, in Harper's Weekly, has a scorching comment on the speeches of Seymour and other politicians. "These orators," he says, "forget the soldiers who are dying for the rights of all the people, in their eagerness to howl over the wrongs of a man rummarily arrested for helping the murderers of those soldiers."

☞ In one of the northeasterly towns in Windham county, Connecticut, is a village called "Christian Hollow," consisting of about twenty families, all farmers. Nine men in that village have had twenty-two wives, as follows: One man had four, two men three, and six men two each. The man who has been married four times is yet living, and has a wife who bids fair to run an equal race with him.

☞ A lady writes to the Rural New Yorker, saying that the annoyance of mosquitoes may be effectually prevented by a very simple process. Close the room and burn a teaspoonful of brown sugar on some live coals, or even shavings, and the insects become paralyzed at once.

☞ The New York Times announces that the draft is two, and possibly in more of the city districts will commence on the 24th inst. The drafted men who elect to go in the army will be allowed a furlough to make preparations for departure. Substitutes will have no furlough.

☞ An improvement has been made in the polished steel scabbards used by the French Imperial Guard. When the sword is withdrawn the upper part of the scabbard contracts to one-half its length, and consequently is much more convenient during the period of action.

☞ A joint stock company in Hartford, Conn., have shipped several cargoes of coal, the best Scranton, which will be delivered to over two hundred families at $8.25 per ton.

☞ The pay of the rebel soldier is now not much more than fifty cents of real money in the month.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of prescribing the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Inflammation, Strictures, Gonorrhœa, Gleet, Pains and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors (frightful Swellings), and the long train of Secondary Symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those dreadful effects of a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Confusion of ideas, melancholy, effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, Confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Young men, or those about contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale his French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A.M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

N. B.—Dr. Dow imported has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

GOLDEN SHEAF WHISKEY.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty-years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be, from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a specialty in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for the sale, 91 Washington St., Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven in keeping a uniform heat.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes can be performed with ease. The draft is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is entirely obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are carried up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. The gum is irregular, so as to build up the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER as a base for Artificial Teeth promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. Tarbox, Dr. Boardman, Dr Oliver and Dr Bennett, for particular success in extracting teeth. Teeth extracted without pain and with entire safety, with ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

VOL. 23. PORTSMOUTH, N. H. WEDNESDAY AUG. 19, 1863 NO. 41.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind,
Love truth, do good, to just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and it truly their worst enemy."—*Washington's Farewell Address*

TASTES.—We chew tobacco, the Hindoo takes to lime, while the Patagonian finds contentment "in a bit of guano." The children of this country delight in candy, those of Africa in rock salt. A Frenchman "does his length" on fried frogs, while an Exquimaux Indian thinks a candle the climax of dainties.

☞ Some humbugs, especially those of a religious kind, possess a wonderful tenacity of life. Witness the Mormon humbug as an example. For a few years past it has been thought that Mormonism was doing out—"gradually running itself into the ground," as a member of Congress said last winter. But not a bit of it. Its proselytes are pouring in from Europe by hundreds, yes thousands. And they are a thrifty, well-to-do class, too, and not mere vagabonds, as one might naturally suppose they would be. As things now look, Mormonism may yet have a run something like that which Mahometanism had in its early age, with this difference, however, that it will be propagated by the pen and not by the sword.

☞ A lively correspondent of the Boston Post relates the following anecdote of two Albany ecclesiastics, who were at Saratoga at the time of the races, which were under the management of Morrissey, the famous prize fighter, gamester, &c.:

Parson M——, Baptist, and Father C——, a Catholic priest, are both jolly fellows in an innocent way, and, despite their difference of creed, remarkably good friends. Meeting each other in Saratoga, M—— said jocosely, as he approached the other, "Ah! I understand it—you have come to attend the races! and added, "Do you know Morrissey?" "No," said Father C——, "and I beg you won't introduce me." The deprecatory voice and gesture with which his reverence said this, made the retort as fine a specimen of ready wit as I have heard for many a day.

BIG FIGURES.—Adj.-Gen. Sprague of N. Y. State has reported to Gov. Seymour that the city of New York has furnished 33,623 men above the aggregate of all her quotas since the war commenced, not counting 20,951 men sent on special service for a short time. As all the quotas of the city must foot up more than 65,000, it would follow—supposing these figures correct—that N. Y. city has furnished about 130,000 men; more than her whole voting population, including every man from 45 to 100 years old. This is in the proportion of about 3, 000,000 for the loyal States. We don't think quite three millions have yet been raised. And as Adj.-Gen. Hillhouse reported last year that on a call for 25,160 New York city furnished only 6,637, leaving a deficiency of 18,523, or 73 per cent, we may safely wait for some further explanation of such discrepancies. Either Mr. Hillhouse or Mr. Sprague is mistaken. Which, let the occasion and the motive suggest.—*N. Y. Tribune.*

A GOOD FUN.—Dr. G. was proverbially fond of punning. About the same time that he was made Provost o Eton he also received a stall at Windsor. A young lady of his acquaintance, congratulating him on his elevation, and requesting him to give the young ladies at Eton and Windsor a ball during the vacation, happened to touch his wig with her fan, and caused the powder to fly about.—"My dear, you see you can get the powder out of the cannon but not the ball."—*English Paper.*

☞ Lovers' quarrels seldom terminate fatally but in Cincinnati, Sunday night, Miss Belle McCormick drowned herself in the Ohio, because of a disagreement with her betrothed, cruelly aggravated by the young man, who during the evening had several times passed her house in company with another young lady. It fell to the lot of the distracted young man to find the dead body of her whom he really loved.

HAPPINESS.—"If a word will render a man happy," said a Frenchman, "the more be we wish indeed who will not give it. It is like lighting a man's candle with your own, which is none of its brilliancy by what the other gains." If all men acted upon that principle, the world would be much happier than it is.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, AUGUST 19, 1863.

THE REBELLION.

Mosby's guerrillas are again active, and have captured more sutlers' wagons at Fairfax Court House.

The Army of the Potomac is expecting orders to move immediately, to check movements by Lee's army.

A dispatch from Headquarters Army of the Potomac, dated 16th, states that heavy firing had been distinctly heard since three o'clock that morning, in a southeasterly direction, apparently in the neighborhood of Banks and United States Fords, or possibly as far away as Fredericksburg. The firing was rapid and constant, and as large bodies of troops had moved the day before, marching and by rail, it was thought that our advance had come up with the enemy.

If stories of rebel deserters of the disorganization of Lee's army are only one-half true, his army will not hold together much longer. Regiments from different States are fighting with each other; hundreds are deserting, and it is said the deserters actually defeated a detachment of Stuart's cavalry.

It is stated that the side of Fort Sumter exposed to our batteries is already breached.

The bombardment of Charleston was renewed on Saturday morning in right good earnest, by the combined land and naval forces, and, it is stated, was continued thro' Sunday. A rebel dispatch describes the bombardment as awful, and states that the fire seemed to be concentrated on Fort Sumter.

A special dispatch from Cairo says that West Tennessee is cleared of guerrillas, many of their officers and men having been captured.

The mountains of Northern Alabama are filled with deserters from the armies of Johnston and Bragg. Bragg is at Chattanooga with 25,000 men. He has lost 10,000 by desertion. Johnston's army, numbering 25,000 soldiers, is at Brandon and Enterprise. His army has lost one-third of its numbers by desertion.

The Governor of Alabama has issued an address enjoining the impressment of negroes into the rebel service.

SUDDEN DEATH.—Mrs. Akerman, wife of Mr. William Akerman, on Saturday evening, while walking across the room in Portland suddenly fell to the floor, being attacked with paralysis, and died in a few minutes. The deceased was a lady of estimable character, and formerly resided in Newburyport. Her husband was long and favorably known as one of the most courteous and obliging conductors on the route from Portland to Boston, until a year or two since, when from illness he was obliged to relinquish his position.—*Portland Press.*

☞ A paper has been started in Yazoo City called the Yazoo Daily Yankee, published by Messrs Mudsill, Small-Fisted Farmer, Greasy Mechanic & Co.

☞ The Boston Commercial Bulletin recommends non-intercourse with Great Britain as our best means of meeting and counteracting her treacherous practice of building and arming rebel pirates to prey on our commerce. The Bulletin regards this as a peace measure, and does not advocate a war with Britain, because our navy is not a match for hers.

☞ The change of tone on the part of the London Saturday Review, hitherto one of the strongest advocates of Secessionists in England, excites much comment. That journal looks on the recent Federal victories as great, if not decisive; and in a measure gives up the cause of the South as virtually lost.

☞ More than half the young men who have been examined as candidates for the Newport Naval Academy have been rejected, most of them on account of physical disabilities rather than a want of sufficient amount of knowledge.

☞ The Evansville Journal says stealing is Morgan's second nature, and it would not be surprised if when Death calls for John, on his pale horse spoken of in the Apocalypse, John should steal his horse even in *Arcuale Mortis.*

☞ The London Herald asserts that England and Austria are completely in accord and will demand for Poland those treaty rights which Russia, in substance, acknowledges and shows a disposition to concede.

THE REBEL GEN. HOLMES.—The Richmond journals announce the death, from delirium tremens, of General Holmes.—This person was in command of Governor's Island, in New York harbor, on the memorable day when Fort Sumter was fired at, and for some days subsequently. He was continually intoxicated at that time, but had sense enough left to put every obstacle he could in the way of the popular arming, until he himself got out of the way by "resigning"—that is to say, by deserting his flag.—*Traveller.*

☞ A Baltimore firm advertises "concentrated clam" as a nutritious food for soldiers and travellers.

☞ Prentice hopes Rosecrans will thrash the rebels out of Tennessee before they have time to thrash the wheat in it.

NEW HAMPSHIRE ITEMS.

——Maj. S. H. Duncan and Lieut. Stark Fellows of the 11th N. H. Regiment, have been appointed Colonels in Negro Regiments. Lieut Fellows graduated at Dartmouth one year ago. He belongs in East Weare.

—— The Cheshire County Agricultural Society will hold its annual Fair on the 22nd and 23d of September, and the committee is at work preparing for it.

—— A new military company is to be organized in Manchester, under the statutes of the State.

—— A boy was fined $3.50 and costs, $3.54, in Manchester, Monday, for stealing fruit from a garden.

—— Mrs. Obadiah Jackson, of Manchester, was seriously injured while leaving the cars at the Webster Place, in Franklin, on Monday forenoon. One leg was broken, and other injuries are feared.

—— While Daniel E. Gould, one of the inmates of the State Reform School at Manchester, was bathing on Saturday last, another boy turned boiling water into the cistern, which fell upon Gould's face, shoulders and chest, seriously scalding him. The Mirror remarks that "Gould very naturally blamed the boy for not stopping the hot douche when he cried enough."

—— A Concord correspondent of the Manchester Union speak highly of Col. Kingman of the 15th regiment, as beloved by his men, when he has used kindly, having attended unceasingly to their wants.

—— The Port Royal New South states that Maj. Henderson of the 7th N. H., had a narrow escape one night in a trench, near the front. He was sitting in the trench with several others, when an immense projectile from the rebel works, struck in the bank directly behind them, tipping over half a cart load of dirt upon them, and nearly burying them up. Maj. Henderson found himself firmly fixed with the elongated 10-inch implement of destruction lying up against his shoulder. Supposing it to be a shell, and unable to stir an inch, the Major's sensations, from the time of discovering the projectile, until he became convinced that it was a solid shot, can be better imagined than described.

☞ A shoddy mill at Cohoes, N. Y., was burnt on Monday afternoon, and 15 of the female operators perished in the flames.

☞ Governor Seymour has prepared a proclamation warning all citizens against any disorderly conduct when the draft is made in New York and Brooklyn.

☞ The iron-clad gunboat Manitoomsh was successfully launched from the Brooklyn, N. Y., Navy Yard on Saturday. She will have two turrets.

☞ An ukase has been issued by the Russian Government declaring free landowners the 200,000 peasants who are peasants of the crown domains.

☞ The Turkish army is to be raised from 85,000 to 160, 000 men. Two camps of observation are to be established, on the Bosnia and on the Danube.

☞ Mention is made by Trollope of a Florentine Villa, whose floor is painted to represent a shallow stream.

☞ The Toronto Globe says that a colored man, an old citizen of that city, died last Thursday, at the very advanced age of one hundred and ten years.

☞ The Liverpool Chamber of commerce held its half-yearly meeting on the 3d inst. The speakers expressed the opinion that the American war was not far from its close. James Spence, the notorious secession advocate, concurred in this opinion.

☞ A very rich and extensive gold mining region has been discovered in the San Francisco mountains, lying east of the Colorado River. The Lopas and other recently formed mining companies on the Colorado have been deserted for the new mines. The latter are described as a new California.

☞ According to a private letter received in Washington, an article in the Raleigh, N. C., Standard of July 31st, throwing the entire responsibility of the present war on the Secessionists, denouncing the treachery of the Confederate Government, and asking for peace, &c., was written by the Speaker of the N. C. House of Commons and the President of the Governor's Council. It is further stated by the correspondent that Gov. Vance approved of the publication of the article, copies of which have been furnished the President and members of the Cabinet.

☞ The ship Constitution, from Philadelphia for Valparaiso, was captured on the 25th June, by the pirate Georgia, and released on giving bonds. The crew had arrived at Pernambuco. The ship City of Bath, from Callao for Antwerp, was at Pernambuco, after having been captured by the Georgia, and released on a ransom bond for $20,000. Report said that the bark Conrad, captured by the Alabama on the 19th of June, was armed by her and not destroyed. The ship Sunrise, at Liverpool from New York was, it seems, captured by the Florida, in lat. 40, long. 68, and was released on a ransom bond for $60,000.

A WEEK IN MAINE.

We reached Brunswick on Monday afternoon. The evening of that day, and Tuesday, Wednesday and Thursday were devoted to the public performances of Commencement week, Wednesday being Commencement Day proper. Just why this "festival" is called Commencement is a matter of some doubt. Some contend, because the graduates then commence to pursue the active duties of life; others, that the exercises formerly took place, not at the close of the summer term, as now, but at the beginning of the fall term—the commencement of the collegiate year.

There were many pleasant social gatherings during the week, and the jokes and the sentiments and the brief speeches at these were far from being unpleasant. The laugh often "came in", and at no time more so than when one gentleman, who, unacquainted practically with college life, and having heard much said about the undergraduates, gravely proposed as a toast, the over-graduates. Of the public exercises we shall say nothing. They are pretty much the same year after year. The boys go upon the stage in the same old way; make the same two stiff bows, one to the President and the other to the people; and recite the same old parts on the same subjects, (almost) and in the same manner as in the days that were; then bow twice more, pick up the same bouquets, in which large and brilliant flowers predominate, and "go off," to felicitate themselves on "getting through," and to receive the congratulations of their friends. With many, who then make their debut, it is a positively last appearance.

There is one peculiarity connected with the exercises of Commencement Day, which seems somewhat ludicrous. The "parts" are assigned according to rank in the Class, perhaps not always strictly according to merit. There are usually at Bowdoin five grades,—Orations, Philosophical Disquisitions, Literary Disquisitions, Disquisitions, and Discussions. But the parts are prepared with an utter disregard of this classification, and he who has a Discussion, as likely as not, delivers the best Oration of the Day. What's in a name?

But the pleasantest feature of the occasion is, as we have said, the meeting of old friends. Here we met the faithful Surgeon, who had just returned, weak and feeble, from the side of the wounded soldier in Virginia, to obtain, if possible, renewed health and strength among "the scenes he'd loved so well"; the young pastor from his church in the beautiful and fertile state of Ohio; the brave lieutenant of the 5th Maine Battery, who, wounded at Gettysburg, moved about on his crutches, changed in his outward appearance, but at heart the same good fellow still; the physician, who, after a year or more in Europe, had returned and settled down to the practice of his profession in his native city; the efficient and courageous captain of the 17th Maine, whose brave deeds and earnest patriotism have been household words with those of us who have known and respected him; and for whose quick promotion we still look to the Governor of Maine, knowing that it will soon come; and the Colonel of the 20th Maine, the true gentleman and firm friend, (will he pardon us for mixing him up with the rest of "the boys"?) whom hard service and faithful performance of duty had enfeebled, but whose record in the Army is even more glorious than was his well earned reputation as a faithful and able professor at Alma Mater,—and that, too, in a regiment which has done far more noble service than the papers have ever told, occupying a post of honor on the extreme left at Gettysburg, withstanding and repulsing and driving a whole rebel brigade, and capturing more men than its own ranks contained. But it were vain to attempt to name half the number present; much less can we enumerate the brave and faithful soldiers who are fighting the battles of freedom,—for Bowdoin has not been backward in sending her brightest jewels into the ranks of the Union army. Nearly 200 are certainly there, and many have unhesitatingly laid down their lives in defence of liberty while youth was high in hope and the future beckoned to them with eager hand to go forward and grasp the honors that awaited them in the secure paths of peaceful life. Ah, the country is realizing now, that the days of chivalry are not all past, and that many of her sons, good and true, are eager to do brave deeds that would have cast a shining lustre around the names of those who in '76 fought and died in her behalf. History will tell that the men of '63 were worthy sons of those of '76. Ambition, the lust for gain, a short time since we thought had almost crushed the manhood out; but now, under the stern discipline of cruel war, men are rising superior to all these petty cares of life, and are doing deeds that three years ago it was impossible to imagine.

And hence we missed the faces of many whom we once met there. Many sleep peacefully in soldiers' graves, and many still remain at their posts, ready to lay down their lives, if it be necessary, for the cause. Unwounded, not broken in health, they returned not now. Was it strange if they half regretted it? We think not, for one brave officer told us that within half an hour after being severely wounded, he congratulated himself that his wound would, perhaps, enable him to attend Commencement, and that he began even then to calculate the chances of his getting well too soon.

Every graduate is considered privileged to boast of his class; yet why mention that of the 55 who graduated in our own, (4 being dead and 23 in the army) 19 returned to Alma Mater? It proved the devotion of the Class to her, and would interest her friends. But Brother Tenney, of the Brunswick Telegraph, must speak the good word for the Class, as he is ever ready to do for those which deserve it. The Telegraph, by the way, is one of the institutions of Brunswick. It gave a seven-and-a-half column report of the exercises of the week, exhaustive alike of the subject and the editor's strength. It is difficult to make an interesting local paper in such a town, but he knows how to do it and does it. An untold amount of labor is necessary, and it never is appreciated. But he does it all faithfully and cheerfully, and for his labors in behalf of the town and the college, he deserves the most generous support. T.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight, showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Local.

☞ A son of Capt. Amazeen of the schooner H. E. Bishop, about 9 years of age, fell into the river at the Spring on Tuesday morning, and very narrowly escaped drowning. His cries were heard by Mr. Alphonzo Marston, who was occupied in the Market. He ran down, and seeing the boy's position, jumped at once into the water, in his fall striking the lobster car, it being low water, and injuring his arm quite seriously. He, however, seized the boy and brought him out, and by the application of the usual remedies the boy's life was saved. This is the second boy whose life has been saved by Mr. Marston.

☞ The beautiful grove of majestic old pine trees (known among the old folks as "Mrs. Knight's pines,") situated on the hill in Newington just below the Adams farm, on the old Piscataqua bridge road,—is to be cut down for navy timber. In a commercial point of view, the trees long since ceased to improve.

[For the Chronicle.]

VISIT TO CENTRE HARBOR.

The excursion projected by the Portsmouth Cornet Band was a great success. The cars were not crowded, and some of them were open at the sides, affording the passengers a fine view of the landscape spread out in great beauty on every side. At the various stations along the road the band enlivened the scene by discoursing sweet music for the benefit of the excursionists and the crowds of curious ones who were attracted to the spot. Young America was seen in its native attire while passing a pond. The little jokers, to the number of eight or ten, none of them over eight years of age, were seen in the distance mounted on a rail fence. As soon as the train arrived at the spot they all leaped on the grass and fled across the field, and one after another plunged into the water, like so many frightened frogs. Many pleasing incidents transpired along the route, and at half-past ten o'clock we arrived at Alton Bay, where we found the commodious steamer Dover, Capt. Wiggin, ready to convey our party across the water. The regular train being late, the steamer did not start immediately, which gave every one a fine opportunity to visit the hotel and feast on the lovely view from this elevated spot. The band played a number of airs, and at 11 o'clock the boat started for Centre Harbor. The scenery on every side was indeed lovely, and new beauties were opened to our view as we steamed along the route. Hills, in the foreground and in the distance, surround you; islands of every shape and size stud the surface of the water, and here and there green fields are spread out; little white cottages are seen in the valleys and by the shores of the lake. Companies of singers were gathered in different parts of the boat and made the air ring with sweet melodies.

About half way across Lake Winnipesaukee we passed the downward steamer Lady of the Lake; a tune from our band and cheers and waving of handkerchiefs were the courtesies exchanged. Soon after one o'clock the steamer arrived at the wharf at Centre Harbor. We immediately adjourned to the desirable and pleasant abode of mine host J. L. Huntress, the Senter House, where we found every accommodation that could be desired. This is one of the most delightful summer retreats to be found in New England. The house is beautifully located on an eminence, facing and commanding a fine view of the lake. Verdant lawns and terraced gardens extend from the house to the lake side. The table is bountifully supplied with the luxuries of the season. The ascent of Red Hill—an eminence of nearly 1600 feet—is made from this house. Availing themselves of the opportunity, our party ascended the hill on the safe and sure-footed ponies to be found at the house. Rev. T. S. King says:

"Red Hill commands a more fascinating landscape than any other height in the mountain region. It is very easy of ascent, and, while it gives a very wide and varied view, is not so high as to prevent the principal objects from being seen with great distinctness—but the chief charm of the view will be found in the two lovely sheets of water that lie beneath. No one of the great White Mountains has a large lake near its base. But Squam Lake, with its brood of 'leafy isles, like green-winged birds,' nestles close under the Red Hill at the west, and on the south the Winnepesaukee is seen in its whole length, and in the light of a clear summer afternoon, its beauty surpasses all description. Those who fail to make the ascent of Red Hill, miss the most enjoyable view which the White Mountain region or New England itself presents."

"Moses," the careful guide, must not be forgotten by all who visit Centre Harbor and Red Hill. The bowling alleys, pleasure boats and fine livery stables attached to the house contribute to the pleasures of the trip. The travel to and through this section of the country is largely on the increase, and the stage line connecting with the Senter House has increased facilities for conveying parties to the White Mountains over this very pleasant route. The drives about Centre Harbor are delightful, the roads winding through the valleys and over the hills, giving a good variety of fine, wild, romantic scenery.

Our party having used up their allowance of time left Centre Harbor with regret, fully resolved that the excursion by the band would well bear repetition, when all who can should avail themselves of the opportunity to visit this most delightful and lovely place. H., FOR THE PARTY.

POLICE COURT, Monday, Bufford, J.—Edward Goodrich pleaded guilty to a charge of drunkenness, and was fined $3 and $3.86, costs.

Charlotte Hutchins, for adultery, was bound over in the sum of $500,—committed to jail.

Tuesday.—Martha Dow, for being drunk, was fined $1 and costs, $3.86,—committed.

Timothy Hogan, for being drunk, was fined $3 and costs, $3.86: also committed.

Richard Townsend, same offence, fined $4, and $3.92, costs: committed.

William Ross, same offence, fined $2, and $3.86, costs: committed.

Benj. Odiorne, same offence, fined $3, and $3.86 costs.

RUMSEY'S MINSTRELS.—The concert of this troupe will take place at the Temple this evening. The satisfaction which this company gave our citizens by their entertainments here last Spring, is a guarantee of a full house.

From the Milwaukee "Daily Wisconsin."

TO OPEN SOON.—The red store, which has been enlarged and fitted up in such splendid style, the second door above the State Bank, in East Water street, is to be opened by Messrs. Sherwin, Nowell & Pratt, in the course of a fortnight or so. Previous to that, however, the jobbing department will be opened independent of the retail trade. The rooms for the entire establishment are very extensive, everything has been arranged with good taste, and the firm design to add to the attractions of Milwaukee, one of the finest dry goods houses in the city.

The "party of the second part" of the above new firm, is Mr. Winslow A. Nowell, of this city; very favorably known here, and also in New York, where he has been in the employ of Messrs. E. S. Higgins & Co., the great carpet manufacturers, for several years. May the success he merits still attend his well directed efforts; and may his new residence, where the sun sets, never cause him to regret leaving the dear old home spot, where it rises.

☞ Our old friend and quondam correspondent, "Islington," has turned Dutchman, sure—for he sends us his card all the way from Milwaukee, printed in German. Good luck to him, always and everywhere.

FOR OUR SOLDIERS.—It having been proposed by many of the ladies of Portsmouth to give the soldiers of the Invalid Corps a collation, notice is hereby given that all who wish to contribute are requested to bring their donations to the campground, at the Ropewalk, on Wednesday, Aug. 19, before 2 o'clock.

PER ORDER LADIES' COM.

☞ The temporary necessity for the use of private shinplasters having passed away, only postal currency and coin, will hereafter be received at the Chronicle office.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists most all sell it. HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.

This last is well established. It is the most simple and best operating machine yet made, although forty different kinds have been put into the market, the greater part of which have proved utter failures.

A sale of three hundred in this city, and a still-increasing demand, prove the popularity of these wringers. No family should be without one.

We have Iron Framed Wringers at a lower price, but the *best is the cheapest.*

This Wringer has had an immense sale. In this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the *"ne plus ultra"* of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." In consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to pro ure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody, containing startling disclosures. Dr TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents in money or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for stoppages, irregularities, and other obstructions in Females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Morning Chronicle.

"TRUST IN GOD AND PERSEVERE."

BY OLIVER OAKWOOD.

Brother, in life's morning clouded,
Has the sunlight ceased to shine;
Is the earth in darkness shrouded,
Would'st thou at thy lot repine?
Cheer up, brother, let thy vision
Look above, see light is near;
Soon will come the next transition;
"Trust in God and persevere!"

Brother, has life's hope receded,
Hast thou sought its joys in vain;
Friends proved false when most needed,
Does rejoicing at thy pain?
Cheer up, brother, there's a blessing
Waiting for thee, higher fear;
Face forgiving, sins confessing;
"Trust in God and persevere!"

Brother, all things round are calling
With united voice, "be strong!"
Though the wrongs of earth be galling,
They must lose their strength ere long.
Yes, my brother, though life's trouble
To dry the tear to darkness doomed,
Soon will vanish like a bubble;
"Trust in God and persevere!"

He, from His high throne in heaven,
Watches every step we take,
He will see each letter given,
Which our foes in anger make.
Cheer up, brother, He has power
To dry the tear to darkness doomed,
And, though fiercest tempests lower,
"Trust in God and persevere."

Brother, there's a quiet slumber
Waiting for thee, in the grave;
Brother, there's a glorious number
Christ in mercy deigns to save;
Wait then, till life's quiet even
Comes round thee, calm and clear,
And all called from earth to heaven,
"Trust in God and persevere!"

☞ People in England do not fancy "a number of large crinolines eight feet above the foot pavement, and projecting three feet into the public thoroughfare," and a dealer who displayed them in such a manner, was recently taken before a Bow street magistrate in London, and fined one shilling and costs, for having an "unsightly and disgusting exhibition" in front of his shop.

In Lady Morgan's Memoirs a story is told of a gentleman who denounced a certain Bishop, and concluded a violent phillipic by declaring that this lordship was so heretical in church observances that he would eat a horse Ash Wednesday! "Of course he would," said a friend of the Bishop, "if it was a *fast* horse."

☞ The following advertisement appears in the columns of a Paris paper: "A student of three years' standing at a German University wishes to marry, after taking his degree. He is desirous of finding a young lady who will advance him money to pay the sum necessary to finish his university career. Thus bound to his fate, she would, after two or three years, become his wife."

☞ Pond lilies are brought into the carn at Berwick by boys, who sell them to the passengers. A few days since a gentleman purchsed a bunch for five cents and was challenged by a fellow passenger to retail them on the train for the benefit of the U.S. Sanitary Commission. He did so and realized $3.36, which sum has been duly forwarded to the Commission in New York.

Bacon says that labor conquers all things, but idleness conquers more people than labor does.

☞ The Governor of New-Jersey having postponed drafting for thirty days to try the system of volunteering, the Newark Daily Advertiser expresses the opinion that the quota of the State will be filled in this way within the prescribed time. On Monday 115 volunteers came forward at Newark.

☞ The Gloucester Telegraph calls this the neatest conundrum, not yet in print: "Why is i the happiest of the vowels?" The answer is: "Because i is in the midst of bliss, e is in hell, and all the others are in purgatory."

No, it requires time to make a great and good man; it requires time for energies to be developed and roots of character to strike deep. It requires more than mere nominal trials, it requires the real rough hards of anxiety, toil, solicitude and deprivation of spirit, to get hold of the inner man and draw him out in all his interior strength. The grapples with which he is drawn out may be replete with barbs, and the operation may not be so smooth as could be wished. But it is a treasure worth drawing out, to be a man, and a strong man; and all the wealth of the Indies were a trifle in the comparison.—*Nichols.*

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presuming the unfortunate victims of folly that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Rheumatism, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dimness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c are some of the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment should board in the city or be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $3 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most delicate females need not hesitate to call, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE

COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Store yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity for boiling pails for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangement for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in all parts of the country, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustibles being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot escape, and are kept by the rapid expansion of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe of flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Olse, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

The Chronicle.

Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good; be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party. generally. It is a spirit not to be encouraged—a common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of a popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*.

EMANCIPATION IN SURINAM.

On the 1st of July the slaves of Surinam, a Dutch colony in South America, were emancipated, in accordance with a law adopted by the Legislature of Holland on the 8th of August, 1862, with the cordial sanction of the Dutch Government. The slaves of the colony form an overwhelming majority of the total population, numbering about 65,000 persons, in an aggregate population of 61,000. More than one-half of the negroes belong to the Moravian Church, the missionaries of which publish in the papers of their denomination some interesting information on this important event, and especially, on the spirit in which the slaves received the news of their approaching liberty.

The Rev. Mr. Jansa, one of the oldest and most experienced missionaries of the colony, says:

"The intelligence of the speedy emancipation of the negroes, naturally awakens in me, who have so long labored in this Colony, the most heartfelt joy. Having been requested by several planters to make known to their slaves the Proclamation of the Governor and the Emancipation law, I did so They assembled neatly dressed, in church, and I tried to explain everything to them, getting them to repeat aloud all that I said, so that there might be no misunderstanding. The joy and praise of the poor negroes were touching. They had previously heard, but refused to believe the news, saying: 'The whites have deceived us so often!' But now that I made known the truth and told them, 'It is really so, our Saviour has influenced the King and his counsellors to set you free on the first of July, 1863'—they doubted no longer. Big tears of joy rolled down their black cheeks, and with jubilee joy they exclaimed: 'Our dear teacher tells us; we believe it: we will be free! What our mothers heard of ere we were born, that is now come to pass that we shall see! Thanks, thanks unto God."

Mr. Jansa adds, that after he had proclaimed the coming emancipation on a number of plantations, fifteen of the native assistants of the missionaries went to the Citizen-Captain (chief magistrate of a district) and begged him to thank the Governor, and through the Governor the King, in the name of all the plantations of this district; they added that so long as they should continue slaves they would show themselves to be diligent and obedient, and would endeavor to prove that the liberty bestowed them should not be abused; and that when they were free they would teach their bread and support their families faithfully; finally they asked permission to send their children at once to school, and in accordance with their laudable wishes schools were at once established with much success.

DIALOGUE.—Uncle Sam: Secesh: Copperhead.—*Secesh.*—Stoop down here, Uncle!

Uncle Sam.—What for, Secesh?

Secesh.—I want to cut your throat!

U. S.—Guess not. It don't want cutting.

Copperhead.—Yes, stoop down, Uncle!

U. S.—What! do *you*, too, want to cut my throat?

Copperhead.—O, no—never! I wouldn't do such a thing for the world! I only want to hold your arms pinioned behind your back while Secesh cuts it. That's very different, you see!

U. S.—No, I don't see it.—*Tribune.*

PICKET TALK.—A letter from Gen. Roseeran's army states that a day or two since a rebel asked, in stentorian tones:—

"Where's Old Rosey?"

"He's coming. You'd better skedaddle."

"Oh! we're not afraid. Old Bragg will kill him yet."

"How's he going to do it?"

"Keep running till he breaks Old Rosey down."

A grand jury in rebeldom ignored a bill against a huge negro for stealing chickens, and before discharging him from custody, the Judge bade him stand reprimanded, and he concluded thus: "You may go now, John, but (shaking his finger at him) let me warn you never to appear here again." John, with delight beaming in his eyes, and a broad grin, displaying a beautiful row of ivory, replied: "I wouldn't bin here dis time, Judge, only de constable fotch me."

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one order—branch of practice, enables him to perform cures such as no other Physician can, and his facilities are unchallenged in comparison with the most eminent Physicians of the old World, of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases including some of the most success.
YOUNG MEN.
Young Men addicted to secret habits, who have imposed their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it, 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other med cine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see circulars which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 10 to 1 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

Portsmouth, N. H.

THURSDAY, AUGUST 20, 1863.

THE REBELLION.

Col. Burke, of Gen. Rosecrans' army, states that Pemberton's Vicksburg army has *gone* to pieces. The Texans have left in a body for home, and the Tennesseeans and Alabamians were leaving it in numberless squads. Over ten thousand Tennesseeans were reported to the Provost Marshal of the army of the Cumberland as deserters from the rebels, having come into our lines since Gen. Rosecrans' advance on Tullahoma.

The Associated Press despatch of a flank movement by Lee, was wholly erroneous. The corresponding move alleged to have been made by Meade, was simply a change of camps for fresh water, customary and necessary in such very hot weather.

All last week our forces at Charleston exchanged shot and shell with the rebels night and day, with probably but little damage on either side. The enemy's object was to retard Gen. Gilmore's siege works on shore, but they have all been perfected. Gen. Gilmore has been sick, but is now much better. Our shore batteries in getting the range of their guns, knocked three holes in the walls of Sumter. The general impression prevails that the rebels are evacuating Sumter, and will blow it up as soon as the assault commences. Out of nearly thirty guns on the parapets ten days ago, but six now remain; most of those in the casements had previously disappeared. The rebels have erected a line of earthworks a mile long on James Island, from Fort Johnston to Secessionville, although they have but few guns mounted as yet.—This is supposed to be the destination of the guns taken from Fort Sumter.—The indications are that the rebels will depend principally upon their obstructions and interior line of defences. Union reinforcements continue to arrive daily, and quite a large army is now on the island. On Sunday but two shots were fired during the day. The grand attack was to take place on Monday, 17th, when the Ironsides would engage Fort Wagner and keep her silent, whilst the monitors and shore batteries engaged Sumter, and the wooden fleet and mortar schooners engaged Fort Moultrie. The rebels are said to have piled sand bags on the wharf in the rear of Sumter against its rear wall 40 feet high, completely protecting the magazine from the shore batteries of Gen. Gilmore.

The rebel steamer Robert Habershaw, which has been watching our advance movements on the Savannah river, exploded her boiler, destroying the vessel and killing all the crew. Gen. Mercer commanding at Savannah, is impressing one-fifth of the able-bodied slaves of Georgia, for work on the fortifications, and all the negroes in Savannah have been seized for the same work. The ram at Savannah came down the river on the 10th, intending to run out to sea, but broke one of her engines and had to put back. She is made to the Atlanta. A new ram is being built there. Several heavy guns have been sent to Charleston from Savannah.

HAVING ON TWO FARMS.—There are two that join each other. On one no strong drink is used—Mowing is commenced at about half past 4 o'clock, and ended for the day by 10 or 11 o'clock. Supper is taken at 3 and about an hour's work is done after that. Then there is time for bathing and getting rested for an early start in the morning. The work is well done and those who labor find 'haying a pleasure. On the other not much is done before breakfast. Dinner is late—supper the same. Liquors are used. The noise is disagreeable. The grass is cut in the most bungling manner, not being mowed smooth. It is not raked clean. All of the work goes hard; and the hands do not appear to enjoy anything well. Reader, which of these methods do you think is best?—*News Letter.*

☞ Fifty seven officers and seamen of the British steamship Georgia, wrecked on Sable Island, were picked up by a bark which has arrived at Portland. They were in three boats, and had been out three days and nights.

NOVEL PICNIC.—The waiter girls of New York have formed a Union, and announce their first annual picnic to take place at Cremorne Gardens on Thursday.

☞ The Confederate loan in London rallied on the 6th to 23 a 21c discount, but relapsed on the 7th to 27 a 25c discount. On the 8th it rallied again, closing at 24 a 22c discount.

☞ Gen. Burnside has ordered the impressment of six thousand laborers from the negro population of Kentucky, to be employed in the construction of military roads in that State.

☞ Hon. Henry Winter Davis, of Maryland, is speaking in Maine in behalf of the Republican candidates. The political campaign has been opened there with unusual animosity between the parties.

☞ The Hon. John Bell's wife arrived at Cincinnati from Nashville, on Thursday. It is believed at Nashville that her poor old husband would have remained loyal but for her influence.

THE JEFF. DAVIS CORRESPONDENCE opens rich. Little thought had the traitors who wrote these letters to Jeff. Davis in 1860, that his library would be ransacked by Yankees in 1863, and their treachery published. Among those just out, are letters from Ex-Gov. Reynolds of Illinois, Ex-Senator Brodhead of Pennsylvania, Prof. Hackley of New York, Price Williams of Mobile, and Lamar and Oliver of Mississippi—All these were dated in 1860.

Ex-Gov. Reynolds says:

"I am heart and soul for the South.—If the public mind will bear it, the seat of Government, the Government itself, and the Army and Navy, ought to remain with the South, and the Constitution. I have been promulgating the above sentiment, although it is rather revolutionary. All the slave States must separate from the North, and come together. The general Secession ought to be accomplished before the 4th of March. Mr. Buchanan deserves immortal honor for keeping down bloodshed.

If the slave States would unite and form a Convention they might have the power to *coerce* the North into terms to amend the Constitution so as to protect slavery more efficiently."

Perhaps the reader may remember to have heard the saying, by some pretended loyal men of the North, that the U. S. Government has no right to *coerce* a State!—But here is one of these same men, advising a *Convention to coerce* the whole North.

Price Williams, of Mobile, says, under date Dec. 14, 1860:—

"The only terms upon which I would entertain a proposition for compromise, would be to let the Southern States go into secession.

Let Lincoln and Hamlin resign. Without this feature of their resignation heed no proposition.

That being done, then to repeal the Liberty Bills, and to amend the Constitution, so that any State, which failing to surrender slaves peaceably, should be disfranchised in the Presidential Electoral College. But why speak of compromise?"

J. D. McPherson says, under date Washington, Nov. 19, 1860:

"If the cotton States will only manage rightly, they can and will be joined by Virginia and Maryland, and undoubtedly by Kentucky. These States will not secede on account of Lincoln's election merely, but they will join in obtaining guarantees, and if these guarantees be refused, then they may make that a cause for secession.

What guarantees should be demanded? 1. A *veto* by the *South* upon *every* act of Congress.

2. A right to exclude any candidate from the Presidency.

There are many ways in which this could be effected in substance.

1. By increasing the representation from the South, either according to actual population, which would be temporary, or,

2. By increasing the representation according to area, which would be permanent.

3. By making a two-thirds vote necessary to pass laws in Senate or House, or both."

Wm. Anderson, of Ann Arbor, Mich., writes, Jan. 11, 1861:

"The Democrats here stand up manfully for the rights of the South. We have many fiery arguments in our humble way and sometimes blows and bloody noses.

I have insisted that Massachusetts refused to come into the Union unless allowed to import slaves for twenty years, and that the time expired in 1808. If this is the fact you will confer a favor by informing me of it and where and in what work it may be found.

If this is the fact, and you or some Democratic Senator would state this in some one of your speeches, and where it may be found, it would give us a powerful club to break their heads with.

I take the New York Journal of Commerce."

John Cowdon of Hazelhurst writes, Dec. 17, 1860:

"The article enclosed is from the Day Book—which has done more to enlighten the whole country on the negro question than all the balance of the papers put together. * * If old Buchanan has any sense, he will surrender the forts at Charleston to South Carolina; this will prevent a collision and bloodshed, which for a time will leave half the Southern States in the Union. But if he does not deliver them to South Carolina, that glorious State will open the war—the whole South will make common cause—one or two great battles may ensue, where two to four hundred thousand will be engaged—the South will be victorious, the North will grow sick of the fun, for they will have 3,000,000 people at home crying blood or bread, they will be glad to treat with us, divide property (Federal) at Washington, the army and navy and the territories—this will be the end of the whole affair. You will be the Southern commander and I now ask the position of one of your aids, if I have got (in your judgment) enough sense to fill the place.

Lamar of Mississipi writes, Dec. 24, 1860—of their late election, thus:

"The friends of Southern independence, of firm and *bona fide* resistance, won an overwhelming victory; but I doubt whether there is any precise plan agreed on. In the meantime, the disunion sentiment among the people is growing every day more intense. The submissionists are routed, horse, foot and dragoons; and any concession by the North will fail to restore that sacred attachment to the Union which was once so deeply radicated in the hearts of our people."

Let every Northern freeman, especially every workingman, look at these plain statements of treachery, rebellion and civil war, all arranged months beforehand and resolved years beforehand—not by the *people*, the workingmen of the South, but by the Lords and Masters and Aristocracy there, and agreed to by their tools and servants, the traitors of the North. C. T.

[From our Regular N. Y. Correspondent.]

AT HOME, August 7.

"Far from the city's din a spot I knew
Where in its pride a stately elm tree grew;
I loved it well,—and oft, when far away,
Weary and restless with the toils of day,
I thought of it;—
It whispered to me of the woods and streams;
It rustled through the quiet of my dreams,
Making the night Arcadia."

I thought of it, and came to it. Each twig and leaflet nodded a merry welcome, and the summer wind sweeping through the foliage seemed to whisper the melody of "Home Again."

To-day my pen sliding from its silver casing hesitates in the formation of a letter to its "Dear Chronicle," so much in variance are its present surroundings with those which mark the scene of its previous efforts. The piles on piles of stone and marble, the tides of humanity which flood to and from the stores and workshops, the unceasing rush of vehicles, and the din and turmoil common to the city, have given place to an atmosphere of agreeable quietude, with rural surroundings shaded by the branches of the majestic elm. And here I wonder if the one which arches overhead should crush through the roof, whether it would be considered an *elm-entree process.*

Being here—perhaps a narrative of the mode in which the position was achieved, will be interesting.

At Pier No. 9, on the North River side of the Metropolis, the would-be rusticationist may find the sign, "New York and Portland Steamship Co." Having made the necessary preparations for a three-weeks' excursion, I made myself the proprietor of a rectangular bit of pasteboard setting forth that I had secured a passage on the "Farkersburg," a fine propeller with two masts, and was entitled to good stateroom accommodations, and a seat at what I subsequently found to be a well supplied table.

At 4 P. M., we steamed slowly out from the network of masts and spars, which fringe the city, and commenced our voyage. The passage through the Sound was lovely. All the way up we were encompassed by a host of small and large sailing craft, availing themselves of the favorable south wind. Blackwell's Island looked fresh and green, and familiar—not from a residence there—I never was "sent up,"—but from daily sight of it in my passage up and down the river, during a summer residence at Harlem.

At Fort Schuyler there is quite an encampment, and the white tents looked pretty in the rays of the setting sun, which gilding the windows of the adjacent houses with crimson and gold, danced across the silvery waves of the Sound, and bid themselves in the rich green foliage of the waving tree-tops, as if to catch a last glimpse of the departing day.

As the daylight faded away, it was natural that we should look to each other for a contribution to the evening's entertainment. The company included six ladies and seven gentlemen, including myself among the latter,—(a very natural mistake for a stranger to fall into!) and we were all soon on excellent terms—readily, as congenial persons can, when thrown together on an excursion of this nature.

I can hardly recite the plans for amusement which were devised. Some derived it from almost continuous sea-sickness, and talked very earnestly to the fishes over the side; while the rest united in some very pretty ballads. "When this cruel war is over," and "Kingdom Coming" being on the programme, I thought how much nicer the first name be with the "When" omitted.—A passenger who had been travelling the day before, asked "which way Erie Stock went yesterday". I told him "east and west," but bearing him repeat the question elsewhere, concluded my answer was not satisfactory, and soon after retired to my stateroom and slumbered quietly, till the irregular motion of the vessel round Pt. Judith at 3, A. M., rendered the open deck more comfortable.

Here was a scene of complete magnificence. The ship was rolling heavily on the piling waves, the wind was abaft and fresh, and, filling the sails, with the propeller forced the vessel through the water at a nine knot speed. High up in the heavens, the moon at its full was throwing a broad stream of light over the water, and the waves, as they rolled up and toppled over, were tipped with its silver and appeared like lines of crystal, chasing one another like children at play. The sun rose while the moon was sinking in the western heavens. There is nothing more grand than a sunrise at sea. Few can describe it—I am not of that favored few. As it mounted and grew apparently smaller, I wrapped myself in overcoat and enjoyed a morning nap, from which I was awakened by what I at first supposed to be a fly, but which my opened eyes proved to be a straw in the hands of a fellow voyager. I soon joined the group in an attack on a substantial breakfast below. We were very successful! After this, a few games of euchre were introduced into the programme, and then securing an arm chair I passed the day reading, smoking and watching what of interest transpired.

During the morning we steamed between the Vineyard and Nantucket and, leaving these, Cape Cod, in its long sandy waste, stretched along almost interminably on the left. At noon a fellow passenger lost his hat overboard. He was the most surprised party. I could see nothing strange in the fact of a beaver taking to the water.

Thursday was a gorgeous day—not a drop of rain, scarcely a wind-cloud, and the night was even more grand than the last. At early morning no land was in sight, and we realized the peculiar feeling of being alone on the waste of waters, with no company but a few privateers.' At half past 6 Cape Elizabeth reported herself (?) on the port bow, and half an hour later we had passed the lights, the sails were furled, and we were propelling slowly among the beautiful islands of Casco Bay. No more pleasure can be condensed than was found in this trip of thirty-nine hours, and I could not have chosen two more delightful days, even with the whole calendar at my disposal. To my friends I would say—if you wish a change of route, if you are sure of pleasant weather, if you are not liable to sea-sickness—take the semi-weekly steamer from New York to Portland; if you can't ensure these—don't do it. NEWINGTON.

☞ In the case of the Peterboff and cargo the British Government has made an appeal to the Supreme Court of the United States. In the interim the Secretary of the Navy has directed that application be made for and order for the sale of the ship cargo, and tackle to the United States. The vessel will be a valuable addition to the navy.

Quilp is of opinion that there are no "good grounds" for the very wry faces which some people make now-a-days over what they are accustomed to call their "coffee."

If the devil were chained to a post, men would be no better than they are; if he couldn't come to them, they would go to him.

ADJUTANT GENERAL'S OFFICE,
Concord, August 19, 1863.

[L. S.] For the information of all interested, it is hereby announced, that the draft is made according to the quotas assigned to the several towns, or sub.-districts, by the Provost Marshal General.

The District Provost Marshals have nothing to do with the claims of the different towns for men heretofore furnished. But, when the Governor shall make it appear to the Provost Marshal General, that particular towns have heretofore furnished a surplus of men over their quotas, "An order will be issued discharging from the service of the United States a number of men called into service by the present draft, from said towns, equal to the surplus proved to have been furnished heretofore. Towns will thus get credit actually for their excess on former calls."

It is therefore necessary for such towns as claim to have furnished a surplus of men, to present to the Governor satisfactory proof of such surplus having been actually furnished, and if this proof be presented in season, the men may be discharged before leaving the State

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call, and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

They must present themselves with the substitutes on the day they are ordered to report, between the hours of 9 A. M. and 1 P. M.

Those wishing to commute for service must pay $300 to James M Lovering, Collector of the Internal Revenue, Exeter, N. H., or at the office of William H. Hackett, Portsmouth, N. H., and procure DUPLICATE receipts for the same, before making application to this Board for certificates of exemption.

A drafted man may pay $300 in commutation of services or furnish a substitute, AFTER he has presented himself at the Rendezvous and been accepted by the Board of Enrollment

Henceforth, a Reward of Ten Dollars will be paid to any person upon the arrest and delivery of a deserter to the Provost Marshal or either of his deputies.

Any person claiming exemption on the ground of ALIENAGE must file before the Board an affidavit stating, 1st that he is an Alien and setting forth the government of which he claims to be a subject. 2d. the time when he came into the United States, and where he has resided since that date. 3d that he has never declared his intention to become a citizen of the United States, and has not exercised the right of suffrage by voting at any election in any State. 4th that he claims to be exempted from Military Service on the ground that he is the subject of a Foreign Government, and has not declared his intention to become a citizen of the United States, and has never voted in any State—the affidavit to be supported by any competent evidence the party may offer.

Persons claiming exemption by reason of Unsuitableness of Age must present an affidavit setting forth the claim, to be supported by as much of the following evidence as may be in their power.

1st. By an authenticated extract from the legal registry of Births, if there be any such registry.—2d. By any other authenticated documentary evidence tending to establish the fact of age. 3d. By the affidavit of the Parents. 4th. By the affidavit of such other respectable persons, (not less than two,) heads of families, as are most likely to be informed on the subject.

Persons drafted who may be too sick to report upon the day ordered should forward the affidavit of a Physician, stating the facts in the case and how long it will be in his opinion before the man will be able to travel.

No certificate of a Physician or Surgeon is to be received in support of any claim of drafted men for exemption, unless the facts and statements therein set forth are affirmed or sworn to before a Civil Magistrate competent to administer oaths.

DRAFTED PERSONS in the County of Rockingham requiring blank forms of certificates, from No. 25 to No. 30 inclusive, can obtain them by applying at the office of the Provost Marshal between the hours of 12 o'clock M. and 1 o'clock P. M., and at the office of James W. Lovering, Esq., Exeter, N. H., and to William S. Ring Esq., Northwood.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to retrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point needed in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

Probate Advertisements,

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ Assistant Secretary of the Navy, Fox visited the Portsmouth Navy Yard on Wednesday morning, and was received with the customary salute.

POLICE COURT, Tuesday,—Frank W. Drake, for a breach of the peace, was put under bonds of $400 to keep the peace, and was ordered to pay costs of prosecution, amounting to $8.62.

☞ The U. S. frigate St. Lawrence, from Portsmouth, for Port Royal, was spoken, 15th inst. off Block Island.

ROCHESTER, N. H., Aug. 18.

The annual Session of the Independent Order of Odd Fellows of New Hampshire convened at 11 o'clock this A. M. A very large delegation is in attendance, and nearly all of the subordinate Lodges are represented. The Lodges return 90 members more than last year, which shows a healthy and prosperous condition.

The Officers elected for the ensuing year are as follows:—

M. W. Grand Master—W. P. Buel, of Nashua.
R. W. D. Grand Master—J. S. McFarland, of Concord.
R. W. Grand Warden, Ira Doe, of Rochester.
R. W. Grand Secretary—Joel Taylor, of Manchester.
R. W. Grand Treasurer—Jos. H. Gardiner, of Portsmouth.
R. W. Grand Representative to the Grand Lodge of the United States—Benj. M. Parker, of Portsmouth.
R. W. Grand Chaplain—S. S. Davis, of Nashua.
Grand Marshal—John E. Rider, of Portsmouth.
Grand Conductor—C. H. Brown, Manchester.
Grand Guardian—Jefferson Gilbert, Laconia.
Grand Master of this District—Jesse N. Wilson, Portsmouth.

The next meeting of the Grand Lodge will be holden at Lebanon the third Tuesday of August, 1864. O. F.

☞ The Portland Press states that a little son of Francis B. Peabody, Esq., of Chicago, 2 years of age, perished on Monday under very distressing circumstances, in Portland where the family were visiting. The little fellow was placed in his crib, sleeping quietly. Two hours afterwards, the nurse upon entering the room discovered that he had pushed his body through the bars at the side of the crib and was hanging by his head, lifeless.

☞ A few additional particulars of the terrible earthquake at Manilla on the 3d and 4th of June last have been received. The loss of life among the inhabitants is represented to have been very great. The first shock was experienced at about seven o'clock on the 3d, and several followed until six o'clock the next evening. The Cathedral, the Royal Chapel, and the Churches St. Domingo and St. Isabella, the palace, military hospitals and Tribunal of Commerce were all razed to the ground. The San Fernando and French Hotel disappeared, with numerous other houses of note. A Spanish steamer, which was lying off the port at the time, was wrecked and all hands lost.

☞ The "Stonewall Jackson" monument in England, is to be of marble, not granite, of heroic size, to cost $7500, most of which is already subscribed. It is not intended that the subscriptions to the statue should imply any opinion on the merits of the American struggle. The committee say "they will be taken solely and simply as a recognition of the rare personal merit of Gen. Jackson." Lord Campbell, Lord Eustace Cecil, the Earl of Donoughmore, Sir James Ferguson, M. P., and twelve or fifteen more baronets and members of Parliament, are members of the committee.

The Houlton (Me.) Times says two ladies engaged in picking blueberries near the outskirts of the town were surprised at the sudden appearence of a bear in the bushes, not two rods from them. Bruin gave a growl and the way crinoline skedaddled from that place wasn't slow.

☞ A despatch from New York, Wednesday noon, states that the draft in the 6th district was progressing. There was no trouble in any part of the city. All business was going on as usual, and a general feeling of perfect security pervaded the whole community. The military preparations are perfect for the full maintenance of order.

☞ Rev. Erastus O. Haven, D. D., of Boston, late editor of Zion's Herald, has accepted the office of President of Michigan University, and leaves Boston to enter upon his duties in a few days.

☞ The Delaware and Raritan Canal Company, and the Camden and Amboy Railroad and Transportation Company have donated $30,000 and placed it at the disposal of the Govesnor of for the purpose of forwarding troops as speedily as possible, to meet the call recently made on the State by the Federal Goverment.

☞ A party of Bedouin Arabs arrived in New York by the steamer Recla. They propose giving exhibitions in that city, showing the peculiarities of their sports and other social institutions.

GEN. PIERCE TO SOME RETURNED SOLDIERS.—At Rockport, on the 12th inst., a company of the 50th Mass. regiment was reviewed publicly. Ex President Pierce was in town and was called on for a speech, which is thus briefly reported in the Gloucester Telegraph:—

"He said he did not come here to speak, but being here to enjoy the pure atmosphere of our beautiful town, was permitted the pleasure of uniting with the people in welcoming home the boys of the "Fiftieth."—They had gone forth at the call of their country to vindicate and defend the Union, and right nobly had they done their duty, and returned with honors upon their heads; it would be the proudest legacy that could be left to their children. This Union had been formed with a written charter, plainly setting forth the rights and privileges of those living under it, and he hoped that whenever any attempt was made to set aside those provisions, that they would be ready to march forth in its defence. They had withstood the perils of climate and the perils of war, and he was proud to unite in welcoming them to their home once more."

☞ The Mobile Evening News of the 3d instant contains a column of editorial items all showing that in Mississippi, and some parts of Alabama, there is a feeling of despondency at the Confederate prospect of success, and a willingness to return to the old allegiance. The editor attributes this state of feeling to an unholy desire of the people of the districts to save their property, and tries to convince them that to yield to the United States would be to lose everything, by being compelled to pay our immense tax.

☞ An iron clad ram for Russia, building in England, has been hurried off to Russia incomplete, in view of eventualities. A dispatch from Warsaw states that in pursuance to orders from St. Petersburg, a council of war has been held in that city. At its termination notice was given to the Warsaw and Vienna Railway Company that for the space of one week they should suspend public traffic, and prepare all their carriages for the conveyance of the military.

☞ It is stated as a singular fact that religious worship is conducted in Chicago in more languages than in any other city in the world. A person making the rounds of the various houses of worship would in a single day hear services in English, German, Swedish, French, Welch, Dutch and Norwegian, besides some supposed to be conducted in unknown tongues.

—— MANCHESTER MERCANTILE ASSOCIATION, is the name of a new organization in Manchester the object of which is to look after the general interests of the city.

—— Mason Village, is yet ahead in the production of large blue berries. One was picked this week which measured two and one eighth inches in circumference.

☞ In Chicago (says the Tribune) there are over four thousand children of school age in the streets running wild, and probably double that number from five to six years old are either worrying their parents or learning vice in the street.

☞ One of our recent cavalry expeditions from Corinth released 250 conscripts for the Rebel army captured by the guerrilla Forrest. Another company came into Corinth to enter the Union service, having rebelled successfully against the Rebel conscription.

Why is a secesh house occupied by Union troops like the copyright of a book?—Bucause it is "entered according to the act of Congress."

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.

This fact is well established. It is the most simple and best operating machine yet made, although forty different kinds have been put into the market, the greater part of which have proved utter failures.

A sale of three hundred in this city, and a still-increasing demand, prove the popularity of these wringers. No family should be without one.

We have Iron framed Wringers at a lower price, but the best is the cheapest.

This Wringer has had an immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions."—No family should be without it. Try one; if not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can *offer to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

Morning Chronicle.

KENTUCKY MATTERS.—Much wind and not a little ink have been expended on the Kentucky election; not to settle the question who is Governor, for Bramlette, Union, has a vast majority over Wickliffe, who is sometimes called a Democrat and sometimes a Copperhead; but to show what are Bramlette's politics, and what course he is likely to take.

One New England paper says:

"Let no loyal conservative man of the North be deceived by the miserable boast of the softheads over an Abolition victory in Kentucky."

We have never seen in all our exchanges, the slightest pretence that it was either an Abolition or a Republican victory. Some of Bramlette's opponents before the election, charged him with being a Republican; but it was a groundless charge. He is a Border State Unionist of the Kentucky pattern, ready to *fight* or *die* to save the Union *and* Slavery: but he is not a Copperhead: he proposes to *fight out* the contest.

The same New England paper says:

"They say a *Union* man has been elected, in contra-distinction from a *Copperhead*. Isn't a Copperhead a Union man? Isn't he a loyal man? Was there ever a Copperhead heard of or known who did not believe in the Union as it was, and the Constitution, as it is?"

All these talkers and writers, who have made the most noise about these two things, when they are questioned closely show that they are for giving to the rebel aristocracy, new guarantees in the Constitution, and more power in the Union.

Bramlette's opponent, Wickliffe, appears to be one of these. Gen. Johnston, a partisan of his and of the rebels, just before election, wrote as follows to the Louisville Journal:

I beg leave through your journal to say to Gen. Boyle and Gen. Burnside that all the fuss they made through and by Col. Gilbert in frustrating our convention at Frankfort, has proved but little for the Yankee cause in Kentucky, and I take the liberty to boast with impunity, that we have organized our ticket and will elect it in spite of Lincoln and all his host. We know that a majority of the Lincolnites are in the field, and that we have a large majority for no men and no money.

Kentucky is safe, and your mighty Generals can't help it; we will have the power in Kentucky, and we'll do as we please.—Buff Henry is our candidate for the Legislature, and will be elected two to one.—Hon. Wickliffe will get almost a unanimous vote, and so on for all our boys. So give it up, for we are not afraid of your bayonets now. We shan't back down because our votes may be challenged; neither because you draw your 13th chapter of revised Statutes upon us. We are going to vote, that's it, and we are going to stop this war that you and the rest of the Lincolnites have brought upon us; we'll give neither men nor money, and so save the country.

No time now, gents, for argument; we have you on a pin-hook, flounce off if you can."

The election defeated this Copperhead and his ticket. Bramlette is doubtless better than his opponent. Let us judge him by his works.

☞ The people of Nevada Territory will commence in September to put in motion the necessary political machinery for the organization of a new State. We cannot have too many States, if they are only of the right kind.

"No one should indulge in such horrid anticipations," as the benpecked husband said when the parson told him he would be joined to his wife in another world, never to separate from her. "Parson," said he, "I beg you won't mention the circumstance again."

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 EMBICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, Spermatorrhœa, Seminal Weakness, Loss of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, (frightful Swellings), and the long train of Female Ills, so prevalent among this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which has been the bane and undoubtedly ruining the unfortunate individual for business or society. Some of the sad and melancholy effects produced by the sins of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of their cases. Medicines can also be sent by the Express, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, 7 & 9 EMBICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. No injurious or poisonous drugs are used in treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has the largest and greater experience in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success, gained a reputation which calls patients from all parts of the country to obtain advice.

Among the patients in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Embicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the PARISIAN SECRETA. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for using the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night without being touched, thus saving the expense of re kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using it, are willing to testify, and speak of them in the highest terms of praise

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating furnaces have been to obtain the greatest amount of heat from a given amount of coal, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible goes being lighter than the air, passes off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. Teeth are much more regular so can be built up out the depressions—which can be done to any extent—give the mouth a more natural appearence.

4th. No bad taste arises in the mouth by its use as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. Teeth built on it will weigh it better, save in a few peculiar cases, it is much cheaper than Gold.

No. 60 CONGRESS STREET, Portsmouth, Aug. 1st, 1863.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER as a base for Artificial Teeth, promises all the advantages of Gold, at cost only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth Inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. TRUEMAN, Dr. WELLS, Dr. BOARDMAN, Dr OLIVER and Dr. BENNETT, for practical success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to the Enamel. Regulation of Adults' and Children's teeth will receive particular attention.—All whole and partial Sets of teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external disease, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind
Love truth, do good, be just and fair with all;
Exalt the right, though everyism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

ARTEMUS ON THE DRAFT.—Artemus Ward (Jr. Charles F. Browne) sends the Boston Post the following "Circular:"

CIRCULAR NO. 78.

As the undersigned has been led to fear that the law regulating the Draft was not wholly understood, notwithstanding the numerous explanatory circulars that have been issued from the National Capital, of late, he hereby issues a Circular of his own; and if he shall succeed in making this favorite measure more clear to a discerning public, he will feel that he has not lived in vain.

1. A young man who is drafted and inadvertently goes to Canada, where he becomes embroiled with a robust English party, who knocks him around so as to disable him for life, the same occurring in a licensed barroom on British soil, such young man cannot receive a pension on account of said injuries from the United States Government, nor can his heirs or creditors.

2. No drafted man in going to the appointed rendezvous will be permitted to go round by way of Canada on account of the roads being better that way or because his "uncle William" lives there.

3. Any gentleman living in Ireland, who was never in this country is not liable to the draft, nor are our forefathers. This latter statement is made for the benefit of those Enrolling Officers who have acted on the supposition that the able-bodied male population of a place included dead gentlemen in the cemeteries.

4. The term of enlistment is for three years, but any man who may have been drafted in two places has a right to go for six years, whether the war lasts that length of time or not—a right this Department hopes he will insist on.

5. The only sons of a poor widow, whose husband is in California, are not exempt, but the man who owns stock in the Vermont Central Railroad is. So also, are incessant lunatics, habitual lecturers, persons who were born with wooden legs or false teeth. Blind men (unless they will acknowledge that they "can see it"), and people who deliberately voted for John Taylor.

6. No drafted man can claim exemption on the ground that he has several children whom he supports and who do not bear his name, or live in the same house with him, and who have never been introduced to his wife, but who, on the contrary are endowed with various mothers, and "live round."

A. W.

☞ The City Council of New York, about the time of the Riot, *unanimously* passed an ordinance, appropriating $2,500,000, for paying the U. S. $300 *commutation* money, for every man drafted, in lieu of his personal service. The Mayor vetoed the bill: and we expected to see it passed over his veto, the next day. But no: it has not since been taken up. The City Council, both branches, have *unanimously* passed an new ordinance of almost opposite character. In this new ordinance, the first section appropriates $3,000,000:—the 2nd provides for paying the *relief of families* of drafted and *accepted* men, if they be indigent or firemen, $300 each: Sec. 3, provides that if any drafted fireman decides *not* to go, the city will pay the $300 which his family would have had, to the United States as commutation money. Sec. 4, pays $300 to a substitute; and Sec. 5, pays to his family; with the *proviso*, that not more than $300 shall be paid on account of any one soldier and his family.

This new ordinance is a great *change of base* from the old one; as it really exempts no one except such Firemen as may choose to avail themselves of it. All other persons may either *go*, and let their families take the $300, or get a substitute, and let him take the $300.

Both Boards also concurred in a resolution not to give relief to any families of parties volunteering in any other State.

☞ Dr. Channing was as near a spiritual being before he died as ever were the tangible form, and thus he speaks of those with whom he was so closely in relation:—"We need not doubt the fact that angels whose home is heaven, visit our earth and bear a part in our transactions; and we have good reason to believe that if we obtain admission into heaven, we shall have opportunity, not only to return to earth, but to view the operation of God in distant spheres, and be his ministers to other worlds."

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the earliest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other place in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all the blessings of a good disposition and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. TELLER'S great work on the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

FRIDAY, AUGUST 21, 1863.

THE REBELLION.

It is denied that Price has resigned.

Advices per Columbus from New Orleans, state that by the reopening of the Mississippi, all kinds of provisions had fallen in that city below the New York prices. Flour that was two weeks ago $13 and $14 per barrel, is now sold for $6, and other articles in like proportion. The confiscation of rebel property is going on—the latest seizure being the Bulletin building, with types, presses, &c. There are indications of a movement of the army before long. The 13th army corps, formerly commanded by Gen. McClernand, and now by Gen. Ord, has arrived at New Orleans.

A portion of Gen. Rosecrans' army on the 8th was under orders to move with 10 days' rations,—it was supposed to Atlanta, Georgia.

Gen. Rosecrans' army is in motion and East Tennessee, it is hoped, will be speedily released from rebel misrule.

The rebels are heavily reinforcing Mobile.

The Governor of Texas has taken the field with 10,000 State troops.

In an article on Gen. Pemberton, the Mobile Advertiser says of the paroled Vicksburg garrison: "The Texas and Louisiana regiments have crossed the Mississippi river, and are lost to this army, and of those on this side nearly all have gone home, with or without furloughs."

Recruiting for the Union army is being prosecuted with great success among the rebel prisoners at Fort Delaware.

THE IRONSIDES AND THE MONITORS.—The manner in which the armor of the Ironsides has thrown off the rebel shot at Charleston causes general satisfaction, though she has not been closer than 1,800 yards to the Rebel batteries. Most of the heavy shot crumbled to pieces on her solid sides, and rifled shot have only made indentations, without doing the slightest damage. She has received two ten-inch shot on her port stoppers, and even there they made only indentations, without doing any harm to them. The steel-pointed shots have made cuts about an inch deep. She will, however, be tested within 800 yards when the grand assault is made.

The monitors bear many honorable scars, but have not been injured in their effectiveness by the heavy cannonading they have undergone. They have yet heavier work to do, and Admiral Dahlgren is reserving their guns for better purposes than shelling sand-hills. A fifteen-inch gun is not considered safe from explosion after five hundred discharges, and as they have each fired about two-hundred projectiles, he is reserving the remaining three hundred of their effectiveness for Sumter.

The ability of the vessels to stand a cannonading for an indefinite period is, however, a settled question. Their defensive powers are unlimited and the safety of those on board assured. In all the month's heavy firing but two men were injured—one by the fragment of a flying shell and the other by concussion from leaning against the turret at the moment a heavy shot struck the outside.

☞ The annual meeting of the stockholders of the Boston & Maine Railroad is to be held at Lawrence, Sept. 9. The Directors' Report shows a very prosperous state of affairs, the accident at the Bridge over Charles river in November being the only misfortune during the year. Two dividends of four per cent. each have been paid. The whole amount which has been paid on account of the Charles River accident is $46,479.73, on forty-one claims for personal injuries. It is thought that this amount will not be materially increased.—The gross receipts exceed those of 1862 by the amount of $218,552, and are larger than those of any year since the operations of the company commenced. The net earnings are also larger than in any previous year.

☞ During the terrible conflagration at Cohoes, N. Y., one of the work-women, Kate Donnelly, jumped from a window, but her skirt caught in the window sill. The cries of the poor girl were agonizing in the extreme. A man went to her aid upon a ladder, and succeeded in reaching up to her, and getting hold of her, but her skirt was firmly fastened and he was unable to pull her down, and was finally forced by the flames to leave her. Thus she hung and burned to death, in the presence of thousands of horrified spectators. Her remains, charred and blackened, were subsequently recovered.

The Albany Argus, however, says that former reports have been greatly exaggerated, and that but three lives were lost, while nineteen persons were more or less injured, none dangerously. All the operatives of the stubbly mill are now accounted for.

☞ The steamer DeSoto recently captured a schooner and two steamers, blockade runners, thus obtaining over 1500 bales of cotton.

A WEEK IN MAINE.

The ride from Brunswick to Bangor is very beautiful. The cars run for miles along the banks of the far-famed Kennebec, and the scenery, even to one speeding across the country behind a locomotive, is very attractive. Brunswick being on the Androscoggin, and Bangor on the Penobscot, one making this trip has an opportunity to see "the three great rivers in Maine," whose names were familiar to him when Mitchell's Geography was a dreaded book.

At 9 o'clock, Friday evening, we reached Bangor, and found a city, where 50 years ago three log huts stood in solitary grandeur, their occupants monarchs of all they surveyed. The half century has wrought wondrous changes; but it has not levelled the hills. As you stand at their foot, these are simply fearful: as you ascend them, their summit seems, like the horizon, ever receding as you advance towards it.

The city has great natural advantages, and with the railroad extended through to Halifax, as we were assured it will be by and-by, it will be far more prosperous than it has been, even in its palmiest days.—Lumber has done much for the city, but when the forests are less productive than now, its fine water power will be turned to other uses, and the busy hum of machinery will be heard where now arises the noise of the swiftly gliding saws.

On Saturday morning our friend afforded us a fine view of the city. We rode thro' wide and well-graded streets, on which were many fine private residences, several handsome churches, large and convenient stores, and very many beautiful trees. One street, with four rows of majestic trees, with a broad walk between the inner rows and carriage ways on either side, was particularly noticeable.

We then rode out to Oldtown, a pleasant ride of about 12 miles, along the banks of the Penobscot. Saw-mills abounded, and the amount of drift-wood in the river would be painful to a young man of an economical turn of mind. The mills are very lengthy buildings, with an almost innumerable number of saws cutting out all kinds of lumber in the most energetic and persistent manner. Huge logs go bravely in, but they get terribly cut up.

The Indian settlement, on an island just above the falls, is a point of interest to most visitors. The tribe numbers about 500, but many were absent at the time of our visit. The long, birch-bark canoes lay drawn up on the banks, but an American took us across in his bateau—a long, light, flat-bottomed, double bowed boat. The Indians live in wooden, one story houses, having kitchen gardens around them. They have a church, and their burying ground is enclosed by a neat fence.

As we were walking slowly along, a young Indian hailed us with—My good Christian friends, stop a minute. We both stopped. Now the Indian of to-day is not fascinating. Certainly this young man was not. Judging from his personal appearance, there had been a drought, severe and long continued, at Oldtown. If not, he must have had the hydrophobia literally.—He was, moreover, drunk; therefore additionally repulsive. Again, the voice of the Indian is not under the best of circumstances, peculiarly mellifluous. This one's was *coagulated* by bad rum. But as he inquired if we wished to see some baskets, truth compelled us to admit that we did. He advanced in a corkscrew direction towards a house, and we followed, carefully avoiding the danger of walking between him while he was on both sides of the path. He asked us whence we came, and we replied, from New Hampshire. "That's in Boston?"—After purchasing our baskets of the woman of the house, we were about to leave him abruptly at the door. But he insisted upon our going to another. We respectfully but firmly declined; and as we turned away, he exclaimed—"give me 25 cents!" The audacity of the demand approached the sublime. He explained that it was "for what he had shown us on the street." Now the street consisted of a narrow foot-path through the grass, and he had led us to the nearest house—about two rods. We inquired if he did not regard it as rather an extravagant price for his services. "You give me ten cents, then." This was an improvement. Finally he asserted that if we would give him 5 cents he would never spend it. Five minutes after we left him, he had drank 5 cents' worth of poor rum. We shall ever remember that Indian with feelings of the most intense disgust.

Sunday morning Bangor was in a tumult. The 26th Maine regiment returned from Port Hudson. At 8 o'clock, A. M., the bells were rung to call the military together; and at 7, cannon, and music, and the marching of companies, told that they had come. It was a strange sight on that beautiful Sabbath morn; yet we were not among those who would have seen those brave fellows come home to find their claim to public notice ignored, and their right to a public reception, even on that day, denied.—They were hospitably, enthusiastically received by the people; and all day long, on that intensely hot Sunday, ladies, young and delicately nurtured, attended unceasingly to the wants of the sick. It was fashionable a few years ago to rail at the alleged thoughtlessness and selfishness of American women; but war is showing that they are equal to the performance of duties which, before the record of the heroic deeds of the women of the Revolution, even, pale not in splendor, nor seem less worthy of woman's heart.

The people of Bangor,—those whom we saw, and those of whom we have heard—are kind, hospitable and cordial. But as the city is largely engaged in the lumber business, perhaps it is natural that they should make a deal of their friends. It was pleasant to sit down with a few of them and talk of one who was numbered among the "old friends" of four years ago. Four years are but a brief time, yet he occupies a well-earned position now, having done brave deeds since then, and as a volunteer in the ranks of the Union army, honored himself, his family and his State.

On Monday morning at 6 o'clock we found ourself on board the steamer "Daniel Webster," bound to Portland. The passage was lovely in the extreme, and well repays one for the time occupied in making the trip. At 5 P. M we steamed up the beautiful harbor of Portland, and in the evening we heard Gen. Shepley speak at the City Hall, which was densely crowded. Gen. Shepley was abundantly worthy of the glorious reception; a life-long democrat, heretofore honored by the party most freely and cheerfully, he is not among those who see in the present war merely a crusade against slavery, or who make metaphysical distinctions between the Government and the Administration of the Government.—He is popular in the State, and his speech, which was brilliant and powerful, will do much good. The Portland Press gave a full report, and it is being extensively circulated. Maine has just entered upon a bitter political campaign, and after Gen. Shepley's speech there was an opposition serenade to a Chicago gentleman, at the Preble House. We heard one of the speeches—a most remarkable one—made by a gentleman who has not been noted for fidelity to party, and who is known by "the name which Adam gave to the rest of mankind when he became tired of naming individuals." A Portland paper gave "a full report" of it—in fact, about as accurate as Orpheus C. Kerr's version of Gen. McClellan's Farewell Address—without the wit. There was much disturbance at this meeting, which it would have been better to avoid. Once or twice a collision seemed imminent, but the crisis was safely passed. Some of the speeches did not tend to produce this desirable result.

The afternoon of the next day saw us once more safely at home, with a renewed realization of the fact that Maine is a great State, with many warm and true hearts beating in the breasts of its loyal and law-abiding men. May it ever prove true to its motto—Dirigo—and may its people, in the coming election, attest once more their devotion to the cause of the Constitution and the Union, by placing in power such men only as are sure to uphold the hands of the Government in its great work of putting down the Rebellion. May it everprosper, until all its cities and towns shall be filled with a happy people; and its rivers be covered with the white wings of far-reaching and successful commerce. T.

NEW HAMPSHIRE ITEMS.

—— Among the trophies won by the late Col Cross and his brave command, was the splendid flag of the 4th N. C. Regiment, which has been deposited in the former home of the dead hero. The Coos Republican states that on Thursday night some guests from the hotel at Lancaster, then crowded, were furnished an apartment at at Col Cross's, and in the morning two large pieces had been cut out of the flag and carried off.

—— The City Council of Dover, on Monday evening, passed an Ordinance for the payment of $300 to every drafted man or his substitute from that city, ten days after being mustered into the service of the United States.

—— The Dover Enquirer states that Chas. L. Pearl, of Farmington, one of the drafted men, was burnt out of house and home on Sunday night. Mr. Pearl thinks he must have dropped a coal from his pipe as he was smoking. It is a hard case for he is not blessed with wealth, while he has five little children, and there was no insurance.

—— Farmington has sent no 9 months' men to the war, but she has sent enough 3 years' men to fill her quota under the old calls, and to have six to spare for the draft. Of the 160 she has sent, only one, Capt. Carleton, has been killed in battle.

—— Prof. E. D. Sanborn, of Louis, is elected Professor of Oratory and Belles Letters in Dartmouth College, and Prof. Charles A. Young, of Hudson, Ohio, Professor of Mathematics.

—— Among those drafted in Concord on Wednesday were Hon. Wm. E. Chandler, Speaker of the House of Representatives, Rev. J. P. Nutting, of the Freewill Baptist Society, Edward A. Abbott, of the celebrated coach manufactory, George E. Todd, master of transportation on the Northern Railroad, together with two lawyers, several physicians and six prominent merchants.

ALTERED BILLS.—One dollar bills on the "State Bank," Augusta, have been altered by pasting two figure ones, on the corners, and five over the one in the body of the bill. The work is clumsily done, and any ordinary investigation would detect the alteration. The Boston Journal says a fresh batch of counterfeit tens on the Atlantic Bank, Boston, has just been issued. It says the bank has issued no bills of this denomination for two years, and that the only safe course is to refuse these bills altogether.

☞ Rebel guerrillas stole $100,000 in gold and silver, and $30,000 in paper money, from the Southern Bank of Kentucky, in Carrollton, Carrollton county, Wednesday night.

A large portion of the extensive works of the Boston Lead Company was destroyed by fire on Thursday noon. Loss estimated at $40,000—partially covered by insurance.

☞ There were 859 deaths in N. Y. city last week, a decrease of 111 from the previous week. The deaths by sunstroke were 56; 2 were murdered, 15 drowned, and 2 died from riot wounds.

What is the difference between forms and ceremonies? You sit on forms, stand on ceremonies.

☞ Rev. C. C. Everett, of Bangor who would be exempted at once should he appear before the Board, on account of his eyesight, writes a letter to a gentleman of that city, he being absent from home, which breathes the true patriotic spirit. He says:

I see by the papers that I am drafted. As I do not feel quite equal, however well disposed, to serve in the field, I shall offer $300 as a commutation fee, or a substitute, whether exempted or not.

'Sam, why don't you talk to mass and tell him to lay up his treasure in heaven?' 'What for? What do use of laying up treasures here, where he neber see'em again, eh?'

THE FALL ELECTIONS.—Elections, for State and other officers, will take place in the following named States on the days stated:—Vermont Sept. 1; California, Sept. 2; Maine, Sept. 14; Ohio, Oct. 13; Pennsylvania, Oct. 13; Massachusetts, Nov. 3; New York, Nov. 3; Wisconsin, Nov. 5; Delaware, Nov. 10; Iowa, Nov. 10; Minnesota, Nov. 10th.

☞ The Cleveland (Ohio) post-office has been robbed of large amounts of money, drafts, &c, and a young man named James Carr, a clerk in the office, has been arrested, and confessed.

BRIGHTON CATTLE MARKET.

WEDNESDAY, Aug. 19.

At market 1874 beef cattle, 500 Stores, 3900 Sheep and lambs, and 525 swine.

Veined-yelled Cattle—Extra, $8 00 a $8 75; first quality, $8 25 a $8 50; second quality, $7 25 a 7 75 3d quality, $6 00 a 6 50.

WORKING OXEN—$75 a 125.

MILCH COWS—$28 a 45

VEAL CALVES—sales at $6 00 a 0 00.

Yearlings $6 00 a 12 00; two years old $15 a 25; three years old—$25 a 35.

HIDES—0 a 8½c, (none but slaughter at this market); Calf Skins 00 a 00c per lb.

TALLOW—Sales at 0 a 7½c lb.

SHEEP AND LAMBS—$2 75 a 4 25; Old Sheep—5½ a 5½c

SWINE—Fat Hogs, 5 a 5½c

Market Beef—Extra are the largest fat Oxen, highly stall-fed. First quality are large Oxen, stall fed at least three months. Second quality are grass and hay fed Oxen, well fatted Cows, and the best three-year old steers. Third quality are odds and ends of droves.

Sheep and Lambs—Extra consists of prime bucks and fancy Ewes for stock.

Beeves are sold by the head, at prices equal to the value per pound of the estimated weight of beef in the quarter with the fifth quarter or the hide and tallow, at the same price as a shrinkage from live weight agreed on by the parties—varying from 28 to 34 per cent.

The receipt of cattle is larger than at the last market, but the quality is not so good, and there has been a decline of 25 a 50c per 100 lbs. on the poorer qualities. The trade in milch cows and sheep was dull.

Attention Soldiers!

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar a novelty worth the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

PROVOST MARSHAL'S OFFICE,

FIRST CONGRESSIONAL DISTRICT, N. H.

Portsmouth, August 12, 1863.

Drafted men furnishing substitutes must previously forward to the Board of Enrollment a written notice, giving the name and age of the substitute and stating whether he is an alien or a citizen. They must present themselves with the substitutes on the day they are ordered to report, between the hours of 9 A. M. and 1 P. M.

Those wishing to commute for service must pay $300 to James M. Lovering, Collector of the Internal Revenue, Exeter, N. H., or at the office of William H. Hackett, Portsmouth, N. H., and procure DUPLICATE receipts for the same, before making application to this Board for certificates of exemption.

A drafted man may pay $300 in commutation of services or furnish a substitute. Any man who presented himself for examination and been accepted by the Board of Enrollment

Rosecoftry, a Revolver, or Five Dollars will be paid to any person upon the arrest and delivery of a deserter to the Provost Marshal or other of his deputies.

Any person claiming exemption on the ground of ALIENAGE must file before the Board an affidavit stating, 1st that he is an Alien and setting forth the government of which he claims to be a subject. 2d the TIME WHEN he came into the United States, and where he has resided since that date. 3d that he has not made the intention to become a citizen of the United States, and has not exercised the right of suffrage by voting at any election in any State. 4th that he claims to be exempted from Military Service on the ground that he is the subject of a Foreign Government, and has not declared his intention to become a citizen of the United States, and has never voted in any State,—the affidavit to be supported by any competent evidence the party may offer.

Persons claiming exemption by reason of Unsuitableness of Age must present an affidavit setting forth the claim, to be supported by as much of the following testimony as can be obtained.

1st. By an authenticated extract from the legal registry of Births, if there be any such registry.—2d. By any other authenticated documentary evidence tending to establish the fact of age. 3d. By the affidavit of the Parents. 4th. By the affidavit of such other respectable persons, (not less than two,) heads of families, as are most likely to be informed on the subject.

Persons drafted who may be too sick to report upon the day ordered should forward the affidavit of a Physician, stating the facts in the case and how long it will be before his patient will be able to travel.

No certificate of a Physician or Surgeon is to be received in support of any claim of drafted men for exemption, unless the facts and statements therein set forth are affirmed or sworn to before a Civil Magistrate competent to administer oaths.

DRAFTED PERSONS in the County of Rockingham requiring blank forms of certificates, from No. 25 to No. 30 inclusive, can obtain them by applying at the office of the Provost Marshal between the hours of 12 o'clock M. and 1 o'clock P. M., and at the office of James W. Lovering, Esq., Exeter, N. H., and to William S. King, Esq., Northwood.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Local.

☞ We are glad to learn that Rev. Mr. Medbery—our city missionary—has decided to decline the offer made to him of the Chaplaincy of the 4th Regt. N. H. V., although that position would be pecuniarily much more advantageous for him, and has also other strong attractions to one of his patriotic feelings. Yet he is so much attached to his present location, and the directors of the mission have so strongly urged his remaining where he is doing so much good, that he has concluded still to continue among us.

☞ Three of the Tacony pirates, (Lieut. Alexander, a Master's Mate, and a sailor,) escaped from Fort Warren, Boston harbor, on Tuesday night by means of a floating target, seized a yacht and stood out to sea.

Late in the afternoon of Wednesday a yacht appeared in Little River, N. Hampton, and Mr. Garland, being hailed, put out in his boat and took one of the occupants of the yacht ashore. He saw only one other in the yacht. The man landed had on only a shirt and a pair of oil pants: he went to the house of Mr. John Batchelder, and stated that they had gone out from Boston on a 3 days' cruise, had lost their provisions, clothes, &c., and wished to obtain a considerable amount of food. It was noticed that he had money,—bills and silver. Mr. B. gave him a pair of pants and food for himself and companion, and promised him that if he would lay by until morning, he would give him more. The man declined to remain on shore during the night. His appearance, manner, and story excited some suspicion, but it was impossible to guess who they were. The Boston evening papers told the escape of the pirates, and Mr. B. felt convinced that they were on board this yacht. He accordingly quietly drove over to this city, and informed the authorities. The yacht is of about 5 tons, and a fast boat.

Some of our police went over to Hampton, starting about 11 o'clock,—one party by land and another by water. Officers Bailey and Johnson went by water in the yacht Florence, Capt. Leach, accompanied by a squad of soldiers from Fort Constitution; but a head tide and light wind prevented their continuing the pursuit beyond the Shoals. They returned to this city on Thursday noon. The pirates did not remain at Hampton Beach after receiving the provisions, but immediately stood out in the direction of the Shoals. They are reported to have been seen, at 4 A. M., Thursday, four miles east of Duck Island. Vessels from the Portsmouth Navy Yard and from Boston, and the revenue cutter from Portland, were in pursuit of them.

On Thursday morning, City Marshal Bragdon and Officer Joy went out in the fast-sailing yacht Viking, Capt. Martin, and were well on the track of the pirates when they learned, about 2 o'clock, that they had been captured half an hour before, some 4 miles north-east of Boon Island light, by the Revenue Cutter from Portland.

GRAND ITALIAN CONCERT.—On Monday evening next we are to be favored with a grand Concert by the artists of the New York Italian Opera Company. Madame Lorini, the matchless *Soprano*, and Mlle. Morensi, the celebrated *Contralto*, will be among the number. Giovanni Sconcia, the great Violinist, will also delight our ears with his delicious violin solos. A great treat may be anticipated, for not only will the concert be vocal and instrumental, but Mad. Lorini has consented to sing one or two pieces in English, for the first time, we believe, in this country. The concert will be first-class in every respect, and a very full attendance of the most elite of our citizens may be anticipated. The tickets will be on sale on Monday.

☞ The U. S. frigate St. Lawrence from the Portsmouth Navy Yard, arrived at Fortress Monroe on Wednesday noon.

☞ A letter from an artilleryman, a private, belonging here, dated Warrenton Junction, Aug. 6, writes as follows: "We have seen hard marches, hard fighting, and almost everything else hard, for the past two months; but for all that we are in the best of spirits, and will fight for our beloved country, and the star spangled banner till we conquer or die. Our provisions come by railroad from Alexandria, and are mostly pork and hard bread, at which no good soldier will grumble when he has enough of that which is good, though some persons would grumble anywhere.

I would like to come home and see you all, and have some good times; but must defer it till after we make all the rebels submit to the laws of the country that we are fighting for: then if I live I will come home to enjoy the better time when the country is safely freed from the enemy, and to tell you all about the rebels and the war. I feel now that I am doing my duty to my country, and hope for a grand result, as everything is working for us as well as we could expect."

OLD DOG TRAY.—The old dog Tray's ever faithful they say; but a dog that is faithful can never be Tray.

☞ A few months ago three persons bought a lot of ground in Greenwood Cemetery, N. Y., which they subsequently partitioned off to their mutual satisfaction. Last week, on *three successive days*—Thursday, Friday, and Saturday—the parties to this bargain were all laid to rest in their respective lots. They belonged to different families, and were in no way related.

☞ On Saturday afternoon, as some laborers were demolishing an old stone house in Hudson City, N. Y., erected in Revolutionary times, they came across a box, secreted under the hearth, containing some $5,000 in silver and gold of an ancient date.

Lost, on Wednesday afternoon, between Court street and Greenland, a Black and White SUMMER SHAWL. The finder will be suitably rewarded on leaving it at the Chronicle office. aug1

State of New-Hampshire,

ADJUTANT GENERAL'S OFFICE,
Concord, August 19, 1863.

For the information of all interested, it is hereby announced, that the draft is made according to the quotas assigned to the several towns, or sub-districts, by the Provost Marshal General.

The District Provost Marshals have nothing to do with the claims of the different towns for men heretofore furnished, when the Governor shall make it appear to the Provost Marshal General, that particular towns have heretofore furnished a surplus of men over their quotas. An order will be issued discharging from the service of the United States a number of men called into service by the present draft, from said towns, equal to the surplus proved to have been furnished heretofore. Towns will thus get credit actually for their excess on former calls.

It is therefore necessary for such towns as claim to have furnished a surplus of men, to present to the Governor satisfactory proof of such surplus having been actually furnished, and if the proof be presented in season, the men may be discharged before leaving the State

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

THE BEST IN THE WORLD.

This fact is well established. It is the most simple and best operating machine yet made, although forty different kinds have been offered to the market, the greater part of which have proved utter failures.

A sale of three hundred in this city, and a still-increasing demand, prove the popularity of these wringers. One family should be without one.

We have iron framed Wringers at a lower price, but the *best is the cheapest*.

This Wringer has had an immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions."—No family should be without it. Try one; if not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR.

(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*no plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can *offer to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

Morning Chronicle.

OUR HEROIC DEAD.

The following is an extract of a poem written for the Providence Conference Seminary and Musical Institute, by Miss Abbie E. Remington, of Warwick, and delivered before the Alumni Association by the fair author, which, says the Providence Journal, is characteristic of the whole:

With kindling eyes and reverent live we tell
How in his fresh young manhood Winthrop fell,
Like Sidney, wounding in undying fame
The scholar's glory and the hero's name.
How Baker, patriotic statesman, pure and wise,
Beheld his country's woes with pitying eyes,
And, girding on the sword of truth and right,
Went down amid a wild, disastrous fight.
How "star-eyed science," her sad vigil keeps
Above the grave in which her Mitchell sleeps—
The son who, in her beautiful regret,
Sat with a proud devotion at her feet,
Until she bade him from her halls depart,
And write his name upon the nation's heart.
How Lyon cherished, more than fame or gold,
The stainless purpose of the knight of old.
How Rodman labored with all a patriot's pride,
With changeless faith the hand for which he died.
And to low whispers do our voices fall,
Amaranth-wreathed heart-throbs we recall
The noble Lander, and the young Lincoln grave
What hopes were buried in his early grave,
The poet children, who from nature caught
A light divine to clothe his inspired thought,
Whose earliest lays with rythmic cadence sweep
Our heart strings, like strange music heard in sleep.

NEW YORK RIOTERS.—In New York city, last week, James H. Whittier, convicted of leading the rioters on the 13th ult., against the Tribune establishment was sentenced to the utmost limit of the law—one year in the Penitentiary and $250 fine.—Whittier has also been indicted for burglary and for arson; but as yet has been tried only for riot.

The evidence against him in the riot trial was full and conclusive. He led the mob to the front of the Caucasian office and the office of the Daily News, where he called for cheers, and the mob gave them: he called for cheers for Gen. McClellan, and the mob gave them. He led the mob to the office of the Times, called for groans there, and the mob gave them. He said that office must come down, and also the office of the Tribune: then led the mob to the Tribune building, called for groans there, bade the mob clean it out, cursed Horace Greeley as an abolitionist, advised them to kill him, &c. Prisoner is a barber.

Capt. John Flynn, late of the 63d N. Y. V., saw Whitter leading the mob in the attack on the building, and heard him call for camphene to burn the building: knew him by visiting the barber's shop where he worked: had heard the prisoner talk treason in the barber-shop: saw him a few days after the battle of Gettysburg, also in September; prisoner said he was in hopes he would shave Jeff. Davis in New York within 60 days; and also that Harrisburg would be taken, Baltimore next; that the railroad would be torn up by Lee's cavalry at Annapolis Junction, and at the Relay House; that a corps of the rebel army was going to cross Virginia by way of the Occoquan, to blockade the Potomac river; that Washington would surrender without a battle, and that peace would be dictated to the North in two months.

James Cusick, the alleged leader of the mob that nearly killed Superintendent Kennedy, has been arrested. The testimony against him is very clear, and he is charged with robbery, riot, assault and battery, and attempt to murder. He was ordered to find $2000 bail.

Substitutes are offering themselves at very cheap rates, both in Philadelphia and Washington, as well as at other points where drafting is going on. Prices range from one hundred to two hundred dollars, and cases are reported where persons voluntarily and freely offer themselves as substitutes for their drafted friends.—*Boston Post.*

During the drafting in Philadelphia, an excited Irishman shouted out, referring to the wheel—"Whirl it round; whirl it round; will ye?" He was evidently in great suspense. "What's the matter with you?" shouted the provost marshal. "Oh, be jabers, turn it round a dozen o'times, for that man you drawn last is my next door neighbor."

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a private nature.

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate victims of disease that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Bedewith his treatment. The terrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the venereal disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the subject for the duties of life, marriage or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil foreboding, aversion of society, self-distrust, love of solitude, &c. are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment, can be accommodated with board and with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules, the great remedy for Gonorrhœa, by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott street, Boston, is consulted daily for all diseases incident to it female system, with Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate cases have yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the care of diseases of females and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, which will be acknowledged by all parts of the United States.

N. B. All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all diseases and secrets of a private nature, and by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the subject of this Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and air iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for filling the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks at a time, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise

We would refer to the following purchasers:

VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the purest atmosphere of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to such extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use; as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a sucker, as has been finished the work presents one whole piece.

6th While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. HUNTER, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sore and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and, beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

VOL. 23. PORTSMOUTH, N. H. SATURDAY AUG. 22, 1863. NO. 44.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

MORE CORRESPONDENCE.—Two more letters of the Jeff. Davis batch, have just been published. One is from James Lamor, dated Chicago, Jan. 14, 1861. Speaking of the fifteen slave states, he says:—

These fifteen States will secede. There will be no coercion by the Federal Government. Then, these fifteen States will adopt the present Federal Constitution, with such amendments as clearly define its spirit on Slavery and the revenue laws. I know from your recent speeches that you can suggest with great ability such amendments.

When the Southern States are established on this basis, Indiana and all the States west will come into this new Confederacy. Its greatness would then be established both at home and abroad. Ohio, Pennsylvania and New York, would come in as soon thereafter as would be desirable.

Hon. John Broadhead writes from Philadelphia March 7, 1860:—

Mr. JEFFERSON DAVIS?—*My Dear Sir:* Can you tell me if Gen. Larman is likely to remain much longer in Nicaragua? I should like to go to that country, and help open it to civilization and niggers. I could get strong recommendations from the President's present friends in Pennsylvania for the place were the Mission vacant, and I think I would prove a live Minister.

I am tired of being a white slave at the North, and long for a home in the sunny South.

☞ The Brooklyn (N. Y.) city authorities, having been unable to raise a loan of $1,000,000 from the banks, and having met with no better success in appealing to the community at large, have come to the conclusion to adopt another course, with a view of "ameliorating the hardship of the draft." As neither plan would work, the Board of Contracts and the Common Council Committee held a meeting in the Mayor's office to consult upon the course to pursue hereafter. The Mayor, it is understood, favors the raising of a sum of, say, $300,000, with which to commence operating, by paying the expenses of such whose families would be apt to suffer in the absence of the main or only support, or pay the amount to a substitute.

☞ The next House of Representatives, so far as yet chosen, is politically as follows:

Adm. and War Unionists	84
Opposition	74
Kentucky Delegation	8

To be returned:

Missouri	1	Delaware	1
California	3	Maryland	6
Vermont	3	West Vir inia	3
Total	17		8

We shall be sorely disappointed if the Copperheads get three of them outside of Maryland; and we guess they will not exceed that number in Maryland.—*Trans.*

YOUTHFUL VETERANS.—An exchange says:

"John Brown, of North Stonington, an active young man of 94 years, walked five miles on Monday on business, without apparent fatigue." Another "youth" of this class is the well known Daniel Hawkins, a New Lebanon Shaker, for fifty years an "elder" of one of the families, who can read the finest print without spectacles, works fourteen hours a day in the garden, has the care of twenty hives of bees, and can walk five miles with ease and comfort at any time.

GOV. SEYMOUR.—There is little use in mincing matters, in speaking of Seymour.—His sympathies are with the men who lead the rebellion, and against those who are laboring to put it down. The rebels can never vanquish us in the field. This they know. Their only hope is to divide our counsels, disunite our people and render it impossible to raise armies. Seymour is their chief agent in this work, and he is labouring with alacrity to do the bidding of his masters:—He has determined to put every obstruction in the way of the draft. And he knows that a vigorous enforcement of it will defeat the last hope of the rebels. We are losing golden moments through his treachery, and every new symptom of complicity with the rebels on his part is more and more endangering another outbreak of the infernal mob whom his baneful example has emboldened to raise its arm against the government.—*Roxbury, Mass., Journal.*

SATURDAY, AUGUST 22, 1863.

THE REBELLION.

The N. Y. Tribune has a dispatch from Gen. Lee's army, 19th, stating that it was not definitely known where Lee's headquarters were. Ewell had moved his corps to Fredericksburg. Longstreet continued at United States Ford, and A. P. Hill at Orange Court House. The firing on Monday had not been accounted for.

The report is renewed that Lee intends to offer battle to Gen. Meade shortly, and that if the latter falls back on Washington, he will again invade Maryland, expecting assistance from sympathizers there. All the rebel officers in Richmond on leave, have rejoined their regiments. It is said Lee's army has been reinforced by a whole division from the army of the West; but the accounts of great numbers of deserters, and of demoralization, come in many different ways.

Parson Brownlow writes that Gen. Burnside is marching on Knoxville, Tenn., with a heavy force, and Gen. Rosecrans on Chattanooga with a large army.

The troops forming the Arkansas expedition have come in sight of the pickets of Price's army, near Little Rock, and have captured three or four rebel boats' crews, and all the boats the rebels had in the river.

Very few of our troops are in Vicksburg; the rest are on the heights back of the city.

THE SANITARY COMMISSION.—At the battle of Gettysburg, two of the agents of the Sanitary Commission were captured, and are now in Libby Prison, Richmond. The moment this was known to the rebel surgeons in our hospitals, they united in a petition to Gen. Lee for their release. The petition says:—

The undersigned, surgeons of the Confederate army, now in charge of the several hospitals within the Union lines at and about Gettysburg, beg leave to testify to our General-in-Chief, in favor of the U. S. Sanitary Commission, as a most praiseworthy and charitable institution. Through its kind provisions, our hospitals are supplied with many comforts which are of inestimable value to our wounded and suffering men.—While the promptness with which their agents follow on the heels of battle enables them to dispense an immense amount of relief to the sick and wounded soldiers on either side, it also necessarily exposes them to any reverse of fortune which may oblige them to ask protection from the successful party.

The petition was signed by twelve of the chief surgeons of the Confederate army, and directed to Gen. Lee.

☞ The following mysterious paragraph appears in the Washington Republican of Tuesday:

"The greatest activity prevailed in the army yesterday. Considerable firing was heard along the front, produced probably by a demonstration made to cover a certain successful movement which the rebels probably know all about by this time and the country will soon understand. For further particulars on the subject we refer our readers to a leader in the *National Republican* of the 28th of July, entitled 'Our Military Policy in Virginia.' Many of our cotemporaries who were startled at its appearance at the time will better understand it now, especially when they learn that the propositions which it contained have become the settled military policy of the Government." The article referred to, advocated the abandonment of active operations in Virginia, and the transfer of the troops there to other points.

☞ The N. Y. Herald states that Capt. Lore, of the bark Sunset, which was captured by the Florida, asserts that in the course of a conversation with Maffit, the latter indicated very plainly that he was fully informed with regard to Lee's invasion of Maryland and Pennsylvania, and that the same was to be aided by a copperhead demonstration in New York and other northern cities, which he believed would compel the U. S. Government to make peace with the rebels and acknowledge their independence.

☞ The town of Phipsburg was the first in the State of Maine to vote commutation money to its drafted men. Now that the conscripts want the money to purchase exemption or to procure substitutes, not a dollar can they get. In the 2d Congressional District of Maine, up to Monday, 1638 drafted men had been examied, 733 of whom had been accepted, and 175 had paid their commutation.

☞ A violent gale of wind arose while a lady was riding horse back near Grand Rapid, Mich., a few days since; and while at full speed she saw a tree falling directly towards her. She sprang from her horse, and the tree struck in the saddle, crushing the horse into a shapeless mass, while she escaped injury.

☞ Western farmers have given 150 milch cows to the St. Louis branch of the Sanitary Commission, which is sending them to Memphis and Vicksburg.

☞ The steamer Vanderbilt was passed going into Rio Janeiro July 14th. The U. S. steamer Mohican sailed from Rio Janeiro July 11th.

THE ATLANTIC MONTHLY, for September, is out with its usual promptitude and variety of contents. There are but few articles from the more famous American writers, yet the number is an excellent one.

THE CONTINENTAL MONTHLY, for September, contains, among other interesting articles, one concerning Southern Hate of New England, and another entitled Jefferson Davis and Repudiation. It is announced that Charles Godfrey Leland and Edmund Kirke have withdrawn from the editorial management of this magazine.

GODEY'S LADY'S BOOK, for September, has some beautiful engravings, and a large amount of miscellaneous reading matter.

☞ A case strongly illustrative of the tenacity with which the African clings to his old superstitions has recently occupied much time in the courts of New Orleans.—It was known as the "Voudou case", (the "Voudou women" of Africa being supposed by the Ethiops to possess supernatural powers) and charges were made by some contrabands against several free negresses, that the latter, in their Voudou character, had held meetings where they danced perfectly naked, and performed sundry incantations compared with which those requisite to produce the Witches' broth in Macbeth were common, and all to secure the return to power of the rebels in New Orleans; alleging the free negroes to be much opposed to the freeing of their enslaved brethren. The excitement among the ebony population was intense, and as many as twenty American ladies of African descent were arrested and fined, in a single day, for assembling in contravention of military law to discuss the subject, and refusing all mandates to disperse. The accused were all discharged.—Now we have the sequel. A colored woman, Susan Williams, declared herself the victim of Voudou incantations, and insisted that her stomach had been made the receptacle for a snake. She had recourse to Voudou remedies to expel the intruder, the principal ingredients of which were herbs steeped with a strong decoction of tobacco. The woman was prematurely delivered of a child, but still persisted in her story of witchcraft, and seemed glad when told the child was dead. But her own life in a day or two paid the penalty for her unnatural crime.

A BOAT ACCIDENT.—On Tuesday, two members of "Ramsey's Minstrels" hired a boat at Newburyport for a sail on the river. As the wind was light, and the tide ran out, they were soon drifting through the mouth of the river, and with difficulty escaped the north breaker, which threatened to swallow them, boat and all. Getting outside the bar, they managed to reach Salisbury beach, whence they hastened to the city to fulfil an engagement of the company, leaving the boat in the surf. The next day there were a few pieces of the boat in the sand, and fifty dollars was required to settle the bills.

☞ The case of Charles McLellan vs Harmon Pennel & Co., which has been on trial three terms before in Sagadahoc County, Me., the jury disagreeing each time, is a gain before the S. J. Court, now in session at Bath. The claim is for iron furnished for the building of a ship amounting originally to some six or eight hundred dollars. It has already cost the county double the original demand.

☞ The New Haven Journal tells a pathetic tale about a cat in that city that manifested a great affection for a clerk in a grocery store, but did not pine away in the least when the clerk marched to defend his country. Lately his term of service expired, and when he returned the cat showed every possible mark of remembrance and delight at seeing him, and was so overcome with joy that she dropped down dead!

—— Arrangements are already being made for a course of Lyceum lectures in Manchester the coming winter, and John B. Gough, H. W. Beecher, Jas. T. Brady, John Van Buren, Charles Sumner, E. H. Chapin, A. L. Stone and Wendell Phillips, have been engaged.

—— Lebanon gives $300 to drafted men or their substitutes, and $200 to each volunteer who has served his time, and re-enlists.

SINGULAR.—It is very singular that if the Emancipation Proclamation is only "a bull against the comet," the comet should have lost so much of its tail; that if the Administration has done nothing but blunder, victory should be the result; that if the New Democracy is the friend of peace, it should have done nothing to obtain it.—*Philadelphia Press.*

☞ Neither of the Richmond papers of Saturday refer to the execution of Captain Sawyer and Flynn, which was to have taken place on Friday the 14th, and it is probable their execution has been quietly postponed. There is not much danger of its being carried out—so long as Gen. W. F. Lee and Capt. Winder are held as hostages for them.

☞ A young man in New York State was drafted; his betrothed became sick in consequence; and he committed suicide.

☞ Morrissey, the pugilist, has been drafted in New York City.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

French and Indian War, 1708:—*Peace*, 1713.

A large body of French and Indians marched in the year 1708, from Canada, destined against the frontiers of New-England. Governor Dudley received information of their intentions by way of Albany, and sent out troops to guard the most exposed places. They made their attack on Haverhill, where they did considerable mischief; but their number being much diminished by casualties on their march, they returned without doing any further damage. In the winter Colonel Hilton, with two hundred and seventy men, went to Pigwacket in search of the enemy, but returned without meeting any of them.

During the year 1709, the frontiers were kept in continual alarm. Four persons were taken prisoners at Exeter, and one was killed at Oyster river, and the people were confined to the garrisons in expectation that another body of Indians were on their march against them from Canada.

The Country sustained a severe loss in the year 1710, in the death of Colonel Winthrop Hilton. He was engaged in procuring masts, and with seventeen men went about fourteen miles into the woods to secure some trees, he had felled for the purpose. The Indians lay in ambush and attacked him in an unguarded moment. They killed Hilton and two of his men at the first fire, and took two prisoners; the rest fled precipitately. The next day an hundred men went in pursuit of the enemy, but did not overtake them. They found the mangled bodies of their slaughtered friends and decently interred them. Colonel Hilton was a person of a very pleasant disposition, of undaunted courage and bravery, and much skilled in the Indian mode of warfare. He was a great terror to the savages, and they had for a long time sought his destruction; his death was to them, a cause of much triumph, but was deeply lamented by his friends and acquaintance.

Another expedition was formed this year against Port Royal, N. S. Five frigates and a bomb ketch were sent from England, and the several provinces raised their quotas of men, of whom New-Hampshire furnished one hundred, and put them under the command of Colonel Shadrach Walton. The whole armament sailed from Boston, and arrived at the place of their destination the 18th of September. The fortress soon surrendered, and the city, in honor of the Queen, was called Annapolis.

The capture of Port Royal gave some check to the enemy, but did not prevent their making inroads upon the English settlements. They came in small parties and committed a few acts of hostilities on the outskirts. But it was evident that an entire stop could not be put to their depredations, as long as the French kept possession of Canada. Colonel Nicholson went to England and made such representations to the British Court that he obtained orders for a sufficient force, to drive the French from the country. The Queen sent over fifteen ships of war and frigates, a battalion of marines, and five thousand veteran troops, who arrived at Boston the 8th of June. The Colonies furnished about fifteen hundred, and placed them under the command of Colonel Walton. The fleet sailed from Boston the 30th of July, 1711, and had advanced a short distance within the river St. Lawrence, when, on the night of the 23d of August, nine of the transports, with fifteen hundred men, were cast ashore, most of whom were lost, 1000 it is said. The fleet returned to England, and the New England forces came home. The failure of this expedition was a source of great mortification to the Colonies. Their hopes were sanguine that with such an adequate force, they should soon dislodge such troublesome neighbors.

On the 24th of Sept., 1711, the town of Portsmouth voted to build a new meeting house on the corner of the glebe land, which should be the stated meeting-house of the town, and that Mr. Rogers should be the settled minister of the same.

The war had continued a long time and been conducted in the usual mode in which savages carried on their hostilities. They made their attacks in small parties upon those, whom they found unguarded and defenceless. They advanced without exciting suspicion; until they struck the deadly blow, and then they retreated with precipitation, and could seldom be found. The frontier settlements were the most exposed, and generally suffered most by their depredations. This town escaped without experiencing any particular calamity, but the inhabitants were kept in continual alarm, and were subject to many embarrassments and hardships, usually attendant upon a state of war. Commissioners had met at Utrecht to fix on terms of peace. A cessation of hostilities was agreed on, which was pro claimed here the 29th of October, 1712. The Indians, as soon as they heard of this event, sent in a flag of truce, and desired peace.

The treaty of Utrecht established a peace between the belligerent powers of Europe and their dependencies. The Indians, no longer supported by the French, were desirous of a respite from war. Governor Dudley held a treaty in Portsmouth on the 11th of July, 1713, with the chiefs and deputies from the several tribes who had been engaged in the war, and a solemn covenant for peace was drawn up, and executed in a formal manner under the hands and seals of the parties.

☞ Read "Abandonats," on our fourth page, and then commend us for breaking our rule not to inflict lengthy poems on our readers.

☞ There was a tornado in East Boston and vicinity, about 6 o'clock on Thursday evening, prostrating sheds for building ironclads, and doing damage estimated at several thousand dollars.

☞ Returns from all but 9 counties in Kentucky give Bramlette for Governor 50,000 majority.

☞ A London paper gives the following of the Peterhoff's cargo:

A very large portion of the said cargo is found to be particularly adapted to army uses—large numbers of cases contain Blucher boots, and are so labeled; 192 bales consist of gray blankets, adapted to the use of an army, and *are believed to be such as are used in the United States Army*; 95 casks contain horse shoes of a large size; 36 cases contain *artillery harness in sets for four horses*, and that a considerable portion of said cargo consists of drugs, in which quinine, calomel, morphine, and chloroform form an important portion.

State of New-Hampshire,

ADJUTANT GENERAL'S OFFICE,
[L. S.] Concord, August 19, 1863.

For the information of all interested, it is hereby announced, that the draft is made according to the quotas assigned to the several towns, or substitutes, by the Provost Marshal General.

The District Provost Marshals have nothing to do with the claims of the different towns for heretofore furnished. But, when the Governor shall make it appear to the Provost Marshal General, that particular towns have heretofore furnished a surplus of men over their quotas. An order will be issued discharging from the service of the United States a number of men called into service by the present draft, from said towns, equal to the surplus proved to have been furnished heretofore. Towns will thus get credit actually for their excess on former calls.

It is therefore necessary for such towns as claim to have furnished a surplus of men, to present to the Governor satisfactory proof of such surplus having been actually furnished, and if this proof be presented in season, the men may be discharged before leaving the State.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure to the proper changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in need of a Clock will find the Calendar alone worth more than the price of the the clock. They will be set up in any part of the city, and regulated without extra charge.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COUGHS, COLDS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will-our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Local.

☞ Only two pirates were captured by the U. S. Revenue Cutter J. C. Dobbin, but these represent that they were the only ones who escaped from the Fort. As only two persons were seen in the boat at Little Boar's Head, it seems probable that their story is true. They reached Portland at 4 o'clock, Friday morning. The Portland papers are, naturally, quite jubilant over the capture, the pirates having been removed from Portland to Fort Warren for "safe keeping." The Press says: "It won't do for our Boston friends to try this thing too often, to test the vigilance of Portland people: if they do, we shall have to go up and take that village under our control."

One of the prisoners proves to be James Thurston, 2d Lieutenant in the rebel marine service, from the Atlanta, alias Fingal.

Our officers in Portsmouth, and the authorities at the Navy Yard, were active and earnest in their efforts to recapture the pirates. An armed row-boat was sent out from the Navy Yard, and the "Powder boat" also was dispatched by Com. Pearson. The yacht Viking, in which the City Marshal went out on Thursday morning, would undoubtedly have taken the pirates, as they were in pursuit of their yacht and on the same tack, when she was captured by the Cutter. As our officers were devoting their time and expending their money with little expectation of receiving remuneration from anybody, but acted simply from a desire to do their duty, they seem to be entitled, at least, to the thanks of the Department.

Marshal Bragdon on Thursday morning telegraphed to Portland that the pirates had landed at Little Boar's Head, and would probably go east; and the Collector there at once sent out another boat. Two prisoners are still missing from the Fort,—Pride, Master's Mate of the Tacony, and Sherman, who was sent to the fort from the frigate Santee. These may be the two who landed at Rockport on Wednesday.

Blankets for the Soldiers.—*Ed. Chronicle*:—Permit me, through your columns, to inform the good ladies of Portsmouth that they can contribute largely to the comfort of the soldiers quartered here, by supplying them with blankets. A single blanket is not sufficient to keep a person comfortable during these damp chilly nights. We have an abundance of old bed clothing, in all our houses, which is of little value to us, but which will be of great worth to them. Let each lady send what she can spare as well as not, to the camp immediately. The Quartermaster will receive the articles and distribute them where they are most needed. In this way comfort may be imparted, health preserved, and perhaps life prolonged. As ye would that others would do by your husbands, sons and brothers, do ye also unto them.

ABOUT THE ITALIANS.—The forthcoming Concert at the Temple in this city on Monday evening next, renders anything relative to the artists engaged interesting. As Madame Lotini has visited Portsmouth before, it may scarcely be necessary to say a word in her praise; but it may not be generally known that when Mr. Grau commenced the Opera season at the Academy of Music, New York, last fall, Norma was selected for the *piece de resistance*, and Madame Lorini for the new "Norma", who was to astonish New York. That she did so is evidenced in the fact that she repeated the character three times. Mad. Morensi was the "Adelgiza." We hope that some of the *morceaux* of this beautiful opera will be presented during their present visit.—And then we are to have Sconcia—the inimitable Sconcia! If Ole Bull and Paganini could each attract an audience with their violin alone, surely Sconcia, with the lady artistes, should fill the Temple to overflowing.

PERSONAL.—Mr. Hanscom, naval constructor at Portsmouth, was in Portland on Thursday stopping at the U.S. Hotel. We learn from him that the Franklin, probably the best man-of-war ship in the world—will soon be launched at the Portsmouth Navy Yard; also that orders have been received at the yard to fit up the old frigate Alabama and launch her immediately for a storeship.

Orders have also been received at that yard to commence forthwith the construction of three 2,000 ton fast war steamers, and a monitor battery 300 feet in length, the latter for harbor defense. We also learned from Mr. Hanscom that in the course of six weeks 21 side-wheel gun boats (in different parts of the country) of about 1000 tons and carrying heavy armaments, are expected to be ready for service. In about the same time the 12 new class gunboats, carrying eight guns each, will also be ready for service.—*Portland Argus.*

☞ Lieut. Commander Joseph M. Bradford has been detached from the Portsmouth Navy Yard, and ordered to command screw steamer Nipsic.

☞ It will be seen, on reference to our advertisements of Auctions, that the Old South Meeting House, and the Dwelling House, No 95 State street, are to be sold to-day.

☞ We had a series of very heavy showers on Friday evening, accompanied by vivid flashes of lightning. The rain fell in torrents, flooding the streets.

☞ Lieut. Col. J. J. Storer, absent on 10 days' leave, left this city on Friday afternoon, on his return to the 13th N. H. regiment, near Portsmouth, Va.

☞ There are to be no services in the Middle street Baptist Church to-morrow.

☞ A Washington Correspondent of the Portland Press, in speaking of recent popular songs, says:—

It is a good omen, that just now in Washington, and doubtless elsewhere, the favorite is, "Rally round the flag, boys, rally once again!" I hear it as I write; you may hear it at any hour. It has been current in the army of the Potomac for months. At Chancellorville, when Jackson fell with his whole force upon Howard's cruelly exposed corps, and overwhelmed and crushed it, Berry's command was sent to the right to check the rout. As the 4th Ohio regiment of that command pushed through a tangled wood toward the point of attack, it was necessarily thrown into disorder, and the Colonel ordered his men as soon as they got through, to "form upon the colors." As they emerged into the open space somebody sang the first stave, and then the whole regiment, and another, and yet a third woke the echoes with "Rally round the flag, boys, rally once again!"

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not tear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.

This fact is well established. It is the most simple and best operating machine yet made, although forty different kinds have been put into the market, the greater part of which have proved either failures.

A sale of three hundred in this city, and a still-increasing demand, prove the popularity of these wringers. No family should be without one.

We have in from Framed Wringers at a lower price, but the best is the cheapest.

This Wringer has had an immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions."—No family should be without it. Try one; it not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR.

(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." In consequence has been that those who could not afford to purchase a First cost ventilated Refrigerator, were compelled to pro-ure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before offered.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

Morning Chronicle.

ABANDONATA.

Are they gone at last? Am I left to my rest?
Alone with the snake at my wild heart's core!
Through the hateful day from the east to the west,
The sun has done down on song, dance and jest,
On a love that is mine no more!

The Orient sky is white and still,
A pale moon wanes in the pearly South,
The wind sighs cold o'er the pine-clad hill,
Like the moaning breath, all dank and chill,
From a dying sleeper's mouth.

Woe worth the hour when I was born!
Must the clay live on when the soul has fled?
O God! to rise with the glaring morn,
To wring out the dregs of my cup of scorn,
When my heart and my brain are dead!

What have I to do with hopes or with fears?
For he will marry Eleanor Gray,
Though he swore he had loved me from childhood's years,
Had lived in my smiles, had worshipped my tears,
And she—came yesterday!

Blithely she prated of that and this—
My chosen friend, with her earthlier smile;
"She had heard of my fortune, my hopes, my bliss,
"She gave me joy," with a Judas kiss—
Clinging at him the while.

And in that glance I was bought and sold—
Not in vain was the net spread out for that bird;
He was so gallant, so generous and bold!
Poor, goody and virtue, she wanted his gold,
And lured him without a word.

By a drop of the lashes, a turn of the lip,
By the languid wreathe of her siren neck;
By the lightest touch of her finger-tip,
By the silent sound her tongue let slip,
She held his breath at her beck.

Yesterday, at the even-song,
They wandered and murmured under the trees;
All to-day, hold the wondering throng,
Heedless who marked him, reckless how long
He cat at Eleanor's knees.

His eager lips would fluttering stek
Her dainty hand—why, mine is as fair!
Or rashly hover so close to her cheek,
That she feigned to blush—that maiden meek,
Yet smiled as she bade him beware!

What can she boast that I am not worth,
Save her wanton smile and the false blue eyes?
What evil spell was cast at her birth
That she should thus beggar to uttermost dearth
The soul where my treasure lies!

My life-thread was spun out to-night,
Except without mercy, or hope, or aid;
On the earth, on the sky, embalmed bright,
Fread what she done 'neath the still moonlight,
What was said in the jasmine shade

Broken it came—"Love, take this ring."
"'Twas her's"—"Nay, I swear it, I love but thee;
Oh, stony heart, for so poor a thing
To doubt me!" the easy song to sing
To an old, old melody.

The e dently pause. The odor faint
Of the jasmine flowers crept over my brow;
But their perfumed breath was a graveyard taint,
And a graveyard knell was the tender plaint
Of the traitor's pleading vow.

"But thy troth-plight given to Isabel"
He laughed along—"What are words but air?
All love to her is an empty spell,
My cousin's bride—cold as a marble-cut dell,
And dull as a hermit's prayer."

"Nay, nay, she is fair"—"As a mint of snow!"
"And kind"—"As the beams of a wintry moon.
Oh, love, let me gather the honeyed glow
On thy ripe red lips, like roses which blow
In the fire of an Eastern noon"

Then slow, slow kisses, and melting eyes
Gazed each into each. Oh, the maddening pain!
The torture-rack when her soft replies
Grew warmer warm in her passionate sighs
That never were breathed in vain!

Oh, let me die, let me die ere morn!—
Through the dim woodpaths see a shadow glide;
When the chilly East grew crimson with dawn,
And the world awoke, the lady was gone;
They sought her far and wide.

In haste and in fear, for a sudden word
Was spoken among them which froze the blood;
And the sound of hurrying feet was heard,
And a wild cry rose, when a terror stirred,
Gazed into the dark pool's flood.

For wide blank eyes, with a glassy stare,
Looked up like flowers from amid the rest
Of pale lily blossoms which starred her hair,
Their serpent stems, round her bosom fair,
Had stifled her into rest.

The water grasses grew thick and rank
Where she lay so calm, the marsh-reeds tall
Had woven a veil, which idly sank
Over her slender limbs, and the sedges dank
Had made her a velvet pall.

* * * *

And could he marry Eleanor Gray,
With her false blue eyes and her wanton grace,
While his own true love in her beauty lay,
Slain by his falsehood in one short day,
With the murder-brand on her face?

Ay, the deed was done—the bond was tied
That built his guilt to its curse for life;
The soft mask fell from his smiling bride,
And a mocking demon stood by his side,
To rend his soul with strife.

No calm calm home—a finger of flame
Wrote Heaven's dark brand on his blighted fate;
When he bade was born to his ancient name,
When the harvest bloom of his life for soul for shame,
And lots gave to blasting hate.

'Tis a sad old tale; over the splendid dun,
To the place of death where the March winds rave,
A wand'rer, whose race is well nigh run,
Comes late and weary, at set of sun,
To weep at Isabel's grave.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Seminal Weakness, Gonorrhœa, Ulcers, pain and distress in the regions of prostration, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Tetter, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest rillings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those troubles, attended by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. Loss of power in the mind is much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases of the Female system, such as Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranted in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted world awake, the long lost song gone;

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on above specially difficult and delicate diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow invents, and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the oven. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds in families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cope can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without ever going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the material fits the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

"Round to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, in just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

WHAT AN ENGLISH CROWD DRINKS.—I never saw a crowd of such extent where there was so little that one had to disapprove of. I did not see a drunken person among them all, though the quantity of beer which an English crowd drinks is enormous. Water is an almost unknown drink in England, among all classes. On this occasion, the weather being warm, I was quite thirsty and desired some water. Whereupon, I went up to a table, where a man and woman were selling various things, and asked if I could not get some water, expressing my willingness to pay for the same. The man looked at me in a stupified way, as if I were a new species of animal. Finally, he recovered from his amazement, to cry out to the woman, at the other end of the table: "Dolly, here's a man as wants a drink o' water!" "An sure," replied Dolly, "he won't find a drop o' water here." This conversation was carried on in such a stentorian way that I felt much as I suppose the Cambridge student did, when the wait er roared through the hall his offensive remark about the fish-ball, and with many amazed eyes gazing upon me, made as graceful a retreat as I could, and thereafter kept in my own bosom the direful secret of the thirst, that only water could assuage.—*M. D Conway's Letters in the Boston Commonwealth.*

☞ The following is a list of rebel prices at Atlanta, Ga., on the 6th inst.: Printing paper, $3 per pound; chickens $3 per pair; flour $35 per 100 lbs; bacon, $1 50 per pound; beef, $1 per pound; butter, $1.75 per pound; eggs, $1 per dozen; cabbages, $1 a piece! potatoes, $12 per bushel; calico, $8 per yard; shoes, $40 a pair; boots, $70 a pair.

REBEL OPINION.—The Savannah Republican has the following:

"It seems hard for our people to learn that there is but one road to peace—a thorough drubbing of the enemy. The sooner we plant ourselves on this ground the sooner will the war be brought to a close.—Northern Democracy and foreign interference are foolish delusions which should no longer be allowed to deceive.

"HE DOESN'T TAKE THE PAPERS."
The man who doth no paper take,
Grudging four dollars once a year,
Will never a good husband make,
Because his wife can never know what is going on in the world and his children will very ignorant appear.
The last line is rather too long for a good jingle, but the moral is sublime.

MONDAY, AUGUST 24, 1863.

THE REBELLION.

The rebel cavalry is busily engaged in enforcing the conscription act in that portion of Eastern Virginia lying southwest of the Rappahannock. Parties are scouring the country for provisions and forage, taking everything. The Chattanooga Rebel anticipates the early capture of Charleston by the Federal forces. The Richmond papers are also despondent.

A letter from a prominent officer in Gen. Rosecrans's army, says that the whole country for miles around Chattanooga is swarming with deserters from Bragg's and Johnston's armies. Both of those commands are demoralized, and can no longer be called armies. Several Mississippi regiments recently deserted in a body, officers and all. The feeling among the troops against the Jeff. Davis government is very bitter, and all are anxious for the war to close and to return to their old allegiance.

The Richmond Whig has a dispatch from Charleston, 20th, as follows:—

"The enemy's operations during the last 24 hours have been mostly confined to a steady and continuous bombardment of Fort Sumter from their Parrott guns on Morris Island. Their fire begins to tell on Fort Sumter, which replies only at long intervals. The defence of the harbor does not depend mainly on Fort Sumter. Even if that Fortress should be battered down, the harbor may still be held. Gov. Bonham has issued a proclamation urging the removal of all non-combatants from Charleston as soon as possible. The 200 pounder Parrott guns of the enemy are too much for the walls of Sumter."

And then follows the customary bosh about defending the city "street by street."

A Philadelphia dispatch gives a report that Fort Sumter has been taken,—probably premature.

Quantrell, with 800 rebel guerrillas, crossed the Missouri river on Thursday evening, and marched to Lawrence, Kansas, and, posting a guard around the city, to prevent the citizens from escaping, commenced pillaging, shooting citizens and firing houses. The loss is estimated as high as two millions of dollars.

The N. Y. Mounted Rifles, from Portsmouth, Va., have made a long raid into North Carolina, and killed 30 guerrillas, drove several into the Dismal Swamp, who were drowned, and captured ninety horses, some cattle, &c. The raid was very successful.

The rebels report that our forces are destroying railroads in Mississippi extensively.

Advices from Arkansas say that all the rebel forces in that State were concentrated and fortifying at Almeda, five miles below Little Rock. Kirby Smith had arrived and taken command.

SECESSION IN NORTH CAROLINA.—Every indication of common political sense yet remaining in any seceded State is entitled to peculiar recognition. It has always seemed to us to be of importance to ascertain the actual amount of existing Union sentiment in the so-called "Confederacy"; and we have never doubted that it would, upon a competent inquiry, be found considerable. As a contribution to this inquiry, we regard an article printed in the Raleigh, N. C., Standard, of the 31st ult.—It was written by the Hon. R. S. Donnell, Speaker of the House of Commons, and it is understood that its publication was approved of by Gov. Vance.

Mr. Donnell complains that the Confederacy has not kept its promises, which were signally brilliant and have been singularly enough disregarded. It was predicted and guaranteed:—

1. That Secession should be peaceable.
2. That the war should be short—that it would not last six months—that the Yankees would not fight—that one Southerner could whip from ten to one hundred of them—that England and France would at once recognize the Confederacy with Slavery as its base—that the blockade would be raised in one year at the furthest.
3. That all the Slave States, except Delaware, would join the Confederacy.
4. That each State in the Confederacy should retain its absolute sovereignty and equal rights.
5. That the public credit of the Confederacy should be better than that of any other nation in the world.
6. They promised that they would themselves take the field and spend the last drop of their blood in defence of their beloved South.

Such was their promise—what has been their performance? Secession has not been peaceful—the war has been long, and is likely to last much longer—the Yankees "have fought with a spirit and determination worthy of their ancestors"—the Confederacy has not been recognized by the Governments of England and France—the blockade has not been raised—Maryland, Kentucky nor Missouri have joined in the enterprise—Missouri has passed an act of Emancipation, and Maryland is ready to do so, rather than give up the Union—the last hope of extending slavery into the Territories has been lost—the Confederacy, so far from securing State Rights, is nothing but a great Military Consolidation.—*New York Tribune.*

☞ There was a slight frost at Bryant's Pond, Me., on Tuesday morning, Aug. 18.

NEW HAMPSHIRE ITEMS.

—— James M. Beebe, Esq., of Boston, was chosen a Trustee of Dartmouth College but the Board adjourned without electing a President.

—— Injury to wayside trees, by hitching horses thereto, is made a statute offence by a law of the present Legislature.

—— A few enterprising citizens of Littleton have purchased twenty acres of land on the north bank of the Ammonoosuc river, of which to make an agricultural fair ground.

—— Among the drafted men in Concord are Edwin C. Eastman, Josiah B. Sanborn, John B. Palmer, and William E. Chandler.

—— During the severe thunder-shower of Saturday Aug. 15th, the barn of Abner Perkins, of Pittsfield, was struck by lightning. The glass in three windows was broken. The lightning passed through two scaffolds with hay upon them but without setting them on fire. The fluid did considerable damage however and passed to the ground in three different places.

—— A man has been drafted in Warner who weighs over three hundred pounds.—N. G. Ordway, special mail agent for New England, and Col. John George, of Gov. Gilmore's Staff, are among the favored.

—— Maj. M. C. Hazelton, of New Hampshire, Paymaster U. S. A., in charge of the corps now engaged in paying the army of Gen. Grant, died on the 3d of August, at Memphis.

—— All the N. H. troops remaining in the Army of the Potomac are the cavalry, battery and sharpshooters. We have three companies of sharpshooters, but their numbers are much reduced. By raising one more company, New Hampshire might have a battalion of sharpshooters, to be under the command of a major.

—— A spirited trot to harness for a purse of one hundred dollars—mile heats best three in five—came off over the Nashua Trotting Park Friday afternoon, 21st inst. Sam Emerson, owner, drove the black gelding "Tom Benton." J. J. Bowen handled the spotted horse "Dan Bryant," owned by Billy Morris, of Morris Bros. Pell & Trowbridge's Troupe. "Tom Benton" won the 1st and 2d heats in 2.47—2.50. "Dan Bryant," the other three in 2.53—2.50—2.56.

—— A Washington correspondent of the Boston Traveller says:—

The 14th N. H. regiment is detailed for guard and patrol duty around Washington and at the different hospitals. The health of the regiment is good and a more orderly well behaved body of troops has never visited this city. The men are physically fine looking, and their intelligence and strict military decorum reflect great credit upon the Granite State, whose hardy sons have always earned and sustained a high reputation in civic as well as military circles. Exposed to the various temptations of this wicked place, where the "gilded sepulchres of hell abound," it is fortunate that such a regiment has been placed in so delicate and yet arduous and important command.

☞ A telegram has been received at San Francisco from Maj. Gen. Halleck, ordering the suspension of the proposed harbor defenses, and directing another plan to be adopted. Instead of erecting works on Yerba and Buena Islands and Rincon Point, two large batteries of ten guns each are to be constructed on Angel Island, and a heavy battery on San Jose or Black Point.

"THE BOSTON YACHT."—The craft in which the Fort Warren pirates escaped, and which the Bostonians call a *yacht*, proves to be a rickety old "dug-out" that bears strong evidence of having been "shingled" at some remote period and more recently "putted" up. If this is a specimen of Boston yachts, we must say we do not fancy their style of marine architecture. Her fit out and sea stores are valued at $3.75, including nautical instruments.—*Portland Price Current.*

☞ Secretary Chase has commenced making regulations, subject to possible modifications, for permitting the new National Banks to become the depositaries of the proceeds of the Internal Revenue. Adequate securities are to be demanded for a strict compliance with the Treasury regulations.

☞ The Chief Engineer of side-wheel steamer Sonoma, 14, is dismissed from the Navy, for neglecting the engines of his vessel, and Secretary Welles deems the circumstance worthy of a general order, in which he says:—

"In adopting this summary course, and in holding up the case of Mr. Rhodes as a warning to other engineers in the service, the Department is not influenced merely by the consideration of the damage done to the machinery of a new and valuable steamer. Upon the vigilance and fidelity of this class of officers depends not only the safety of public property, but that of the lives of the officers and crews of our steamships of war. Whenever, therefore, as in this case, the Department is satisfied that the senior engineer has been culpably inefficient in the discharge of his duties, it can have no hesitation as to the course to be pursued."

☞ A meeting of politicians of the late Bell-Everett party was held at Rochester, N. Y., on Tuesday. It is said that 20 persons were present, representing Kentucky, Wisconsin and New York, and the object was thought to be the formation of a Hermaphrodite party that may possibly hold the "balance of power" at some future election.

TRIP TO THE WHITE MOUNTAINS.

JOTTINGS ON THE WAY.—BY J. H. H.

NORTH CONWAY, Aug. 21.

The inhabitants who live near the ocean flee to the mountains, and the denizens of the hills seek the sea shore, both parties being satisfied with the change. It was a lovely afternoon that I found myself waiting in the depot at Portsmouth for the arrival of the noon train from Boston—a number of travellers whiling away the time with me, among them Col. John H. Jackson and family. Anxious eyes were watching the little speck on the distant track, which soon assumed the proportions of a train of cars, and came whizzing and puffing into the depot. A rush is made for seats, and we are on our way to Alton Bay. The cars contained an excursion party from Salem, making the company quite pleasant. Alton Bay is reached, and we are steaming up the beautiful Lake Winnipisaukee.—Soon a cold wind comes up, and all but a few of the passengers seek shelter below deck. Now we are stopping at Wolfboro'. Here I met young friends who had come down from Centre Harbor to welcome me. We had a pleasant chat of last week's visit, the Tableaux Company, and the Concert which was gotten up impromptu. We soon arrive at Centre Harbor Wharf, and make haste to reach the hotel to secure a room. "No room!" is the response of Mr. Huntress; but a young friend kindly offers us half of his bed. The tea bell is a welcome sound to a weary traveller, and we are soon seated at the table, where are gathered a few of the notables of the times.

Gen. Butler sits at the head of the table; his wife and daughters are near by: next are Gen. Sprague and Miss Chase; on the opposite side of the table is seated Gov. Andrew. Gen. Strong's widow is at the lower end of the table; her husband laid down his life at the assault on Fort Wagner. Col. Jackson is at my side, and a couple of hundred other guests help make up the interesting circle. After tea we had a grand amateur concert.

Wednesday morning I started for Conway. A party of ten chartered a private stage, and at 8 1-2 o'clock, A. M., we bade adieu to kind friends and were on the road.

Among the passengers was Gov. Andrew. We pass through Moultonborough, a quiet old country town. Red Hill looms up in distance, and near it is a hill with a path leading up to the summit. This path was made by an immense boulder, which started from its bed at the top of the mountain by lightning, which uprooted a heavy tree, on the roots of which the boulder rested.—Down it came, through the dense forest, cleaving a path fifty feet wide. A curious rock now comes in sight, called the lion rock. It is a fine representation of a couchant lion.

We arrive at Tamworth—thence ride along the shores of the Ossipee pond, which is very beautiful. Mount Chocorua ("The Old Bear") now comes in view. It is one of the most notable of the lower peaks of the White Mountain range. It is a bald head granite mountain, with pinnacles. All along this part of our route the peaks of Chocorua met our view—now at the left and then receding in the rear. At Tamworth we change horses and eat a lunch.—Finding a broken melodeon in the parlor, the passengers gathered around it and we had a number of songs.

We are on the road again, looking for new beauties, which are spread out at every turn in the way. Mountains in the foreground, mountains in the distance, and rising up like shadowy ghosts are seen the range of the White Hills. The day is a lovely one, and nature is clothed in her green livery. One can but think how beautiful is the earth, how great is the God who formed the hills and the valleys and thro' them led the sparkling waters. "In what rich harmony, what polished lays, should man address thy throne, when nature pays her wild, her tuneful tribute to the sky!"—The driver decided to take a new road, that he seldom drives on. Who will say that a divine Providence did not direct him?

We had driven but a few miles, when flames were seen arising from a dwelling-house on the top of a hill. The horses were put into a gallop and the coach rattled up in front of the burning building. A dozen frantic women and a few boys were endeavoring to extinguish the flames by passing water from a well near by. Our arrival was hailed with delight, and all hands were soon at work on the fire. Gov. Andrew was among the most intrepid of the amateur firemen—at one time on the roof, surrounded by smoke and burning cinders, then at work at the chain pump or bearing water to the chambers above. Ferdinand W. Soydam and Geo. Augustus Landham, of New York, were also quite instrumental in subduing the flames, while your correspondent was in the front rank. Half an hour's work got the flames under, and the house was saved. Just as we had finished our work, a number of artists who boarded at the house came up, somewhat surprised at the gathering. With heartfelt thanks from the occupants ringing in our ears, we mounted the stage and proceeded on our way.

We pass through Madison and, after an eleven mile ride, stop at Conway. The Conway House, kept by Timothy Wolcott, is an excellent hotel, particularly famous for its omelettes, which will be found very palatable after the ride from the Senter House. The house is overflowing with boarders. It was 4 o'clock when we arrived there and every one was soon busily engaged in scrubbing off the dust and preparing for dinner. After dinner we started on to North Conway, five miles further. Kearsarge and Middle mountains rise in the north, and on the east bank of the Saco river can be seen the peaks of Chocorua and Mot mountains, and the surpassing glory of the place—Saco Valley, with Mt. Washington in the distance. Arriving at the Kearsarge House, the best one here, we found it full, but were accommodated with rooms at a cottage near by and took our meals at the house. Here I met Rev. Mr. De Normandie and Judge Doe, who had just arrived from the Glen House. This morning I have visited the points of interest in this vicinity—Artist's Falls, Echo Lake, Cathedral, Mount Kearsarge and the ledges.

☞ The engineers on the Erie Canal are making a survey for the proposed extension of the locks. The surveys and estimates are for locks two hundred and twenty-five feet long between the gates, and wide enough to pass boats twenty-six feet wide. It is supposed that locks of these dimensions will enable boats of five hundred tons burden to navigate the canals, and also pass iron-clad gunboats into the lakes if required.

MAINE VOTE, in 1862.—The official declared vote for Governor was:—Coburn 49,783, Bradbury 33,742, Jameson 7,696, cattering 86. Coburn's majority 5,359: his plurality 13,307; *majority against Bradbury* 20,823. This year Mr. Bradbury is renominated, against Saml. Cony, Union.

☞ It is noted by the English papers that the prize winners in recent militia rifle matches were all blue-eyed men.

☞ The Woolwich Select Committee altogether discard cast iron for rifled guns, as being unable to be made of service.—They recommend coating shot with lead for rifled guns.

☞ Mr. John Smith, the Montreal pedestrian, has recently walked twenty-one miles in three hours.

☞ The rebel government besides paying Mosby's partisan rangers so much per month for their services, also allows them large amounts for the goods and valuables captured.

☞ The Oxford, Me., Democrat says that in a divorce case, on the docket for trial next term, both of the parties are deceased.

☞ The temporary necessity for the use of private shinplasters having passed away, only postal currency and coin, will hereafter be received at the Chronicle office.

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if every body knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

State of New-Hampshire,
ADJUTANT GENERAL'S OFFICE,
[L. S.] Concord, August 19, 1863.
For the information of all interested, it is hereby announced, that the draft is made according to the quotas assigned to the several towns, or districts, by the Provost Marshal General.
The District Provost Marshals have nothing to do with the claims of the different towns for men heretofore furnished. But, when the Governor shall make it appear to the Provost Marshal General, that particular towns have heretofore furnished a surplus of men over their quotas, "An order will be issued discharging from the service of the United States a number of men called into service by the present draft, from said towns, equal to the surplus proved to have been furnished heretofore. Towns will thus get credit actually for their excess on former calls."
It is therefore necessary for such towns as claim to have furnished a surplus of men, to present to the Governor satisfactory proof of such surplus having been actually furnished, and if this proof be presented in season, the men may be discharged before leaving the State.
ANTHONY COLBY, Adjutant General.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by use results.

AUCTION SALES.—The Old South Meeting House was sold on Saturday by Joseph B. Adams, to William B. Russell, for $170. Leonard Cotton bought the pews for $30. The building is to be removed within thirty days.

This House was erected by the South Parish in 1731. After the frame was raised, Rev. Mr. Emerson, the pastor, standing on a temporary platform, offered a prayer on the occasion, in which he gave thanks that no one was hurt. This was his last public service.

After him, in that house, the preachers were Rev. Messrs. William Shurtleff, Job Strong, Samuel Haven, Timothy Alden, jr., and Nathan Parker.

After the South Parish, with Dr. Parker their pastor, removed to the Stone Church, the Old South was used as a Mission Church by Rev. Mr. Davis and others. It was afterwards sold to Mr. Dennis Libbey, and occupied by the Freewill Baptists, whose ministers were Elders Davis, Marks, and others. By Mr. Libbey's administrator it was sold to the City,—and is now taken down, we presume, to afford a site for a ward room, engine house, and school house, all in due time.

House, No. 95 State street, was sold at auction, Saturday noon, by Henry F. Wendell, for $2500. Mr. John Stavers was the purchaser.

☞ Capt. Thacher's company have returned to this city from Concord, having been paid off and mustered out of the United States service on Friday afternoon. Their last payment, previous to this, was to May 1.

☞ Sergt. E. A. Tilton, of this city, Co. K, 13th N. H. regiment, has been appointed 2d Lieutenant in the U. S. Invalid Corps.

☞ The Concert for to-night is of the first order,—just like the best in the metropolis. The ever-charming Lorini, and the favorite contralto Morensi, with Sconcia's eloquent violin, and Mr. Marston at the piano, will meet their usual success in delighting their audience. All lovers of first-class music know, as well as we, the feast prepared for them if they will.

☞ The town of Gosport, Isles of Shoals, has svoted to pay $300 to their seven drafted men, or their substitutes, and have promptly taken measures to raise the money.

A gentleman writes us:—

Greenland, like other towns in the State, has been subjected to a draft from its young men for conscripts in the U. S. service and it should be mentioned to its honor that the citizens have cheerfully raised by private subscription upwards of three thousand dollars to procure substitutes, a large portion of which has been subscribed by persons of moderate means.

☞ Our friend of the Nashua Telegraph, in speaking of a recent visit to this city, says he "looked in vain for the cast iron speaking trumpet at Fort Constitution."—Perhaps that big gun had been taken in for the night.

☞ Postmaster General Blair left Washington for this city, on Friday. He will spend a few days with his family at the late residence of Judge Woodbury.

A workman in the Portsmouth Navy Yard is reported to have confessed the murder of a man named McPherson, who disappeared from Rochester, N. Y., two years ago.—*Boston Journal.*

If the above be correct, it must refer to Portsmouth in Virginia, as no such thing has transpired here.—*Portsmouth Chronicle.*

And as no such confession has been made by any one in our Yard, the report must be without foundation.—*Norfolk Virginian.*

THE PAYMENT OF OUR TROOPS.—When the bill for raising money for paying our soldiers in the field was put upon its final passage in the United States House of Representatives, it received a vote of one hundred and fifty members. The only members who voted against paying our brave troops were:

Clement L. Vallandigham, of Ohio, now an exile in Canada, having been charged with complicity with the enemy.

Benjamin Wood, of New York, re-elected Representative to Congress.

H. C. Burnett, of Kentucky, expelled from the House of Representatives for treason, and now, or lately, in the rebel army.

Ebjah H. Norton, of Missouri, who ran away from his home, and is now in the rebel army.

John W. Reid, of Missouri, expelled from the House of Representatives for treason, and now, or lately, in the rebel army.

It will be observed that the three companions of Vallandigham and Wood in this vote are now avowed rebels.

HAYTIEN COTTON.—George Smith, recently a slave, sailed for Hayti with 34 packages of agricultural implements, in the British schooner Planet, which left Boston, Tuesday. Mr. Smith has under cultivation 200 acres of land, near St. Marc, Hayti, from which he expects to gather 100,000 pounds of cotton this season. It is expected the cotton crop of Hayti will be 8000 bales this year, against 2000 for 1862.

It is now one of the "Domestic institutions."—No family should be without it. Try one; if not satisfactory, the money will be refunded.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great features necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of constructing them so expensive as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer to the million a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

HEDDING CAMP MEETING.

In a pleasantly located situation in Epping, about a mile from the Railroad, the "Hedding Camp Meeting Association," of the Methodist Dover District have selected and purchased a site for their camp meetings, which, we understand, is delightfully suited to the purpose. Quietly retired, with an active spring of very cold water opening in the midst of the grove, and with added arrangements for cooking for the multitude, there is everything which could be wanted for convenience and for enjoyment of the meetings. The Association appears not to have done the thing by halves, but to have made everything complete, and the railroad, with the usual promptness and liberality of its present managers, has arranged its track to accommodate the use of the grounds. The meetings commence this Monday and continue through the week. Railroad fares to the meetings are reduced to half rate.—Special trains will daily leave Portsmouth at 5.45 A. M.—9.00 A. M.—1.15 P. M.—4.20 P. M.

Returning, leave Camp Ground at 9.20 A. M.—11.40 A. M.—4.50 P. M.—6.40 P. M. Tickets to go from Portsmouth and return 60 cents.

SILVER WARE.—In the returns of the Internal Revenue, we find sixty-five families in Portsmouth have returned for taxation the amount of silver ware for which they are taxable, that is, the amount they hold above forty ounces. The largest return from any individual including the forty ounces, is 1840 ounces. The next in order 364, then 358, 334, 320, 320, 302, 298, 285, 229, 225, 222, 215, 215, 215, 200, and forty-nine return less than 200 ounces each.

The whole amount returned is 10,553 ounces, or 876 pounds. As there are more than a thousand families which own silver in less quantity than 40 ounces, it is fair to presume that not more than one-third of the silver ware in Portsmouth is taxed. We do not give the names of the owners, as it might prove a directory for thieves.

The Boston Traveller says, "the new steamer Wawa, designed to run between Dover and Portsmouth in connection with trains on the Eastern Railroad, until the completion of the Dover and Winnipiscogee Railroad, will be in readiness to go on her route this week."

We shall feel more assurance of the fact, when the steamer commences running. The project is said to be that of a Dover visionary, who projected and promised a steamer to run regularly between the Navy Yard and this city—also some other steamer enterprises, which proved to be instead of steam only *smoke.*

RICHES OF THE WEST.—Members of the Western lately visited the Eastern Board of Trade in Boston. At a dinner party, Mr. Hadley of Milwaukie, spoke eloquently of the resources and capacities of the West. A little more than ten years ago, Wisconsin sent to other States for bread stuffs. She now exports *eighteen millions* of bushels of wheat per year! Chicago had set the porkopolis of Ohio (Cincinnati) in the shade. Illinois has made corn cheaper to *burn* than wood. They can clog every warehouse between Chicago and New York when they can get transportation.

THE POTOMAC ARMY is now rapidly filling up, between one and two thousand conscripts daily arriving. Substitutes are found in abundance, offering from one to two hundred dollars. The days of the rebellion we trust are numbered.

NORWICH UNIVERSITY, VT.—The Commencement took place last week. A Correspondent of the Concord Patriot says, there were ten cadets to graduate, but one is in the army, another was sick, and a third had been drafted, so there were only seven to speak, and these performed their parts well. The subjects of these pieces were judiciously chosen, and they were delivered in an earnest, manly manner. The only New Hampshire name I noticed among them was William Haven of Portsmouth. His subject was the "comparative importance of Mathematics and the Classics in a liberal education," and he treated it well too.

DEATH OF COM. MORRIS.—We regret to record the death of Commodore Morris, who came to this city from New Orleans in the Hartford. There was a hope yesterday that he might live on, but to-day, at twenty minutes past twelve o'clock, he expired in this city, in the presence of three of his four sisters, and surrounded by a number of friends. Commodore Morris has taken an active and useful part in the war. As commander of the Pensacola, he ran by the rebel batteries on the Potomac, in the Summer of 1861. He was among the foremost in the fleet up the Mississippi, when the surrender was made, and in the capture of New Orleans, and in more recent, but hardly less valuable services to his country. His loss is sincerely to be deplored, and especially at a time like the present. Commodore Morris died unmarried:—*New York Express, Aug. 14.*

On the 18th, a gentleman going from Berlin to New York, had a box of rattlesnakes to take along but the box was not put on board for some reason, and so it followed him in the afternoon train. During the ride to New Haven, one of the delightful animals got out and gave the baggage man and mail agent some very pretty ideas of gymnastics, which the latter threw in. They flew around pretty lively—baggage men, snake and mail agent and about forty unemployed mail locks were called to immediate use by the gentlemen who vainly tried to shell him out.

ADJUTANT GENERAL.—Daniel E. Colby, Esq., succeeds his father, Gen. Anthony Colby, as Adjutant, Commissary and Quartermaster General. Mr. Colby is very correct and careful business man, and having "got the hang" of the office by his experience as his father's assistant, will undoubtedly be able to perform its duties well. We congratulate him upon his promotion.—*Patriot.*

A STEAM WAGON, says the Andover Advertiser, visited that place from Boston on Thursday, and was looked upon by all with much curiosity.

No. 84.

CITY OF PORTSMOUTH.

In the year of our Lord one thousand eight hundred and sixty-three.

AN ORDINANCE for the protection of Shade Trees.

Be it ordained by the City Council of the City of Portsmouth, as follows:

Section 1. That any person or persons who shall, without leave first had and obtained from the Mayor and Aldermen of said city, dig up, remove, destroy or mutilate any shade tree situated and growing within the limits of any public street, or highway in, or passing through said city, shall, upon conviction thereof, be punished by a fine of not less than one dollar nor more than twenty dollars, for each and every tree, dug up, removed, destroyed or mutilated as aforesaid.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 Sears Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Thus, he has now the most extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be *surest* having the most faithful attention bestowed on their cases, and at the most reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

ATTENTION, THE WHOLE!

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had fits or call them for a number of years—some of the time so frequent as to hinder her labor, or even rest—as it affected her hands very much. A large sum had been expended to the physicians without any benefit. Mrs. Sanford's Syrup, &c., &c., but she obtained no relief until I procured some six or twelve bottles of Dr. Swayne's Vermifuge, and a dozen bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. The Vermifuge has been as equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.

JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1852.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health.

M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

Dr. Swett: Permit me to say publicly, as I feel it my duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced taking your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named.

ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of success, and the great experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, painand distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Fistulas, Swellings, and all those diseases of which patients have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be *surest* having the most faithful attention bestowed on their cases, and at the most reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

☞ ATTENTION, THE WHOLE! ☜

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had fits or call them for a number of years—some of the time so frequent as to hinder her labor, or even rest—as it affected her hands very much. A large sum had been expended to the physicians without any benefit. Mrs. Sanford's Syrup, &c., &c., but she obtained no relief until I procured some six or twelve bottles of Dr. Swayne's Vermifuge, and a dozen bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. The Vermifuge has been as equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.

JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1852.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health.

M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

Dr. Swett: Permit me to say publicly, as I feel it my duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced taking your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named.

ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and a new heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the smoke is irregular we can by building the depressions—which can be done in any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.

Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much troublesome suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

A REBEL TAUGHT "PRUDENCE."—The Tribune correspondent says that last Saturday afternoon, while our batteries were firing on Sumter, a rebel officer in Fort Gregg evidently designing to watch the effect of the shot (and very probably drunk, we should think), brought his camp chair out upon the parapet of the fort, and sat down as coolly as if he was not within the range of fifty or sixty Parrotts. One of our artillerists, desiring to teach him a lesson in prudence, let fly a twenty pounder Parrott shot and sent him tumbling off his chair into the fort.

CURIOUS LANDSLIDE.—We learn that a somewhat remarkable landslide took place on the farm of Mr. Newell in Shelburne, on Saturday last. As discribed to us, some five acres of land suddenly sank away, as if let drop by the running out or change of place of a supporting quicksand. A small wooded hill was cut in halves by the operation, one half remaining at its old level, the other dropping a number of feet and leaving a perpendicular face of earth, reaching above the tops of the trees which crowned the now sunken half of the hill top. Some of these trees were split length-wise by the operation, one-half remaining up and the other going down, with their respective sections, much as some families here have been divided by the war. The bed of the LaPlot river was also raised twelve or fifteen feet in spots, not by the earth sliding in but by an apparent crowding up of the bed of the stream. On the whole it was apparently a singular affair. No one saw it take place, but the hour at which it occurred is fixed by some workmen who having left with a load of hay returned to find their field of labor some ways below where they left it.—*Burlington (Vt.) Free Press.*

Quilp enjoys the society of matter-of-fact people hugely, and sometimes banters them a little—just for fun, you know. He met two of this class of persons on a recent occasion when a young lady recited from Bulwer's "Lady of Lyons" Melnotte's beautiful description of his imaginary residence by the Lake of Como. At the conclusion of the reading one of these literal folks wished to know what was meant by the phrase "perfumed light." Quilp replied, with well-assumed gravity, that he "was sure it could have no reference to *Kerosene Oil!*" The other matter-of-fact man, whose car (or ears) obviously misled him as to the real word employed by the author, remarked that what puzzled him most was the statement that "every air was heavy with the *size* of orange groves"—and that the dimensions of the groves must be very large indeed to produce such a wonderful effect upon the atmosphere! Quilp was too much overcome to offer any explanation.—*Boston Post.*

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to his business, particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases shunning with unmerited success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their vitals and shattered the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, when in death, now rejoice at all his kindness, and remarkable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the various diseases.
DR. TELLER'S GREAT WORK
A book for everybody.—Startling disclosures. Dr. TELLER's great work on the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Reader. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoit's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see circulars which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 25, 1863.

THE REBELLION.

A steamer from off Charleston brings dates to Wednesday morning. Gen. Gilmore's siege batteries and the navy shore batteries commenced the attack on Fort Sumter on Monday morning. The monitors, aided by the wooden fleet, silenced Fort Wagner, and almost silenced Fort Gregg, thus enabling the shore batteries to fire on Sumter. A shot from Wagner broke a piece of the interior lining of the monitor Cattskill, when within 150 yards of that fort—the piece striking the heads of Commodore Rodgers and Paymaster Woodbury, (appointed from New Hampshire,) instantly killing both of them. These were the only persons injured. The damage to the walls of Fort Sumter by the shore batteries and the monitors is visible without the aid of a glass. The south and east faces of the fort look like a honeycomb. No damage was done to our fleet. The harbor and Stono river are filled with torpedos.—About a dozen of them were picked up in the Stono, and one was exploded under the Patapsco, raising her a foot out of water, but doing her no harm.

The N. Y. Herald's account states that the parapet of Fort Sumter has been completely demolished, and the abutment at the southeast angle mostly torn away.—Breaches are made, through which our projectiles fly, crushing the opposite wall.—They can be plainly seen. A rebel dispatch states that the Federal land batteries of 200-pound Parrott guns kept up a continual fire against Sumter on Tuesday and through the night, and also through Wednesday. The roar of cannon heard in the city was tremendous. The casualties at Sumter were one killed and 13 wounded; at Fort Wagner 7 killed and 24 wounded. Among the killed is Capt. Wampler of Va., Chief Engineer of Fort Wagner.

It is again stated that Lee has been reinforced, and is preparing to attack Gen. Meade.

An expedition sent out by Gen. Hurlburt to Grenada, Miss., on the 17th, destroyed fifty-seven locomotives, upwards of four hundred cars, the depot buildings, machine shops, and a large quantity of ordnance and commissary stores, having first driven away Gen. Slimmer with 2000 men and 3 pieces of artillery.

Gov. Letcher, of Virginia, has issued a call for an extra assembly of the Legislature, Sept. 7, to devise means for the public defence.

The Richmond Whig talks about purchasing the aid of France.

The Hudson, Tenn., Journal (rebel) regards Bragg as in a very hazardous and perplexing position, from Gen. Rosecrans' movements.

Gen. Rosecrans opened fire on Chattanooga on Friday, Gen. Wilder having previously burned a railroad bridge, cutting off all communication between the right and left wings of the rebel army. Joe Johnston commands there. Rosecrans is progressing favorably.

Fort Sumter had been silenced on Thursday.

☞ The Washington Star, in commenting upon the telegrams from Charleston contained in the Richmond papers, says:

Sumter being subdued, the lion's share of the work of reducing the other harbor fortifications and of removing the rebel channel obstructions falls upon the ironclads, as the army cannot probably get another so available foothold as they have attained on Morris Island. We should not, therefore, look for the fall of Charleston to follow immediately upon that of Sumter, as the task of advancing will now present a new class of difficulties to be studied and overcome; but that they will be overcome there is not the slightest doubt, and that the rebels think so too is evident from the order issued by Gov. Bonham for non-combatants to leave the city.

☞ A letter from the ship Storm King, dated Foochou, China, May 27, states that a large and fast schooner, formerly the John Roe, of Mailer & Lord's Baltimore line, had arrived there under the name of Ambridge, as a British vessel, and reported from the Pacific Islands. It was generally believed, however, that she was a rebel privateer, as she was taking guns on board, ostensibly for the purpose of conveying some wood junks down the river. She was commanded by Capt. M. F. G. Key, of Baltimore, a relative of the person who wrote the "Star Spangled Banner." He is an out and out Southerner, a dashing young man, who lives in splendid style, sports the rebel coat of arms in his cabin, and flies the rebel flag on his small boat and forward on his vessel, and fires a salute every time he hoists colors.

☞ Ship B. F. Cutting, Maloney, from Liverpool, arrived at New York on Monday, and reports being captured by the rebel privateer Florida on the 4th inst., lat. 41 10, lon. 44 20, and bonded for $40,000. At the time when the Florida left she gave chase to a vessel to the windward, apparently an American.

AN ABRIDGMENT OF WHITING.—Many readers are aware of the fact that Mr. Whiting, Solicitor of the U. S. War Department, has published a long essay on the "War Power" of our government to crush out slavery in the rebel States. It is quite too long for us to publish, but the reader may get some idea of it from the following brief notice in the Commonwealth:

The Constitution as interpreted by our lawyers is as great a puzzle as the old problem of motion was to the Greek sophists.—Mr. Whiting will have with posterity the great credit of having discovered that *Solvitur ambulando*, "Jump up and try," method, which is swiftly transforming the compromises of the Constitution into statutes of Freedom. By his Essay on the "War Power," he took away the breath of numberless "judges, jurymen and pleaders," while he only laid down a chart of the course we were actually sailing. In this letter he has attempted some sailing directions, of which, however, the substance is, "Don't take a Pirate for a Pilot." The good sense which God has vouchsafed to all other men, and to some lawyers, will sooner or later make the whole country see the force of this advice; but for the present there is great recalcitration, even among the Republicans. Let us, then, briefly sum up Mr. Whiting's arguments:

These are his assumptions and inferences, expressed or implied:

I. The war has a cause—an Idea.

II. This Idea cannot be slain in battle.

III. Consequently it must be overthrown by a Policy.

IV. This Idea is Protection to Slavery, and its great bulwark is State Rights.

V. Until the Idea is overthrown, the bulwark cannot be surrendered by the enemy. We wish to "repossess ourselves of the forts."

VI. Reconstruction, as commonly understood, is to give back the forts to the enemy and arm their garrisons.

VII. When the rebellion became a territorial war, such reconstruction became an absurdity.

VIII. It is a fallacy to suppose that conquered traitors are citizens. Consequently they have no claim to the rights of citizens.

IX. Our true Policy is the destruction of Slavery, as a means of self-defence against future wars.

X. To destroy Slavery, the loyal States must hold the disloyal States under control, till the people are willing to consent to its destruction.

XI. The Government is pledged to this by the Proclamation of Emancipation.

XII. The Constitution not only permits, but requires it.

Now if there are any who doubt that Slavery is the cause of the war, or who admit that, and yet do not desire its destruction, they will stick at propositions IV and IX; if there are any who think there is a better way to destroy Slavery than by National legislation, they will question propositions X and XII. But the "logic of events" is fast converting all patriots to the views so ably illustrated by Mr. Whiting; it is the duty of the press to see that the country is not betrayed in the meantime by cunning politicians, who cry out for the "Union as it was, and the Constitution as it is," but who mean only to defend Slavery, and perpetuate their own power.

DEATH OF HON. JOHN A. GURLEY.—The telegraph a day or two since announced the death of Hon. John A. Gurley, which event occurred at his residence near Cincinnati. Mr. Gurley was a native of Connecticut, and in early manhood was a minister of the Universalist denomination. He removed to Cincinnati about twenty years ago, and became editor of a Universalist paper bearing the name Star of the West. At length his health became poor, and he took charge of a farm in the suburbs, and was thence called into public life in 1858 by the republican nomination and election to Congress. He was re-chosen in 1860, and during his period of Congressional service, as at all other times, was a man known for his intelligence and fearlessness. He was deeply interested in the development of the resources of the West, and was an early advocate of the organization of the territory of Arizona, of which he was at the time of his decease the territorial Governor. Mr. Gurley was less than fifty years of age. By his death the duties of Governor of the territory of Arizona will devolve, until a successor is appointed, upon Richard C. McCormick, of New York, who is the territorial Secretary.

☞ The following general order has been promulgated from the Army of the Potomac—

The practice of desertion by substitutes under the draft has become so prevalent that hereafter the extreme penalty of martial law will be awarded to such delinquents as may be recaptured, and extraordinary efforts will be made to effect that object. The evidence in many cases tends to show that the offenders offer themselves as substitutes for the purpose of obtaining the bounty and risking the chance of recapture and official clemency.

☞ The Ex-Secretary of the Treasury, Hon. Howell Cobb of Georgia, who was reported killed at the battle of Antietam, is according to rebel papers, alive and well. He has been stationed in Florida for the last year, but was at Macon, Ga., a week or two since, on his way to Columbus, Ga., to assume command. A wish was expressed by the Confederates to transfer him to a high civil trust, but he replied that he preferred to remain in his present military position.

☞ The French General Forey gave a grand ball in Mexico about six weeks ago. Three thousand men were present, and only five hundred ladies!

EDITORIAL JOTTINGS.

A recent drive to Exeter, and thence through Newmarket home, show us more women and girls at work in the hay fields than we had ever seen before, probably in the whole course of our life. Another result of the war, as of all wars—and in itself considered, not at all a sad one.

At Exeter, as everywhere else this summer, it was difficult to hire a horse, the livery and hack teams being in constant requisition, and well jaded. Hotel and stable keepers never saw the like before.

A drive to Cape Neddick did not show us the results of so much patriotism. And the road, till you come to York village, which is beautiful, is uninteresting in all respects—the road-bed rough, and the scenery unattractive. We came home via Kittery Point—but though the views near the Point are truly picturesque, yet the path most of that way is rugged indeed. We were almost too late to cross York beach, and carried away a trace of the harness in hurrying up; and while anxiously watching the patched-up rigging over the jolting road, we could but think of the traveller who asked the backwoodsman which of two paths, from a fork, he had better take; and the reply, that "if he went *this* way, before he got through he would think he was on the road to the devil; and if he went *that* way, he'd wish he'd taken t'other road."—However, it is well worth the while of all who can, to visit Cape Neddick, and to drive home at least once, per Kittery Point—though Maine roads, in this vicinity, *be* nothing to boast of.

A couple of trips to Rye Beach, with friends, found the hotels packed, jammed full—which might not have been the case were the Ocean House accommodations for two or three hundred still in the market.—The hostelries have all done well this summer—and we are glad of it, for it isn't everybody who knows how to keep a hotel, and it is a dog's life for those who do, at best.

☞ In New Orleans, on Thursday evening, 15th inst., Henry Myer was struck by lightning, burned on his left side from head to foot, and picked up as dead. An inquest was held on him, and a verdict returned in accordance with the fact. But the Picayune learns that on Friday evening he came unexpectedly to life, just as preparations were being made for his interment; the priest, the coffin and everything being in readiness.

☞ The session of the Medical Department of the University of New York, for 1863-4, will begin on Monday, Oct. 19, and will be continued until the 1st of March. The facilities afforded by this college to persons wishing to become thoroughly competent to discharge the duties of a physician, are unusually great. The Faculty contains such eminent men as Dr. Mott, and Dr. Martyn Paine: the lectures are on a varied list of topics, while the opportunity to visit the New York hospitals, &c., is of great advantage.

☞ A girl of 16 at South Boston robbed her mother—who was on her death-bed—a few days since of $180—recently drawn from a savings bank, and she then left for New York with a young man, and has since lived with him in disgrace. In the meantime her mother died, and was buried by the charity of friends.

☞ Hail-stones, four and a half inches in circumference, fell in Winthrop, Mass., during the brief storm on Thursday evening last. 600 panes of glass were broken in one glass house; and the fields of corn had almost all the leaves cut from the stalks.

☞ It was reported on 'Change in St. Louis, on Saturday last, that the Government has taken up, for the use of Gen. Grant's army, all the corn, oats and hay now *in transitu* from St. Louis to New Orleans. The market prices will be paid for them.

☞ Messrs. Thompson & Co., the lessees, have purchased of the proprietors, the Sagamore Hotel, Lynn, for the sum of $21-800. The hotel was built by a joint stock company in 1854, and cost, including land, furniture and fixtures, about $45,000.

☞ Lemons are now selling in Philadelphia at a dollar per dozen—a higher price than they have attained for a long period.—None have arrived of late, and the demand for the fruit for sanitary purposes is very great. Hence their present inordinate price. There are none in market except retail lots.

☞ In his newspaper of last week Frederick Douglas announces his abandonment of the duties of editor and publisher, saying that he can now find a place for his views on slavery in some of the leading papers of the country, and that a special organ is no longer necessary.

Punch has made the discovery that when a ship goes into port, she usually steadies; but when port gets into a man, he usually reels.

☞ Hon. John N. Goodwin, of Maine, has been appointed by the President, Governor of the territory of Arizona, vice Gurley, deceased.

☞ Parson Brownlow is about to establish his newspaper again.

A MISSING BOAT.—The Portland Press state that the Collector of Customs at Gloucester telegraphed to the Collector in Portland that a sloop boat was taken last week from Manchester, a seaport in Essex county, nine miles northeast of Beverly; she had a round stern, was about ten tons, with no gaffs to her mainsail, named "Una." As four prisoners escaped from Fort Warren, it is probable that two are still at large.

☞ English travelers have been shocked. A crazy man, shut up in a railway carriage with two passengers, attacked them with a knife. A bloody conflict was kept up for half an hour. Finally the maniac was overpowered. The conductor neither saw nor heard of the frightful occurrence.

☞ There are many friends of Mrs. Anna Cora Mowatt, now Mrs. Wm. F. Ritchie, who will be glad to hear that, though her husband is editor of Jeff Davis' especial organ, she is invincibly loyal to the Stars and Stripes. She is living in England.

☞ General Sigel has been relieved from his duties in Pennsylvania, and his staff mustered out of service. It is also rumored that all the unemployed volunteer generals are to be mustered out of the service immediately.

☞ A Charleston, S. C., paper says "neither torrid heat above nor burning sands beneath seem sufficient to deter the indefatigable Yankees from their favorite tactics of digging."

☞ ATTENTION, THE WHOLE! ☜

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—sometimes of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to no the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEETS PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

State of New-Hampshire,

ADJUTANT GENERAL'S OFFICE,
[L. S.] Concord, August 1, 1863.

For the information of all interested, it is hereby announced, that the draft is made according to the claims of the different towns for men heretofore furnished. But, when the Governor shall make it appear to the Provost Marshal General, that particular towns have heretofore furnished a surplus of men over their quotas, "An order will be issued discharging from the service of the United States a number of men called into service by the present draft, from said towns, equal to the surplus proved to have been furnished heretofore. Towns will thus get credit actually for their excess on former calls."

It is therefore necessary for such towns as claim to have furnished a surplus of men, to present to the Governor satisfactory proof of such surplus having been actually furnished, and if the proof be presented in season, the men may be discharged before leaving the State.

By order of the Governor,
ANTHONY COLBY, Adjutant General.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation.
